Financial Information Accounting And The Law Cases And Materials:

Financial Information, Accounting, and the Law James D. Cox, 1980 **Research Handbook on Shareholder Inspection Rights** Randall S. Thomas, Paolo Giudici, Umakanth Varottil, 2023-05-09 Shareholder inspection rights form an important tool for shareholder protection. They offer shareholders seeking information private access to specific books and records of the company that are otherwise not publicly available. While there has been a discourse on the topic in some jurisdictions such as Delaware USA, it has not received scholarly treatment at an international level. This Research Handbook seeks to alter that and signifies the first endeavor to engage in a comprehensive and comparative analysis of shareholder inspection. *Law and Class in America* Paul Carrington, Trina Jones, 2006-06 In *Law and Class in America*, a group of leading legal scholars reflect on the state of the law from the end of the Cold War to the present, grappling with a central question posed to them by Paul D. Carrington and Trina Jones: have recent legal reforms exacerbated class differences in America? In a substantive introduction, Carrington and Jones assert that legal changes from the late 20th century onward have been increasingly elitist and unconcerned with the lives of poor people having little access to the legal system. Contributors use this position as a springboard to review developments in their own particular fields and to assess whether or not legal decisions and processes have contributed to a widening gap between privileged and unprivileged people in this country. From antitrust and bankruptcy to tax and election law, the essays in this unique volume invite readers to reflect thoughtfully on socio-economic justice in the new century and suggest that a lack of progressive reform in all areas of law may herald a form of undiagnosed class dominance reminiscent of America's Gilded Age.
