Statistics Dept.,2017-03-31 This paper provides notes to the country tables in the monthly issues provide information about exceptions in the choice of the consumer price index and the period average exchange rate index For a relatively small number of countries notes in the country tables

in the monthly issues indicate where alternative price indices such as the wholesale producer price index or a weighted average of several price indices are used where data constraints have made it necessary to use weighting schemes based on aggregate bilateral non oil trade data and where trade in services such as tourism has been taken into account When a country joins the IMF it is assigned a quota that fits into the structure of existing quotas Quotas are considered in the light of the member's economic characteristics and taking into account quotas of similar countries Quotas are reviewed at intervals of not more than five years The reviews take account of changes in the relative economic positions of members and the growth of the world economy

*Post-conflict Aid, Real Exchange Rate Adjustment, and Catch-up Growth* Ibrahim Elbadawi, Linda Kaltani, Klaus Schmidt-Hebbel, 2007 Post conflict countries receive substantial aid flows after the start of peace While post conflict countries capacity to absorb aid that is the quality of their policies and institutions is built up only gradually after the onset of peace the evidence suggests that aid tends to peak immediately after peace is attained and decline thereafter Aid composition broadly reflects post conflict priorities with large parts of aid financing social expenditure and infrastructure investment Aid has significant short term effects on the real exchange rate RER as inferred from the behavior of RER in the world While moderate RER overvaluation is observed in post conflicts it cannot be traced down to the aid flows The empirical evidence on world growth reveals new findings about the pattern of catch up growth during post conflicts and the role of key growth determinants on post conflict growth Aid is an important determinant of growth both generally and more strongly during post conflict periods Because RER misalignment reduces growth RER overvaluation during post conflicts reduces catch up growth Aid and RER overvaluation combined also lower growth But the negative growth effect of RER overvaluation declines with financial development

Open Innovation in the Financial Services Daniel Fasnacht, 2009-02-11 Open innovation means gathering new ideas from sources beyond organizational boundaries It occurs when solutions to address clients needs are developed in collaboration and the resulting products and services are distributed through a flexible network of partners Daniel Fasnacht's book the first of its kind discusses open business models in the context of the financial services industry He elaborates the drivers for strategic change such as increasingly sophisticated clients or demanding shareholders among other trends including the recent global financial crisis and explains why the transition from a closed model of operation to open innovation is vital Various case studies illustrate how to integrate the client into the firm's innovation process and emphasize the importance of smart client segmentation and a holistic advisory model to serve clients around the globe Leaders must develop a set of new management practices to be able to invest in multiple strategic directions They are responsible for giving clients a remarkable experience and for creating social relationship capital based upon an open innovation culture Open Innovation in the Financial Services provides a much needed framework for helping to understand industry dynamics in banking and to make the most of organizational energy by using open innovation to sustain profitable growth The book comes at the right time and offers a new mindset for business
