## **Financial Derivatives And The Globalization Of Risk Public Planet:**

*Financial Derivatives and the Globalization of Risk* Benjamin Lee, Edward LiPuma, 2004-09-29 The market for financial derivatives is far and away the largest and most powerful market in the world and it is growing exponentially In 1970 the yearly valuation of financial derivatives was only a few million dollars By 1980 the sum had swollen to nearly one hundred million dollars By 1990 it had climbed to almost one hundred billion dollars and in 2000 it approached one hundred trillion Created and sustained by a small number of European and American banks corporations and hedge funds the derivatives market has an enormous impact on the economies of nations particularly poorer nations because it controls the price of money Derivatives bought and sold by means of computer keystrokes in London and New York affect the price of food clothing and housing in Johannesburg Kuala Lumpur and Buenos Aires Arguing that social theorists concerned with globalization must familiarize themselves with the mechanisms of a world economy based on the rapid circulation of capital Edward LiPuma and Benjamin Lee offer a concise introduction to financial derivatives LiPuma and Lee explain how derivatives are essentially wagers often on the fluctuations of national currencies based on models that aggregate and price risk They describe how these financial instruments are changing the face of capitalism undermining the power of nations and perpetrating a new and less visible form of domination on postcolonial societies As they ask How does one know about let alone demonstrate against an unlisted virtual offshore corporation that operates in an unregulated electronic space using a secret proprietary trading strategy to buy and sell arcane financial instruments LiPuma and Lee provide a necessary look at the obscure but consequential role of financial derivatives in the global economy *Financial Derivatives and the Globalization of Risk* Edward LiPuma, Benjamin Lee, 2004-09-29 Cultural studies exploration of the implications of the circulation of increasingly abstract forms of capital in the contemporary global economy *Governing Global Derivatives* Chiara Oldani, 2016-12-05 *Governing Global Derivatives* analyzes the role of the most important financial innovation of the last two decades financial derivatives in a global dimension The evolution of derivatives especially Over the Counter OTC and the possibility of managing risks tailored to customers needs are the basic recipe for the success of derivatives This book focuses on the role of derivatives from a macroeconomic point of view considering how monetary theory and policy fiscal policy and the growth process are affected It fills a gap by rethinking the way financial markets are considered in the macroeconomy and the transmission mechanism of impulses *New Spirits of Capitalism?* Paul Du Gay, Glenn Morgan, 2014 This edited book brings together leading scholars from a range of disciplinary fields such as Sociology Management and Organization Studies and Geography to explore the nature and effects of contemporary capitalism through engaging with Boltanski and Chiapello's seminal text *The New Spirit of Capitalism* It provides a comprehensive overview and interrogation of the text and develops new insights into contemporary neo liberal or financialized capitalism **The Routledge Companion to Cyberpunk Culture** Anna McFarlane, Lars Schmeink, Graham Murphy, 2019-11-28 In this companion an

international range of contributors examine the cultural formation of cyberpunk from micro level analyses of example texts to macro level debates of movements providing readers with snapshots of cyberpunk culture and also cyberpunk as culture With technology seamlessly integrated into our lives and our selves and social systems veering towards globalization and corporatization cyberpunk has become a ubiquitous cultural formation that dominates our twenty first century techno digital landscapes The Routledge Companion to Cyberpunk Culture traces cyberpunk through its historical developments as a literary science fiction form to its spread into other media such as comics film television and video games Moreover seeing cyberpunk as a general cultural practice the Companion provides insights into photography music fashion and activism Cyberpunk as the chapters presented here argue is integrated with other critical theoretical tenets of our times such as posthumanism the Anthropocene animality and empire And lastly cyberpunk is a vehicle that lends itself to the rise of new futurisms occupying a variety of positions in our regionally diverse reality and thus linking as much as differentiating our perspectives on a globalized technoscientific world With original entries that engage cyberpunk s diverse angles and its proliferation in our life worlds this critical reference will be of significant interest to humanities students and scholars of media cultural studies literature and beyond

*Finance: The Discreet Regulator* I. Huault, C. Richard, 2012-09-14 The financial sector is the talk of the global village This book highlights that before asserting that the institutions of the financial sector deserve to be regulated one should consider that these very institutions are themselves the discreet regulators of the markets where their activity takes place

**Disorienting Politics** Fan Yang, 2024-06-03 Disorienting Politics mines 21st century media artifacts including films like *The Martian* and TV streaming media shows such as *Firefly* and *House of Cards* to make visible the economic cultural political and ecological entanglements of China and the United States Describing these transpacific entanglements as Chimerica coined by economic historians to reference the symbiosis of China and America Yang examines how Chimerican media originating in the US but traversing national boundaries in their production circulation and consumption co create the figure of rising China and extend a political imagination beyond the conventional ground of the nation Examining how Chimerican media are shaped by and perpetuate uneven power relations Disorienting Politics argues that the pervasive tendency among wide ranging cultural producers to depict the Chinese state as a racialized Other in American media life diminishes the possibility of engaging transpacific entanglements as a basis for envisioning new political horizons Such othering of China not only results in overt racism against people of Asian descent Yang argues but also impacts the wellbeing of people of color more generally This interdisciplinary book demonstrates the ways in which race is embedded in geopolitics even when the subject of discussion is not the people but the Chinese state Bridging media and cultural studies Asian and Asian American studies geography and globalization studies Disorienting Politics calls for a relational politics that acknowledges the multifarious interconnectivity between people places media and environment

**Financialization, Austerity, and Inclusion in**

**Latin America and the Caribbean** Rana S. Gautam, Diogo L. Pinheiro, Dwight Wilson, 2023-12-06 Financialization Austerity and Inclusion in Latin America and the Caribbean examines the spread of financialization since 1980 highlighting the ideational origins of financialization outside the region its effects on government budgeting and social inclusion and options for increased inclusivity Rana S Gautam Diogo L Pinheiro and Dwight Wilson argue that rather than a mechanistic implementation of external pressures financialization is a complex social process with ideational origins in which national level actors participate Ultimately the authors find that deeper financial integration the expansion of credit and reliance on international bond markets drives governments to cut certain areas of social spending and drives inequality but ameliorates absolute poverty There is therefore space for agents to mold financialization and its inclusiveness

**The Routledge Companion to Urban Imaginaries** Christoph Lindner, Miriam Meissner, 2018-09-28 The Routledge Companion to Urban Imaginaries delves into examples of urban imaginaries across multiple media and geographies from new visions of smart eco and resilient cities to urban dystopias in popular culture from architectural renderings of starchitecture and luxury living to performative activism for new spatial justice and from speculative experiments in urban planning fiction and photography to augmented urban realities in crowd mapping and mobile apps The volume brings various global perspectives together and into close dialogue to offer a broad interdisciplinary and critical overview of the current state of research on urban imaginaries Questioning the politics of urban imagination the companion gives particular attention to the role that urban imaginaries play in shaping the future of urban societies communities and built environments Throughout the companion issues of power resistance and uneven geographical development remain central Adopting a transnational perspective the volume challenges research on urban imaginaries from the perspective of globalization and postcolonial studies inviting critical reconsiderations of urbanism in its diverse current forms and definitions In the process the companion explores issues of Western centrism in urban research and design and accommodates current attempts to radically rethink urban form and experience This is an essential resource for scholars and graduate researchers in the fields of urban planning and architecture art media and cultural studies film visual and literary studies sociology and political science geography and anthropology

**The Ongoing End: On the Limits of Apocalyptic Narrative** Michael Titlestad, David Watson, 2018-11-08 The world keeps turning to apocalypticism Time is imagined as proceeding ineluctably to a catastrophic perhaps revelatory conclusion Even when evacuated of distinctly religious content a broadly ecclesial structure persists in conceptions of our precarious life and our collective journey to an inevitable fate the extinction of the human species It is commonly believed that we are propelled along this course by human turpitude myopia hubris or ignorance and by the irreparable damage we have wrought to the world we inhabit Yet this apprehension is insidious Such teleological convictions and crises laden narratives lead us to undervalue contingent hesitant and provisional forms of experience and knowledge The essays comprising this volume concern a range of writers engagements with

apocalyptic reasoning Extending from a reading of Percy Bysshe Shelley's *Triumph of Life* to critiques of contemporary American novels they examine the ways in which end times reasoning can inhibit imaginative reflection blunt political advocacy or more positively provide a repertoire for the critique of complacency By gathering essays concerning a wide range of periods and literary dispositions this volume makes an important contribution to thinking about apocalypticism in literature but also as a social and political discourse This book was originally published as a special issue of *Studia Neophilologica* Positions, 2004 Social Text, 2004 **Representations**, 2004 Globalization and the Postcolonial World Ankie M. M. Hoogvelt, 2017-10-07 This highly successful text has been updated and revised to take account of new developments in international political economy notably the East Asian crisis and the deepening crisis of African society It also addresses recent forms of international management of instability that are beginning to emerge as contemporary forms of imperialist globalism At the same time more attention is paid to the gathering mosquito cloud of local resistance movements around the world **Thinking with Water** Cecilia Chen, Janine MacLeod, Astrida Neimanis, 2013-10-01 Emphasizing the role that vivid personalities including engineers John Laing Weller and Alex Grant as well as contractors and labourers played in the construction of the canal Roberta Styran and Robert Taylor use archival sources government documents newspapers maps and original plans to describe a saga of technological financial geographical and social obstacles met and overcome in an accomplishment akin to the building of the Canadian Pacific Railway A story of Canadian skill courage vision and hardship This Colossal Project details the twenty year excavation of the giant channel and the creation of huge concrete locks amidst war the Great Depression political change and labour unrest **American Book Publishing Record**, 2003 Globalization Prof. Manfred B. Steger, 2023-12-04 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more Since the end of the Cold War globalization the process and the idea has been reshaping the world Global studies scholarship has emerged to make sense of the transnational manifestations of globalization economic social cultural ideological technological environmental and postcolonial But a series of crises in the first two decades of the twenty first century has put the neoliberal globalization system of the 1990s under severe strain Are we witnessing a turn toward deglobalization intensified by the COVID 19 pandemic and the war in Ukraine or a moment of reglobalization spearheaded by digital technology The contributors to this book employ transdisciplinary research to assess past developments the current state and future trajectories of globalization in light of today's dynamics of insecurity volatility and geopolitical tensions *Policing the Global Economy* Prince Sadruddin Aga Khan, 1998
