International Accounting Shahrokh M. Saudagaran, 2009 **Business Models in the Software Industry** Markus Schief, 2013-12-05 The relevance of software business models has tremendously increased in recent years Markus Schief explores opportunities to improve the management of these models Based on a conceptual framework of software business model characteristics he conducts large empirical studies to examine the current state of business models in the software industry These data then serve as a foundation for statistical analyses of business models impact on firm and M A performance Finally the author develops a software business model management tool **Building Learning Experiences in a Changing World** Piet Van den Bossche, Wim H. Gijssels, Richard G. Miltner, 2011-04-14 Advances in Business Education Training is a Book Series to foster advancement in the field of Business Education and Training It serves as an international forum for scholarly and state of the art research and development into all aspects of Business Education and Training This new volume deals with several aspects of the challenge to design learning in and for a changing world The first part concerns program development How to build curricula that are future proof Principles to innovate our curricula are identified It answers the question how we can incorporate the need for change in our thinking about curriculum development and identify the necessary elements to incorporate in our curricula The second part focuses on the increasing diversity of students and employees within our schools and organizations in terms of culture language and perception of ability gifts and talents This offers a range of opportunities but at the same time can possibly jeopardize some processes that are taken for granted Chapters in this part analyze the processes that play a crucial role in dealing with this diversity and identify educational practices that can help to harvest the potential that lies within this diversity The third part of this book digs further into the possibilities that are opened up by the implementation of ICT support in our learning environments E learning provides tools to adapt these environments to the needs of an increasingly diverse student population In the last part we focus specifically on the workplace and how learning can be designed in such a way that employees are equipped for a shifting workplace On the one hand it is looked how training can affect performance in the workplace Does learning transfer to the work environment On the other hand it is questioned how one can design affordances to trigger learning in the workplace *Managing Military Organisations* Joseph Soeters, Paul C. van Fenema, Robert Beeres, 2010-02-02 This book deals with the processes and theories involved in managing military organisations in both peacetime and crisis conditions Examining the challenges faced by policymakers and military commanders in conducting military operations this book considers the benefits of conventional management and organisation theory for the military At the same time these essays recognise that the military should be considered as a highly individual organisation operating in exceptional circumstances This awareness of the differences between the military and other organisations generates important lessons not only for the military but also for general organisations as it teaches them how to cope in exceptional hyper conditions These theoretical

lessons are illustrated by case studies and experiences from recent military operations such as those in Iraq and Afghanistan This book will be of great interest to students of military studies security studies and organizational studies Joseph Soeters chairs the department of management and organization studies and defence economy at the Netherlands Defense Academy and he is a professor in organizational sociology at Tilburg University Paul C van Fenema is an associate professor of organization studies at the Netherlands Defence Academy and Tilburg University Robert Beeres is an associate professor in the field of defence accounting and control business administration at the Netherlands Defence Academy and at Nyenrode Business School

Fusing Decision Support Systems Into the Fabric of the Context A. Respício,F. Burstein,2012-06-13 The field of Information Systems has been shifting from an immersion view which relies on the immersion of information technology IT as part of the business environment to a fusion view in which IT is fused within the business environment forming a unified fabric that integrates work and personal life as well as personal and public information In the context of this fusion view decision support systems should achieve a total alignment with the context and the personal preferences of users The advantage of such a view is an opportunity of seamless integration between enterprise environments and decision support system components Thus researchers and practitioners have to address the challenges of dealing with this shift in viewpoint and its consequences for decision making and decision support systems theories and applications This book presents the latest innovations and advances in decision support systems with a special focus on the fusion view These achievements will be of interest to all those involved and interested in decision making practice and research as well as more generally in the fusion view of modern information systems The book covers a wide range of topical

themes including a fusion view of business intelligence and data warehousing applications of multi criteria decision analysis intelligent models and technologies for decision making knowledge management decision support approaches and models for emergency management and medical and other specific domains Business Periodicals Index ,2008 The Routledge Companion to Accounting Information Systems Erik Strauss,Martin Quinn,2017-12-22 Information technology has permeated all walks of life in the past two decades Accounting is no exception Be it financial accounting management accounting or audit information technology and systems have simplified daily tasks and routine work simplified reporting and changed how accounting is done The Routledge Companion to Accounting Information Systems provides a prestige reference work which offers students and researchers an introduction to current and emerging scholarship in the discipline Contributions from an international cast of authors provides a balanced view of both the technical underpinnings and organisational consequences of accounting information systems With a focus on the business consequences of technology this unique reference book will be a vital resource for students and researchers involved in accounting and information management The Indian National Bibliography B. S. Kesavan,2009 *An Administrative Compendium on Trends for Identifying Adequate Blood Donation by African Americans* Bruce M. Williams MS MS HCA,2015-05-08 The blood collection business was chosen because the arena is central to any effort to save lives with blood and blood products The field needs improvement and innovation There is not a lot of data on this sector of the business community This is not a comparison of the private sector of the business community and the nonprofit sector Earnings are at the top of the list of the foremost concerns The type of workers is at issue as well Many of the nonprofit health care employees were post graduate females The nature of the work performed is important The employees motivation is also a factor worth considering Whether the job was full time or part time did make a difference in nonprofit employee characteristics Participants have several obstacles that prevent them from donating blood They have a few motivators for donating blood Because the needed matching blood types are in the African American community this does not mean that they should know that given the distant behavior of the blood collecting business to the African American Community The Scientific method of observation measurement and documentation theory and test the theory is used In each paper the synthesis method is used to structure the data and information The Sickle cell model will be used herein

Advances in Enterprise Information Systems II Charles Moller,Sohail Chaudhry,2012-06-07 For many years now Enterprise Information Systems have been critical in helping businesses successfully navigate the global market The development that started with design and implementation of integrated systems has evolved to incorporate a multitude of perspectives and ideas The Enterprise Information Systems functionality extends from principally an ERP Enterprise Resource Planning system to a portfolio of standard systems including CRM Customer Relationship Management systems and SCM Supply Chain Management systems Advances in Enterprise Information Systems II is divided into seven thematic sections each exploring a distinct topic In Concepts in Enterprise Information Systems the authors present new concepts and

ideas for the field Cases in Enterprise Information Systems introduces studies of enterprise information systems in an organizational context Business Process Management is one of the major themes within enterprise information systems and Designing Enterprise Information Systems discusses new approaches to the design of processes and system and also deals with how design can be taken as a specific perspective Enterprise Information Systems in various domains features generic studies that contribute to advancing the practical knowledge of the field as well as towards Global issues of Enterprise Information Systems Finally in Emerging Topics in Enterprise Information Systems new technologies and ideas are explored Cloud computing in particular seems to be setting the agenda for future research in enterprise information systems The book will be invaluable to academics and professionals interested in recent developments in the field of enterprise information systems

to the field *Digital Economy Innovations and Impacts on Society* Druicã, Elena, 2012-05-31 Right now is the time for new opinions and new ideas to be generated and be presented as a solution With the ever changing economic status of society prosperity depends on the ability to run and maintain an active equilibrium between society and individuals Therefore it is essential for both parties to promote innovation and creativity in order to enable a proper and valuable lifestyle Digital Economy Innovations and Impacts on Society provides theoretical and practical approaches about digital economy increasing people s awareness on what the digital economy is and exactly what competitive advantages exist to provide information technology and innovation as its main resources This publication focuses on rethinking the classical economic theory in the context of new technology information and innovation making it a publication that brings the best research to the forefront for economics and social researchers academicians professionals and practitioners *Critical Histories of Accounting* Richard K. Fleischman, Warwick Funnell, Stephen Walker, 2013-04-02 The critical tradition in accounting historiography has come to occupy a prominent place in the discipline s academic scholarship Some critical literature has confronted the responsibility of accounting and accountants in precipitating contemporary crises such as the audit failures that spawned Sarbanes Oxley and the world wide recession Certain contemporary issues have long histories such as the difficulties encountered by women to break the glass ceiling in public accounting and the suffering of indigenous peoples under the imperialistic yoke Other episodes in accounting s long history are seemingly more divorced from the present but in reality they all have contemporary significance Slavery in the New World for example although abolished more than a century ago is still rampant in parts of the world albeit less formally Critical accounting historians feel it a duty to harken to the suppressed voices of the past those groups of people who had no access to an accounting record women persons of color indigenous populations alienated proletarians victims of governmental incompetence and graft and many voiceless others Critical Histories of Accounting Sinister Inscriptions in the Modern Era draws on the foremost work in this developing literature both that authored by the co editors of this volume and that written by others Editors Richard K Fleischman Warwick N Funnell and Steve Walker have written extensively about the dark side of accounting gauging the complicity of those performing accounting functions in episodes in human history that are at worst evil and at best reprehensible The editors have also hand selected a series of historical and contemporary episodes that have been critically investigated by the wider accounting history community preceded by a thorough introduction *Social and Environmental Disclosure by Chinese Firms* Yingjun Lu, Indra Abeysekera, 2014-03-26 Given the increased social and environmental problems in China this book looks into the social and environmental disclosure practices of socially responsible Chinese listed firms by constructing a stakeholder driven three dimensional disclosure index The book contains a three part study the first part explores the current status of social and environment disclosure practices The second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors i e stakeholders power and corporate

characteristics The third part empirically examines the link between corporate social responsibility CSR reporting i e publishing a CSR report and the quality of the CSR report and socially responsible reputation The book finds that the CSR report provided more stakeholder relevant social and environmental disclosure than the annual report It also finds that corporate characteristics such as firm size profitability and industry classification are all statistically significant factors influencing social and environmental disclosure of the Chinese firms studied Shareholders significantly influenced firms social and environmental disclosure and creditors significantly influenced firms disclosure related to their environmental performance The final part of the study reports that publishing a CSR report and CSR reporting quality had a positive influence on firms socially responsible reputation and that the CEO chairman duality negatively influenced firms socially responsible reputation The book also highlights that financial performance and firm size were the two corporate characteristics that had a positive influence on corporate socially responsible reputation This book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of Chinese firms Strategic Infrastructure Development for Economic Growth and Social Change Ray, Nilanjan,2015-01-31 Obtaining the ultimate objective of economic growth depends largely on the availability of infrastructure in the economy New developments in finance also play an important role in enhancing economic prosperity in a country Strategic Infrastructure Development for Economic Growth and Social Change explores different avenues of research in the areas of corporate governance socioeconomic conditions modern business infrastructure business automation strategic financial management and financial aspects of modern businesses This reference work discusses practical applications skills practices and strategies involved in economic and business growth and overall economic development Academicians practitioners professionals and researchers will benefit from the topics discussed in this book **The British National Bibliography** Arthur James Wells,1993

Research on Professional Responsibility and Ethics in Accounting Cynthia Jeffrey,2010-01-20 Presents the research and cases that focus on the professional responsibilities of accountants and how they deal with the ethical issues they face This title features articles on a broad range of important topics including professionalism social responsibility ethical judgment and accountability
