Financing State And Local Government In The 1980s:

Financing State and Local Governments J. Richard Aronson, John L. Hilley, 2010-12-01 State and local governments are at a financial crossroads As the federal government attempts to reduce its deficits state governments will have to provide a greater share of support for mandatory social programs Local governments face demands for new initiatives in education and for civic improvements Both have obligations to employee pension plans that are large and still relatively untested Running counter to these claims on state and local budgets is a voter effort to limit the amounts that governments may tax or spend This fourth edition of James A Maxwell s classic and widely acclaimed book will help both layman and lawmaker understand the choices open to their governments It provides a lucid nontechnical analysis of state and local finance It gives concise descriptions of the taxes grants debt issues and user charges that finance state and local government and discusses their relative virtues and drawbacks It traces the history of state and local finance and presents statistical data on expenditures federal aid revenue from taxes and user charges debt and pension funds The new edition in recognition of changes since the mid 1970s also includes a separate chapter on financing education and broadened analyses of federal grant programs employee retirement systems and nonguaranteed municipal debt

Fiscal health of local governments and municipalities has remained an important issue since the crises of the 1970s in places like New York Philadelphia and Cleveland More recently the bankruptcy of Orange County California raised the possibility of a different type of financial failure than earlier ones The beginning of the 21st century has witnessed two major economic bubbles including the dotcom and housing bubbles These economic cycles combined with increasing health care pension and other structural costs continue to challenge the fiscal viability of many jurisdictions In particular the economic and financial crisis of 2007 2008 is likely to result in potentially serious fiscal challenges for local jurisdictions *Local Government*
