society Cross offers a richly textured account of a culture in which erector sets and baby dolls are no longer alone in preparing children for the future and in which the toys that now crowd the racks are as perplexing for parents as they are beguiling for little boys and girls Whether we want our children to be high achievers in a competitive world or playful and free from the worries of adult life the toy store confronts us with many choices What does the endless array of action figures and fashion dolls mean Are children or parents the dupes of the film television and toy industries with their latest fads and fantasies What does this say about our time and what does it bode for our future Tapping a vein of rich cultural history Kids Stuff exposes the serious business behind a century of playthings
