Effective Committee Service:

Effective Committee Service Neil J. Smelser, 1993-08-10 Drawing on the author's extensive experience in the field this book demystifies the committee. It explains how to get on certain committees and avoid others how to get committee work done efficiently how to ensure that your views are properly represented how chairing a committee can help direct its outcome and how to use committees to advance your academic career Hearings Before and Special Reports Made by Committee on Armed Services of the House of Representatives on Subjects Affecting the Naval and Military Establishments, 1993 Hearings, Reports and Prints of the House Committee on Armed Services United States. Congress. House.

Committee on Armed Services, 1977 **Secretary's Advisory Committee on Hospital Effectiveness** United States. Department of Health, Education, and Welfare. Secretary's Advisory Committee on Hospital Effectiveness, 1968 *Select Committee Effectiveness, Resources and Powers* Great Britain: Parliament: House of Commons: Liaison

Committee, 2012-11-08 Drawing on reports from committees evidence from outside observers and academic research this report concludes that two years after the general election and the Wright reforms the evidence is broadly encouraging although committees face some obstacles and there is room for improvement The old doctrine by which ministers alone are accountable to Parliament for the conduct of their department is being stretched to implausibility and there is a need for a changed approach It recommends that the Government engage with the Liaison Committee in a review of the relationship between Government and select committees with the aim of producing joint guidelines for departments and committees which recognise ministerial accountability the proper role of the Civil Service and the legitimate wish of Parliament for more effective accountability The report also makes numerous recommendations for Committees including that they be forward looking in scrutiny of departmental performance devoting less effort to raking over the coals of past events unless there are lessons to be learnt give more attention to the financial implications of departmental policy and how departments assess the effectiveness of their spending experiment with different approaches to evidence taking broaden the range of witnesses and make more use of commissioned research follow up recommendations to ensure that reports have impact and report to the House at least once each Session on what has been done The Committee intends to ask the Backbench Business Committee for time for a debate in the House of Commons on a motion endorsing its conclusions and recommendations **Health Care**

Coverage Determinations: An International Comparative Study Jost, Timothy, 2004-12-01 A ground breaking set of case studies about how health care coverage decisions are made Robert A Berenson M D Senior Fellow at the Urban Institute Washington D C and former Director of the Center for Health Plans and Providers of the Medicare program Developed countries are facing rapidly rising health care costs and one of the major factors driving health care cost growth is the continual development and diffusion of new generally more expensive health care technologies This book contains A description of the institutions procedures and criteria used by eight countries for assessing technologies for public insurance

coverage An analysis of the role of interest groups and of the public interest in these decision making processes An examination of how particular technologies are treated differently by different countries and why Based upon research from Australia Canada Germany The Netherlands Spain Switzerland the United States of America and the United Kingdom the contributors argue that although each of these countries is committed to evidence based scientific assessment of technologies in fact adoption of technologies is significantly affected by political considerations and in particular by the influence of interest groups Moreover it offers recommendations as to how technology assessment for coverage policy can be improved to serve better the public interest Health Care Coverage Determinations is essential reading for health policy makers managers researchers and students with an interest in health economics health care provision and the politics affecting health care legislation Contributors Liliana Bulfone Tanisha Carino Peter C Coyte Anna Garca Alts Colleen M Flood Stefan Gre Felix Gurtner Anthony Harris Timothy Stoltzfus Jost Eric Nauenberg Christopher Newdick Dea Niebuhr Guillaume Roduit Heinz Rothgang Frans F H Rutten Dominique Sprumont Juergen Wasem Remarks by Members of Select Committee on Government Organization, Appointed Pursuant to House Resolution 60, Seventy-fifth Congress, First Session Concerning H.R. 7730 ...
