Risk Assessment and Management in Pervasive Computing: Operational, Legal, Ethical, and Financial Perspectives Godara, Varuna,2008-10-31 Provides extensive information about pervasive computing and its implications from various perspectives so that current and future pervasive service providers can make responsible decisions about where when and how to use this technology   Professionalizing Your English Language Teaching Christine Coombe,Neil J Anderson,Lauren

Stephenson,2020-10-22 Written by leading experts in the field of TESOL this book explores the literature on various topic areas and demonstrates how teachers can increase their levels of professionalism by acquiring some general and field specific strategies Being a teaching professional is not simply about having the right teaching qualifications and good academic standing it involves a commitment to being innovative and transformative in the classroom and helping both students and colleagues achieve their goals A dictionary definition of professionalism reads as follows professionalism is the conduct aims or qualities that characterize or mark a profession or a professional person and it defines a profession as a calling requiring specialized knowledge and often long and intensive academic preparation Merriam Webster 2013 However according to Bowman 2013 professionalism is less a matter of what professionals actually do and more a matter of who they are as human beings Both of these views imply that professionalism encompasses a number of different attributes and together these attributes identify and define a professional The book is primarily intended for teachers at all levels and in all contexts who are interested in improving their professionalism and developing strategies that can take them to higher levels in the field of TESOL ELT *Principles of Management* Oliver Laasch,2021-03-10 There is now widespread understanding that business and management must evolve and act responsibly in the world giving full consideration to people and planet not just profit Principles of Management Practicing Ethics Sustainability Responsibility was the first official textbook of the United Nations global initiative network Principles for Responsible Management Education PRME Now fully revised and updated with three brand new chapters on communicating innovating and leading this accessible and engaging textbook provides an introduction to management while empowering you to think ethically and sustainably in order to become a responsible manager It also includes essential workplace skills for the 21st century and coverage of the various management occupations that you will go on to fill after your studies Exclusive interviews with management pioneers and professionals help bring theories and concepts to life throughout the text as do the all new case studies which include Lego Patagonia and Greta Thunberg Worksheets and exercises make for an active learning experience alongside the supporting online resources provided to your lecturer for dissemination The textbook includes coverage of the UN s Sustainable Development Goals SDGs which are central to business education and practice today It can be used for introductory management courses as well as courses that cover business ethics business and society corporate social responsibility CSR sustainability and responsible management *The Business Model Innovation Process* Yariv Taran,Harry Boer,Christian Nielsen,2021-11-21 Business Model Innovation Process Preparation Organization and Management examines a range of critical questions that merit thoughtful interdisciplinary consideration such as Why do business models and their innovation in particular matter today How can the process of business model innovation be understood organized and managed adequately under increasingly volatile uncertain complex and ambiguous technological business and geo political conditions What should decision making and risk management look like under these conditions with managers whose rationality is bounded The book offers a detailed

account of the relatively unknown process of business model innovation by looking into the intersection of strategic operations and innovation management organizational design decision making and performance management In doing so this book addresses fundamental issues and introduces new ideas and theoretical perspectives In envisioning and thinking about various potential scenarios of business model innovation and understanding how to organize for each of these under different conditions the book provides original arguments and suggestions for practitioners For that purpose the book also offers many compelling real life examples of business models and their innovation Combining theory and practice this book is an essential read for researchers and academics of business model innovation as well as strategic management digital transformation innovation management and organizational change It will also be of direct interest to practitioners and business leaders seeking new perspectives to increase their competitive advantage *Processes of Inquiry* Joanna Higgins,Ro Parsons,Linda Bonne,2011-11-22 This book presents inservice teacher educators accounts of systematic inquiry into their practice in a variety of contexts throughout New Zealand The importance of purposeful networks of practice at all levels of a system in supporting education change and improvement is a theme across the chapters The contributors describe the challenges and successes associated with working in professional learning and development in ways that aim to improve outcomes for teacher educators teachers and students Their accounts illuminate the importance of a research and development approach that enables the generation and application of new knowledge and more importantly enables all contributors to be learners Each of the authors describes their role in investigating the effectiveness of inservice teacher educator practice as part of the overall project that endeavoured to improve practice for the future Included are processes created for Maori indigenous settings where cultural metaphors were used to frame investigations of practice The book makes an important contribution to our knowledge base about effective inservice teacher educator practice and its influence on classroom practice The book will appeal to teacher educators interested in examining the fit between their practices and their goals in helping teachers to build knowledge and practice including those working in indigenous settings It will also be of interest to policy makers and evaluators involved in system level change a well organised and carefully argued text that offers compelling evidence for an integrated approach to project management practice research and evaluation J John Loughran Series Editor **Smart Energy Technologies in Everyday Life** Y. Strengers,2013-09-25 This book interrogates the global utopian vision for smart energy technologies and the new energy consumer intended to realise it It enriches and extends the possibilities of four residential smart strategies energy feedback dynamic pricing home automation and micro generation focusing on how they are being integrated into everyday practice **Proceedings of the Eighth International Conference on Management Science and Engineering Management** Jiuping Xu,Virgílio António Cruz-Machado,Benjamin Lev,Stefan Nickel,2014-05-06 This is the Proceedings of the Eighth International Conference on Management Science and Engineering Management ICMSEM held from July 25 to 27 2014 at Universidade Nova de Lisboa Lisbon Portugal and organized by International

Society of Management Science and Engineering Management ISMSEM Sichuan University Chengdu China and Universidade Nova de Lisboa Lisbon Portugal The goals of the conference are to foster international research collaborations in Management Science and Engineering Management as well as to provide a forum to present current findings A total number of 138 papers from 14 countries are selected for the proceedings by the conference scientific committee through rigorous referee review The selected papers in the second volume are focused on Computing and Engineering Management covering areas of Computing Methodology Project Management Industrial Engineering and Information Technology **The Intellectual Capital of Schools** Anthony Kelly,2007-05-08 A teacher may get good even astounding results from his pupils while he is teaching them and yet not be a good teacher because it may be that while his pupils are directly under his influence he raises them to a height which is not natural to them without fostering their own capacities for work at this level so that they immediately decline again as soon as the teacher leaves the classroom Ludwig Wittgenstein 1889 1951 It is difficult to measure effectiveness in not for profit organisations like schools colleges and universities There is no bottom line against which to gauge performance they have limited technical development and managers struggle to make meaningful comparisons between outcomes and targets In education well publicised attempts have been made to establish some would say impose a set of criteria by which organisations judge success or failure These have been largely subjective the percentage of inspected classes regarded as good the extent to which staff is involved in decision making the appropriateness of the leadership shown by senior managers and so on if occasionally peppered with quantitative measures like the percentage of students achieving certain grades in public examinations to sustain the illusion of objectivity This is not to fault the aspiration necessarily though initially at least it created a surveillance culture in schools that did justice to neither the inspected nor the argument for inspection Happily this is changing *Human Resource Information Systems* Richard D. Johnson,Kevin D. Carlson,Michael J. Kavanagh,2020-09-10 Human Resource Information Systems Basics Applications and Future Directions is a one of a kind book that provides a thorough introduction to the field of Human Resource Information Systems HRIS and shows how organizations today can leverage HRIS to make better people decisions and manage talent more effectively Unlike other texts that overwhelm students with technical information and jargon this revised Fifth Edition offers a balanced approach in dealing with HR issues and IT IS issues by drawing from experts in both areas It includes the latest research and developments in the areas of HRIS justification strategies HR technology big data and artificial intelligence Numerous examples best practices discussion questions and case studies make this book the most student friendly and current text on the market Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides
