Long-Term Effects of Intimate Partner Violence on Children's Social Behavior Megan R. Holmes, 2012 Children who have been exposed to intimate partner violence IPV experience a wide variety of short term social adjustment and emotional difficulties While children are affected at all ages less is known about the long term consequences of IPV exposure at younger ages This study examined the impact of early IPV exposure i e between birth and age 3 IPV exposure over time and IPV severity on the development of children s prosocial skills and aggressive behavior Additionally the effect of maternal warmth and maternal depression over time on IPV exposed children s social behavior trajectories was examined Secondary data analysis was conducted using the National Survey of Child and Adolescent Well Being NSCAW a national longitudinal study designed to assess outcomes of children who have been abused or neglected Latent growth curve modeling was used while controlling for maternal demographics maternal substance use household characteristics and child maltreatment The more frequently children were exposed between birth and the age of 3 the more aggressive behavior problems were exhibited by age 8 compared to nonexposed children When examining IPV exposure across time IPV exposure was associated with increases in preschool age children s aggressive behavior and decreases in school age children s prosocial skills Longer durations of exposure to severe forms of IPV were significantly related to higher aggressive behavior over time Higher levels of maternal warmth were a significant predictor of increased prosocial skills over time while maternal depression was a significant indicator of increased aggressive behavior over time Understanding the developmental period of when IPV exposure has the greatest effect on children s development may provide insight into when to intervene before problem behaviors become more pervasive Results from this study suggest that assessments conducted by social worker clinicians need to account for the child s age when IPV exposure began and the nature of exposure i e duration and level of severity Interventions should be targeted towards those children who are exposed when they are 3 years or younger who have experienced longer duration or severe forms of IPV exposure and who have mothers who are currently depressed or exhibiting low levels of maternal warmth

Children and Adolescent's Experiences of Violence and Abuse at Home Julie C. Taylor, Elizabeth A. Bates, 2023-12-20 Children and Adolescent s Experiences of Violence and Abuse at Home is a unique book that explores some of the main controversies and challenges within the field The book is organised into three sections the first covering work that has focused on the experiences of living in DV settings as a child or young person the second offers overviews of the impact of child victimisation

and the final section is about working with children in practice and service based settings It includes extensive reviews of the literature empirical research and practice observations all of which provide compelling evidence of a need to change how we construct victims and design services It provides evidence for the need to work sensitively inclusively and responsively around issues of victim identification support and prevention Moreover the evidence urges us to include children s and adult victim survivor s experiences and contributions in the creation of services Concluding with a series of recommendations for both future research and ways in which we can help use the research findings to inform practice it is a must read for researchers practitioners and educators working with children and young people within the field of domestic violence and abuse It will also be of interest and value to policy makers who are reviewing legislation and those involved in commissioning psychological services and victim services that work with child and adolescent victims

Child Welfare and Child Well-Being Mary Bruce Webb,2010 The landmark National Survey of Child and Adolescent Well Being NSCAW study represents the first effort to gather nationally representative data based on first hand reports about the well being of children and families who encounter the child welfare system NSCAW s findings offer an unprecedented national source of data that describe the developmental status and functional characteristics of children who come to the attention of child protective services Much more than a simple history of placements or length of stay in foster care NSCAW data chart the trajectory of families across service pathways for a multi dimensional view of their specific needs The NSCAW survey is longitudinal contains direct assessments and reports about each child from multiple sources and is designed to address questions of relations among children s characteristics and

experiences their development their pathways through the child welfare service system their service needs their service receipt and ultimately their well being over time The chapters in this rich synthesis of NSCAW data represent thoughtful and increasingly sophisticated approaches to the problems highlighted in the study and in child welfare research in general The authors capitalize on the longitudinal multidimensional data to capture the experiences of children and families from the time they are investigated by CPS through multiple follow up points and to consider the interdependent nature of the traditional child welfare outcomes of safety permanence and well being The topics covered not only are critical to child welfare practice and policy but also are of compelling interest to other child service sectors such as health mental health education and juvenile justice The authors of chapters in this volume are esteemed researchers within psychology social work economics and public health Together they represent the future of child welfare research showcasing the potential of NSCAW as a valuable resource to the research community and providing glimpses of how the data can be used to inform practice and policy

Intimate Partner Violence Carol E. Jordan, Michael T. Nietzel, Robert Walker, TK Logan, 2004-07-23 This training manual synthesizes the clinical and research literature on victims offenders and child witnesses and uses the empirical evidence to provide generalist clinicians with manageable concrete guidance for providing care in these cases Each chapter begins with a summary of the issues to be covered and an outline of the specific topics to be discussed and ends with a recap and list of questions for practitioners in training The authors offer expertise in forensic psychology victimization and substance abuse they discuss the clinical legal and ethical complexities that violence against women brings to the mental health practice environment

Murphy, April G. Rasmussen, 2020-01-08 There are few things in our society that provoke such raw emotions as that of child abuse Most people justifiably so are outraged when they hear of allegations of abuse and their anger is intensified as they learn of what seems to be an inappropriate criminal justice response However the debate on child abuse usually happens through visceral emotions rather than facts Taking emotions out of a child abuse debate is much easier said than done but it is of utmost importance to identify the facts When the reader has a better understanding of the scope of child abuse they can become more objective but still maintain their passion about ways to protect this vulnerable and targeted population Child Abuse Child Exploitation and Criminal Justice Responses is unique in that it offers the reader contributing facts based not only through scholarly research but practical experience working in field from this wonderful collaboration of criminal investigator and forensic nurse Thus providing much personal insight and demonstrating how these two areas of expertise can join forces to achieve the objective of working as a team to facilitate safeguarding children The authors also presents the research on this complex yet worthy topic by identifying the unique challenges of investigating these offenses while ultimately bringing the perpetrators to justice and presenting the research from various perspectives of child abuse including both national and international issues and responses
