Douer, 2015-09-25 In the twentieth century the political Zionist movement and Egyptian rulers completely uprooted the country's thriving Jewish community a goal the Pharaohs tried to realize as early as 3500 years ago Mostly comprised of descendants of Sephardim from the Iberian Peninsula the world's oldest Jewish community totaled 85 000 members in 1948 No more than 100 to 200 Jews live in Egypt today This book tells the story of Egypt's Jewish history from Biblical times to 1967 the year of one of the last major Jewish emigration waves from Egypt It highlights the First Exodus in ca 1500 BCE and the Second Exodus which was triggered by the foundation of the State of Israel and three successive wars in 1948 1956 and 1967 Throughout the narrative it becomes evident that the Jewish community consistently was subject to the arbitrary will of Egyptian rulers Starting in 1948 members of this community were forced to leave the country without any of their belongings on short notice Like other Jews from the Arab world Egyptian Jews were not Zionists in the Eurocentric Ashkenazi sense Their arrival in Israel was met with prejudice and disdain Even though they were discriminated against in matters of housing and education they still managed to integrate well into Israeli society and are now members of the country's upper and

middle class The evidence presented in this book is based on interviews with ninety six Egyptian Jews in Israel and the United States      *The Art and Architecture of Ancient Egypt* William Stevenson Smith, William Kelly Simpson, 1998-01-01 A survey of Egyptian art and architecture is enhanced by revised text an updated bibliography and over four hundred illustrations      *Lost Technologies of Ancient Egypt* Christopher Dunn, 2010-06-24 A unique study of the engineering and tools used to create Egyptian monuments Presents a stone by stone analysis of key Egyptian monuments including the statues of Ramses II and the tunnels of the Serapeum Reveals that highly refined tools and mega machines were used in ancient Egypt From the pyramids in the north to the temples in the south ancient artisans left their marks all over Egypt unique marks that reveal craftsmanship we would be hard pressed to duplicate today Drawing together the results of more than 30 years of research and nine field study journeys to Egypt Christopher Dunn presents a stunning stone by stone analysis of key Egyptian monuments including the statue of Ramses II at Luxor and the fallen crowns that lay at its feet His modern day engineering expertise provides a unique view into the sophisticated technology used to create these famous monuments in prehistoric times Using modern digital photography computer aided design software and metrology instruments Dunn exposes the extreme precision of these monuments and the type of advanced manufacturing expertise necessary to produce them His computer analysis of the statues of Ramses II reveals that the left and right sides of the faces are precise mirror images of each other and his examination of the mysterious underground tunnels of the Serapeum illuminates the finest examples of precision engineering on the planet Providing never before seen evidence in the form of more than 280 photographs Dunn s research shows that while absent from the archaeological record highly refined tools techniques and even mega machines must have been used in ancient Egypt
