Curiosity and the Aesthetics of Travel-Writing, 1770-1840 Nigel Leask, 2002-01-10 The decades between 1770 and 1840 are rich in exotic accounts of the ruin strewn landscapes of Ethiopia Egypt India and Mexico Yet it is a field which has been neglected by scholars and which unjustifiably remains outside the literary canon In this pioneering book Nigel Leask studies the Romantic obsession with these antique lands drawing generously on a wide range of eighteenth and nineteenth century travel books as well as on recent scholarship in literature history geography and anthropology Viewing the texts primarily as literary works rather than transparent adventure stories or documentary sources he sets out to challenge the tendency in modern academic work to overemphasize the authoritative character of colonial discourse Instead he addresses the relationship between narrative aesthetics and colonialism through the unstable discourse of antiquarianism exploring the effects of problems of creditworthiness and the nebulous epistemological claims of curiosity a leitmotif of the accounts studied here on the contemporary status of travel writing Attentive to the often divergent idioms of elite and popular exoticism Curiosity and the Aesthetics of Travel Writing plots the transformation of the travelogue through the period as the baroque particularism of curiosity was challenged by picturesque aesthetics systematic geographical narrative and the emergence of a transcendental self axiomatic to Romantic culture In so doing it offers an important reformulation of the relations between literature aesthetics and empire in the late Enlightenment and Romantic periods

Contemporary Art and the Display of Ancient Egypt

Alice Stevenson,2025-01-16 Artistic interventions are now a popular means of delivering fresh perspectives on museum displays including in galleries devoted to ancient Egypt Installations are commonly said to put the past and present into dialogue with each other offering external critical voices on the work of decolonisation Contemporary Art and the Display of Ancient Egypt argues that the contemporary and the ancient do not necessarily inform each other Instead they are mediated by and mediations of the museum that produces them Rather than explore how contemporary artists have been inspired by Egypt this book examines how they have shaped the language and discourse around study of the Egyptian past by looking at the wider field of public display in which both have been historically situated Building on this critical history of practice the book draws from experiments in bringing contemporary artistic sculptures conceptual pieces multimedia films sounds smells and performances into galleries at the British Museum in London the Egyptian Museum in Turin and the State Museum of Egyptian Art in Munich These are used to explore what contemporary art does in these spaces the motivations for inviting artists in and the legacies of those interventions It ends with a reflection on how academics and curators can be involved in the creative process and how artists contribute to academic research Praise for Contemporary Art and the Display of Ancient Egypt This is an important and innovative study on the recent history of incorporating art installations in galleries of Egyptian antiquities Offering a thoughtful critical analysis of the ways in which contemporary art and ancient artefacts are juxtaposed in museum settings the book calls for a more nuanced and politically engaged practice of collaboration between

artists and Egyptologists Stephanie Moser University of Southampton Archaeologist Alice Stevenson provides a thoughtful consideration of the goals and intent behind contemporary art interventions in exhibitions of ancient Egyptian art She challenges the curators scholars and museum professionals who design these exhibitions to move beyond the simplistic ancient art contemporary art juxtaposition and instead use contemporary art interventions to create spaces for both artistic and academic insight and inspiration I look forward to such dialogue Kara Cooney UCLA

Egyptian Revival Omar Khalil, The fascination with Ancient Egypt has influenced architectural and artistic movements for centuries culminating in what is known as the Egyptian Revival This movement characterized by its adaptation of ancient Egyptian motifs emerged in response to rediscoveries of Egypt's past The revival gained traction during the 18th and 19th centuries driven by archaeological discoveries historical curiosity and a growing appreciation for non European artistic traditions One of the key moments that ignited interest in Ancient Egypt was Napoleon Bonaparte's Egyptian campaign 1798 1801 This military expedition was not just an act of conquest but also a scientific endeavor that brought scholars artists and historians to document Egypt's ancient ruins The most significant outcome of this campaign was the publication of the *Description de l'Égypte* a comprehensive collection of illustrations and studies that introduced Europe to the architectural grandeur of Egypt The discovery of the Rosetta Stone in 1799 further fueled this fascination as it eventually led to the deciphering of Egyptian hieroglyphics allowing deeper insights into the civilization's history and culture The widespread enthusiasm for Ancient Egypt in the early 19th century gave rise to what historians call Egyptomania This cultural phenomenon influenced literature fashion decorative arts and architecture Egyptian imagery including sphinxes obelisks and pyramidal forms began to appear in European cityscapes The influence was particularly noticeable in monumental architecture where designers sought to capture the imposing and symbolic nature of ancient Egyptian structures The fascination with Egypt was further fueled by colonial expansion as European powers took a vested interest in the region's antiquities

[Egypt in Italy](#) Molly Swetnam-Burland, 2015-04-06 This book examines the appetite for Egyptian and Egyptian looking artwork in Italy during the century following Rome's annexation of Aegyptus as a province In the early imperial period Roman interest in Egyptian culture was widespread as evidenced by works ranging from the monumental obelisks brought to the capital over the Mediterranean Sea by the emperors to locally made emulations

of Egyptian artifacts found in private homes and in temples to Egyptian gods Although the foreign appearance of these artworks was central to their appeal this book situates them within their social political and artistic contexts in Roman Italy Swetnam Burland focuses on what these works meant to their owners and their viewers in their new settings by exploring evidence for the artists who produced them and by examining their relationship to the contemporary literature that informed Roman perceptions of Egyptian history customs and myths *Nefer* Willie Cannon-Brown,2007-11-21 This book provides an original treatment of the concept of good and beauty in ancient Egypt It seeks to examine the dimensions of *nefer* the term used to describe the good and the beautiful within the context of ordinary life Because the book is based upon original research on ancient Egypt it opens up space for a review of the aesthetics of other African societies in the Nile Valley Thus it serves as a heuristic for further research and scholarship A Teaching Grammar of Middle Egyptian Joshua Aaron Roberson,2025-07-01 This volume serves as a thorough and authoritative introduction to the classical phase of the ancient Egyptian language and its writing systems known by convention as Middle Egyptian It includes sixteen chapters with practice exercises which offer detailed discussions of the conventional hieroglyphic script syntax and grammar as well as overviews of diachronic change the hieratic script and nonstandard hieroglyphic orthographies so called cryptography In addition the volume includes an answer key to the even numbered exercises as well as a series of appendices featuring an extensive glossary of particles numerous paradigmatic charts and a robust sign list **Clothing and Fashion** José Blanco F.,Patricia Kay Hunt-Hurst,Heather Vaughan Lee,Mary Doering,2015-11-23 This unique four volume encyclopedia examines the historical significance of fashion trends revealing the social and cultural connections of clothing from the precolonial times to the present day This sweeping overview of fashion and apparel covers several centuries of American history as seen through the lens of the clothes we wear from the Native American moccasin to Manolo Blahnik s contribution to stiletto heels Through four detailed volumes this work delves into what people wore in various periods in our country s past and why from hand crafted family garments in the 1600s to the rough clothing of slaves to the sophisticated textile designs of the 21st century More than 100 fashion experts and clothing historians pay tribute to the most notable garments accessories and people comprising design and fashion The four volumes contain more than 800 alphabetical entries with each volume representing a different era Content includes fascinating information such as that beginning in 1619 through 1654 every man in Virginia was required to plant a number of mulberry trees to support the silk industry in England what is known about the clothing of enslaved African Americans and that there were regulations placed on clothing design during World War II The set also includes color inserts that better communicate the visual impact of clothing and fashion across eras

Eighteenth-Century Thing Theory in a Global Context Ileana Baird,Christina Ionescu,2016-04-29 Exploring Enlightenment attitudes toward things and their relation to human subjects this collection offers a geographically wide ranging perspective on what the eighteenth century looked like beyond British or British colonial borders To highlight trends

fashions and cultural imports of truly global significance the contributors draw their case studies from Western Europe Russia Africa Latin America and Oceania This survey underscores the multifarious ways in which new theoretical approaches such as thing theory or material and visual culture studies revise our understanding of the people and objects that inhabit the phenomenological spaces of the eighteenth century Rather than focusing on a particular geographical area or on the global as a juxtaposition of regions with a distinctive cultural footprint this collection draws attention to the unforeseen relational maps drawn by things in their global peregrinations celebrating the logic of serendipity that transforms the object into something else when it is placed in a new locale

Ward, 2018-01-13 Raqs sharqi the Egyptian dance form also known as belly dance has for generations captured imaginations around the globe Yet its origins have been obscured by misinformation and conjecture rooted in Orientalist attitudes about the Middle East a widely accepted narrative suggests the dance was created in response to Western influences and desires Drawing on an array of primary sources the author traces the early development of raqs sharqi in the context of contemporary trends in Egyptian arts and entertainment The dance is revealed to be a hybrid cultural expression emerging with the formation of Egyptian national identity at the end of the 19th century when Egypt was occupied by the British
