Steiner, Ann E. Killebrew, 2014-01-16 This Handbook aims to serve as a research guide to the archaeology of the Levant an area situated at the crossroads of the ancient world that linked the eastern Mediterranean Anatolia Mesopotamia and Egypt The Levant as used here is a historical geographical term referring to a large area which today comprises the modern states of Israel Jordan Lebanon western Syria and Cyprus as well as the West Bank Gaza Strip and the Sinai Peninsula Unique in its treatment of the entire region it offers a comprehensive overview and analysis of the current state of the archaeology of the Levant within its larger cultural historical and socio economic contexts The Handbook also attempts to bridge the modern scholarly and political divide between archaeologists working in this highly contested region Written by leading international scholars in the field it focuses chronologically on the Neolithic through Persian periods a time span during which the Levant was often in close contact with the imperial powers of Egypt

Anatolia Assyria Babylon and Persia This volume will serve as an invaluable reference work for those interested in a contextualised archaeological account of this region beginning with the agricultural revolution until the conquest of Alexander the Great that marked the end of the Persian period *From the Fjords to the Nile: Essays in honour of Richard Holton Pierce on his 80th birthday* Pål Steiner, Alexandros Tsakos, Eivind Heldaas Seland, 2018-02-28 From the Fjords to the Nile brings together essays by students and colleagues of Richard Holton Pierce b 1935 presented on the occasion of his 80th birthday Topics focus on Egypt the Near East and the wider ancient world *Yotvata* Lily Singer-Avitz, Etan Ayalon, 2023-01-03 This book presents the final report of the excavations at Yotvata the largest oasis in the Arabah Valley conducted by the Sonia and Marco Nadler Institute of Archaeology of Tel Aviv University in 1974 1980 under the direction of Dr Ze'ev Meshel The report covers two central sites a fortified Iron I site and an Early Islamic settlement The Iron I remains consist of an irregular casemate wall surrounding a courtyard The location of this site suggests that the settlement was established in order to protect the water sources and to overlook and supervise the nearby crossroads Based on the relative proximity of the site to Timna it may be concluded that the oasis formed the main source of water and wood for the population involved in copper production in that region The rich finds uncovered at the Early Islamic settlement including a large courtyard building and a nearby bathhouse among other structures point to habitation from the end of the seventh to the early ninth century CE The proximity of the settlement to a sophisticated irrigation system qanat and the administrative economic ostraca discovered at the site suggest that it served as the center of an agricultural estate owned by an elite Muslim family Among the unique finds is a large assemblage of locally produced handmade pottery which is thoroughly studied here The findings from the excavations at the Yotvata oasis have made a major contribution to the study of Early Islamic settlement and material culture in the greater Arabah region and beyond **Proceedings of the Ninth International Dakhleh Oasis Project Conference** Colin A. Colburn, 2019-09-11 A study of the material culture of Egypt during the period of Achaemenid Persian rule c 526 404 BCE Provides a clear overview of the archaeological evidence for Achaemenid Egypt including temples tombs irrigation works statues stelae seals and coins Demonstrates how different types

of evidence both textual and archaeological including material of uncertain provenance can be used to address a single historical question Offers critical discussion of the dating criteria used by archaeologists for Egyptian Late Period material Elucidates strategies used by the Persians to establish and maintain control of Egypt Examines how these strategies may have affected the lives of people living in Egypt during the 27th Dynasty Creates a new explanatory model for the introduction of coinage to ancient Egypt Previous studies have characterised Achaemenid rule of Egypt either as ephemeral and weak or oppressive and harsh These characterisations however are based on the perceived lack of evidence for this period filtered through ancient and modern preconceptions about the Persians Henry Colburn challenges these views by assembling and analyzing the archaeological remains from this period including temples tombs irrigation works statues stelae sealings drinking vessels and coins By looking at the decisions made about material culture by Egyptians Persians and others it becomes possible to see both how the Persians integrated Egypt into their empire and the full range of experiences people had as a result

**Egypt and American Foreign Assistance 1952-1956** J.
