Year in the Life of Ancient Egypt Ann Rosalie David, 2015-04-16 An overview of daily life in ancient Egypt its society and culture Based on years of prestigious academic work Professor Rosalie David cleverly presents every aspect of life in ancient Egypt through the lives of various characters all based on mummies from the Manchester Museum whom Professor Rosalie David has led the study of Characters hail from all walks of life including royalty nobles officials craftsmen and peasants allowing us an insight into absolutely every aspect of everyday ritual and religious life in ancient Egypt The book provides an overview of the many dynasties and kingdoms of ancient Egypt before beginning to tell the story of the lives of one family All three seasons of inundation planting and growing and harvesting are covered as well as all ritual and religious events including birth and death The book is extremely easy to read and digest however the attention to detail and the vivid picture of life which we are able to build makes it clear that this book has been written by one of the leading authorities in Egyptology and mummy research

Molecular and Structural Archaeology: Cosmetic and Therapeutic Chemicals Georges Tsoucaris, Janusz Lipkowski, 2012-12-06 Recent progress in the analysis and structural characterisation of materials has an increasing impact on studies of archaeological specimens A need to embody such research into a new interdisciplinary field has appeared In this ARW we intended to bring together archaeologists and historians with physicists chemists crystallographers and pharmacists around the theme of structural information on complex archaeological materials Within this vast area the ARW has mainly focused on cosmetic therapeutic chemicals The objectives of this NATO ARW were twofold Delineating the contour of molecular and structural archaeology as an emerging interdisciplinary field based on structural

analysis at the molecular level Examining novel methodologies to reconstruct the scenario of synthesis and transformation in the long term of compounds used in antiquity for health and beauty The strong interdisciplinarity of this meeting has been greatly favoured by the NATO ARW organisation allowing the mixing of different fields and disciplines with convergent general goals This Workshop has shown that the molecular and structural sensibility is a powerful tool towards the setting and often the solution of difficult archaeological and historical problems Ten different nationalities Europe Egypt USA were represented in the ARW and this mixing has contributed to the large range of subjects and archaeological contexts Thus a mutual interaction between Archaeology and Physical Sciences is expected The most obvious part is associated with extended use of any possible technique and method to get as much information about the archaeological samples as possible
