excavations and research at the NAN Ranch Ruin in southwestern New Mexico Harry Shafer offers new information and interpretations of the rise and disappearance of the ancient Mimbres culture that thrived in the area from about AD 600 to 1140 The NAN Ranch site gives evidence of a fascinating restructuring of Mimbres culture and society owing to the introduction of irrigation agriculture in the late ninth century The social restructuring that accompanied this shift in technology resulted in changes that are visible in architecture mortuary practices and ceramic decoration The NAN Ranch ruin has yielded the largest body of evidence ever gathered at a single Mimbres site and thus offers the clearest picture to date of who the ancient Mimbres were in relation to their Anasazi and Hohokam neighbors to the north and east Shafer

introduces us to the Mimbres people gives a history of archaeological research in the Mimbres Valley and traces the occupation of the NAN Ranch site from pithouses to classic pueblo to abandonment Social customs subsistence biological information and the symbolism of the distinctive Mimbres designs in their ceramics pottery stone artifacts textiles and jewelry are all addressed in this comprehensive survey **The Production and Distribution of Mimbres Pottery** Darrell Creel,2022-10-15 The Production and Distribution of Mimbres Pottery assesses a much expanded INAA data set and presents a new and more informed interpretation of ceramic production and distribution in the Mimbres region **Late Prehistoric Hunter-Gatherers and Farmers of the Jornada Mogollon** Thomas R. Rocek,Nancy A. Kenmotsu,2019-02-21 Often seen as geographically marginal and of limited research interest to archaeologists the Jornada Mogollon region of the southwestern United States and northern Mexico deserves broader attention Late Prehistoric Hunter Gatherers and Farmers of the Jornada Mogollon presents the major issues being addressed in Jornada research and reveals the complex dynamic nature of Jornada prehistory The Jornada branch of the Mogollon culture and its inhabitants played a significant economic political and social role at multiple scales This volume draws together results from recent large scale CRM work that has amassed among the largest data sets in the Southwest with up to date chronological architectural faunal ceramic obsidian sourcing and other specialized studies Chapters by some of the most active researchers in the area address topics that reach beyond the American Southwest such as mobility forager adaptations the transition to farming responses to environmental challenges and patterns of social interaction Late Prehistoric Hunter Gatherers and Farmers of the Jornada Mogollon is an up to date summary of the major developments in the region and their implications for Southwest archaeology in particular and anthropological archaeological research more generally The publication of this book is supported in part by the Arizona Archaeological and Historical Society and the Center for Material Culture Studies at the University of Delaware Contributors Rafael Cruz Antill n Douglas H M Boggess Peter C Condon Linda Scott Cummings Moira Ernst Tim Graves David V Hill Nancy A Kenmotsu Shaun M Lynch Arthur C MacWilliams Mary Malainey Timothy D Maxwell Myles R Miller John Montgomery Jim A Railey Thomas R Rocek Matt Swanson Christopher A Turnbow Javier Vasquez Regge N Wiseman Chad L Yost **Early Formative Adaptations in the Southern Southwest** Barbara J. Newell,Emiliano Gallaga,2004 Archaeology in the Southwest is increasingly directing its attention south of the international border as it becomes clear that a picture of the pre hispanic Southwest is incomplete without taking the Mexican Northwest into account

Surveying the Archaeology of Northwest Mexico presents an overview of recent work in Sonora and Chihuahua comprising a sort of professional tour of the area. The chapters offer fresh insights into the formation of centers such as Paquim, Cerro de Trincheras and the Rio Sonora cabaceras. Contributors explore relations between these centers, individual internal organization of the various identifiable polities and the relation of the whole northwest Mexican region to better known adjacent ones. The volume underscores that northwest Mexico was not a dependent hinterland but was inhabited by many independent groups throughout prehistory.
