Rozell, Clyde Wilcox, 1997 God at the Grass Roots 1996 is composed of entirely new and original essays that analyze the impact of the Christian Right in the 1996 national state and local elections The nation s leading scholars of religion and politics identify and illuminate numerous trends that have dramatically evolved since the landmark elections of 1994 More than simply a revised version of the popular God at the Grass Roots this fundamentally new edition examines the Christian Right s nationwide influence and the essays arrive at starkly different conclusions about America s most organized and observed political interest group This text will complement all courses on parties and elections and religion and politics British Politics Richard S. Grayson, 2016-04-07 No one saw it coming No pundit no pollster and no political leader predicted David Cameron s Conservative Party would win a majority of seats in Parliament and his three main opponents would resign as party leaders The consequences of the coalition also became clear as the Liberal Democrats fell

dramatically from grace and lost their spot as Britain's third party. And despite Scotland voting NO to independence in 2014 the election result also threatens the Union with the Scottish National Party winning all but three of the country's seats. In this timely edition Richard S Grayson analyses Britain's changing political landscape and explores the role of the media, the European Union and the UK's special relationship with the US. Thorough and incisive *British Politics: A Beginner's Guide* is the perfect introduction to the structure, parties and personalities of British Government today. — *A University Education* David Willetts, 2017-11-17 Universities have a crucial role in the modern world. In England, entrance to universities is by nationwide competition, which means English universities have an exceptional influence on schools, a striking theme of the book. This important book first investigates the university as an institution and then tracks the individual on their journey to and through university. In *A University Education* David Willetts presents a compelling case for the ongoing importance of the university both as one of the great institutions of modern society and as a transformational experience for the individual. The book also makes illuminating comparisons with higher education in other countries, especially the US and Germany. Drawing on his experience as UK Minister for Universities and Science from 2010 to 2014, the author offers a powerful account of the value of higher education and the case for more expansion. He covers controversial issues in which he was involved, from access for disadvantaged students to the introduction of 9,000 fees. The final section addresses some of the big questions for the future, such as the relationship between universities and business, especially in promoting innovation. He argues that the two great contemporary trends of globalisation and technological innovation will both change the university significantly. This is an authoritative account of English universities, setting them for the first time in their new legal and regulatory framework. — *The Chicago Legal News*, 1907 — *2,000 Mules* Dinesh D'Souza, 2022-10-25 At last, bestselling author Dinesh D'Souza exposes the powerful evidence of voting fraud that you were told didn't exist. Also a major motion picture documentary, *THE FIX WAS IN*. The 2020 presidential election was rife with fraud orchestrated by the Democratic Party. That's not just an accusation; it's now, thanks to bestselling author and investigative journalist Dinesh D'Souza, an established fact. With eyewitness testimony and the pinpoint precision and analytic sophistication of the forensic technique of geotracking, D'Souza demonstrates how an already corrupt system put in place by Democratic Party hacks and community organizers was taken over and supercharged by national level operatives to jeopardize the integrity of the election. The key figure, the mule, a paid cut-out, a criminal deliveryman, the stooge found at the intersection where election cheating and double dealing hit the road. The mule is the crook who physically takes a sack of ballots provided by shady NGOs and political machines, the community activist organizations made famous by former President Obama, for instance, and dumps those ballots in collection boxes throughout a voting district. Do enough of this and you have planted voter fraud across a nation. Documentary filmmaker extraordinaire and bestselling author of *America: Death of a Nation* and *United States of Socialism*, Dinesh D'Souza exposes powerful evidence of the colossal voting racketeering that you were told didn't exist. Here you will find the receipts.

the transcripts and confirmatory details for the facts establishing 2020 election fraud presented in D Souza's major motion picture documentary *2 000 Mules* D Souza makes a powerful argument that 2020 was a stolen election More important D Souza proves it     *Working Mother* ,2000-10 The magazine that helps career moms balance their personal and professional lives     *The Hollow Parties* Daniel Schlozman,Sam Rosenfeld,2025-10-28 A major history from the Founding to our embittered present that explains the void Politico at the center of America's political parties Featured on The Ezra Klein Show and The Weekly Show with Jon Stewart America's political parties are hollow shells of what they could be locked in a polarized struggle for power and unrooted as civic organizations The Hollow Parties takes readers from the rise of mass party politics in the Jacksonian era through the years of Barack Obama and Donald Trump Today's parties at once overbearing and ineffectual have emerged from the interplay of multiple party traditions that reach back to the Founding Daniel Schlozman and Sam Rosenfeld paint unforgettable portraits of figures such as Martin Van Buren whose pioneering Democrats invented the machinery of the mass political party and Abraham Lincoln and other heroic Republicans of that party's first generation who stood up to the Slave Power And they show how today's fractious party politics arose from the ashes of the New Deal order in the 1970s Activists in the wake of the 1968 Democratic National Convention transformed presidential nominations but failed to lay the foundations for robust movement driven parties Instead modern American conservatism hollowed out the party system deeming it a mere instrument for power Party hollowness lies at the heart of our democratic discontents With historical sweep and political acuity The Hollow Parties offers powerful answers to pressing questions about how the nation's parties became so dysfunctional and how they might yet realize their promise
