

Put Perennials in their Place!

STEPHANIE COHEN AND NANCY ONDRA are both thoroughly obsessed with everything about gardens and gardening — with digging, plotting, designing, and creating great canvases of living color and texture. In this book they generously share both their passion and their knowledge about garden design. Their encouraging words, based on practical experience and the belief that there is more than one right way to create a garden, boost confidence and provide experimentation. After all, Stephanie builds her garden combinations around harmonious colors and contrasting flower forms, whereas Nan's love for colorful foliage leads her to feature dramatically contrasting leaf colors and textures. Along with design basics, they present 20 garden plans, as well as the before-and-after stories of gardens they've created for themselves and their families.

Taken just 6 months apart, these before-and-after photos prove that it's absolutely possible to turn an expanse of mud and rocks into a flower-filled border — if you have the knowledge.

Stephanie Cohen has received awards from the Pennsylvania Horticultural Society and the Perennial Plant Association, and teaches advanced perennial design at Temple University in Pennsylvania.

Nancy Ondra operated a rare-plant nursery for six years, and is the author of six other gardening books, including *Storey's Grasses*, *Variable Partners for Uncommon Garden Design*.
