Building an Ark Ethan Smith, Guy Dauncey, 2007-11-01 *Building an Ark: 101 Solutions to Animal Suffering* is a first of its kind, inspiring look at practical solutions for the humane treatment of animals and animal liberation. Animal cruelty has many forms: factory farms, habitat destruction, animal product testing, the abuse and neglect of companion animals, the illegal trade in endangered species, unsustainable fishing, and climate change. All these create unnecessary suffering for animals and destroy animal rights. For several decades, there has been a global movement building an ever-increasing consciousness that will soon affect animal welfare and the future of life on Earth if it's given time to do so. *Building an Ark* is the story of this movement. Extensively researched and drawing on practical examples from around the world, it provides a voice for both the animals and the humans who have dedicated their lives to building a sustainable future for all species. The ark is ready for all to board. Individuals, action groups, schools, businesses, governments, farmers, fishers, developing nations: there's a role for everyone on this journey. *Building an Ark* offers a host of solutions that, if adopted, will ensure that animals will suffer less today and that humans and animals will share a more sustainable planet tomorrow. Ethan Smith is a writer, animal welfare advocate, and author/editor of the anthology *Softly On This Earth: Joining Those Who Are Healing Our Planet*. Guy Dauncey founded the Solutions Project and is author of several books, including *Stormy Weather: 101 Solutions to Global Climate Change*.

Veganism Eva Haifa Giraud, 2021-06-17 What exactly do vegans believe? Why has veganism become such a critical

and criticized social movement and how does veganism correspond to wider debates about sustainability animal studies and the media Eva Haifa Giraud offers an accessible route into the debates that surround vegan politics which feed into broader issues surrounding food activism and social justice Giraud engages with arguments in favor of veganism as well as the criticisms levelled at vegan politics She interrogates debates and topics that are central to conversations around veganism including identity intersectional politics and activism with research drawn from literary animal studies animal geographies ecofeminism posthumanism critical race theory and new materialism Giraud makes an original theoretical intervention into these often fraught debates and argues that veganism holds radical political potential to act as more than a diet by disrupting commonplace norms and assumptions about how humans relate to animals Drawing on a range of examples from recipe books with punk aesthetics to social media campaigns Giraud shows how veganism s radical potential is being complicated by its commercialization and elucidates new conceptual frameworks for reclaiming veganism as a radical social movement
