Cubicle Farm Fantasy Ranjit Sankar, 2006-12 In the old days it took a decade or more in a job to become fed up with it That time has become significantly shorter and the drama of frustration with one s career choice and current job is being played out in thousands of companies and cities in India The country is experiencing an economic boom and along with boom times comes greed so there are bound to be countless companies that turn their employees into virtual slaves As we can already see from the attrition rates at call centers software firms consultancies and similar businesses employees are burning out This book is intended as a fantasy journey for employees toiling themselves into oblivion and perhaps offers them a rare pause in their busy lives to think about how simple life used to be before companies and the industrial revolution ruined it This book follows the life of the author as he deliberately and purposefully dismantles his corporate life in the big city and heads for the hills to live a simpler life It recounts the days and activities of his family as they set up life at a cottage at a remote hill station farm

covetousness towards him because they perceived that he had advantages which they didn't have. Competitive jealousy of others in the household mounted their believing that they had to try to outdo the educated member of the family. A long drawn out bitter family war against the author ensued. Disrespect for the author's higher education continued in later years by not only the third generation but also by in-laws who didn't even know the author when he was in college. After receiving both a BS degree and an MA degree in geology with a master's thesis dealing with archaeology of Archaic Indian sites near his hometown, the author took a temporary summer job as a national park ranger at Canyon de Chelly National Monument at Chinle, Arizona. Canyon de Chelly is located in the center of the vast Navajo Indian Reservation. Getting to live and work in such a beautiful natural area was like a dream come true. That first summer's work at Canyon de Chelly motivated the author to eventually work as a seasonal park ranger in six other national parks and monuments. After working at Canyon de Chelly for one summer, the author ended up going back to Arizona where he lived for ten more years. He married a woman in Kansas who he hardly even knew; then he went to the University of Arizona where he spent two years working towards a PhD degree. After that, he and his wife spent eight more years back on the Navajo Indian Reservation. During those years on the reservation, he taught Navajo Indian children on a substitute teaching certificate. It was a full-time job in the winter. Almost all of his students were Navajo Indians. He taught all grade levels from kindergarten through high school. Chapters 6, 7, and 8 of this book are devoted to stories about life in remote areas of the reservation in the 1960s and 1970s. At that time, the author's doctor and grocery stores were 145 miles from where he lived. There we

There was one of those dear ladies who was attending one of my revival meetings. She was a young lady who was married to a cowboy, a man with a hard and heavy heart, a very jealous man who did not believe in the salvation of Jesus Christ, who as a matter of fact did not believe that his young wife needed to be out in public where other men maybe about especially around a fifteen-year-old preacher such as me. She had attended my services every night from the beginning since it started and of course unbeknownst to me had nothing but praises for me as a young evangelist and my wonderful sermons. Well, after one of those services, her husband decided to stay up and wait for her return. He immediately confronted her as soon as she stepped into the house and said, "If you ever go back to that evangelist service again, I'm going to do something terrible to that evangelist of yours, something that you will regret for the rest of your life, do you understand?" Later on that week, she decided to go back to our revival meeting even though she knew that it would cause a terrible confrontation with her husband. It was on a Thursday or Friday night when she showed up at our revival meeting and unbeknownst to her, her husband had followed her to the meeting place. In the middle of the service, he came up next to her and sat down beside her. Of course, all this was going on without my knowledge. Apparently, he had determined that when I stood up to preach, he would use his six-shooter revolver which was fully loaded with six bullets and belted in a side-strapped, tie-down holster to put

some holes into me As I stood up to start my sermon he stood up next to his wife pulled his six shooter out aimed it at me and started pulling the trigger
