### **Gardens in the Time of the Great Muslim Empires**

Petrucchioli,2024-03-25 Interest in the Islamic garden has increased considerably in the past years to such a point where a conference specifically on this subject was held at M I T in Cambridge Massachusetts in 1994 This volume collects eight papers from the conference and two additional papers especially written for the book to further and act as a basis for the attention given by scholars these days to Islamic landscape architecture , *Islamic Gardens and Landscapes D.*

Fairchild Ruggles,2011-12-30 Western admirers have long seen the Islamic garden as an earthly reflection of the paradise said to await the faithful However such simplification Ruggles contends denies the sophistication and diversity of the art form Islamic Gardens and Landscapes immerses the reader in the world of the architects of the great gardens of the Islamic world from medieval Morocco to contemporary India Just as Islamic culture is historically dense sophisticated and complex so too is the history of its built landscapes Islamic gardens began from the practical need to organize the surrounding space of human civilization tame nature enhance the earth s yield and create a legible map on which to distribute natural resources Ruggles follows the evolution of these early farming efforts to their aristocratic apex in famous formal gardens of the Alhambra in Spain and the Taj Mahal in Agra Whether in a humble city home or a royal courtyard the garden has several defining characteristics which Ruggles discusses Most notable is an enclosed space divided into four equal parts surrounding a central design element The traditional Islamic garden is inwardly focused usually surrounded by buildings or in the form of a courtyard Water provides a counterpoint to the portioned green sections Ranging across poetry court documents agronomy manuals and early garden representations and richly illustrated with pictures and site plans Islamic Gardens and Landscapes is a book of impressive scope sure to interest scholars and enthusiasts alike
