*Country* David Jacques,2017-01-01 Gardens of Court and Country provides the first comprehensive overview of the  
development of the English formal garden from 1630 to 1730 Often overshadowed by the English landscape garden that  
became fashionable later in the 18th century English formal gardens of the 17th century displayed important design  
innovations that reflected a broad rethinking of how gardens functioned within society With insights into how the Protestant  
nobility planned and used their formal gardens the domestication of the lawn and the transformation of gardens into large  
rustic parks David Jacques explores the ways forecourts flower gardens bowling greens cascades and more were created and  
reimagined over time This handsome volume includes 300 illustrations including plans engravings and paintings that bring  
lost and forgotten gardens back to life      Gardens & Design John C. Shepherd,Geoffrey Jellicoe,1927 This book is something  
unique among books on the subject in that it will for the first time try to arrive at the essential conceptions of garden design  
the fundamental ideas that give each particular type its personality A garden expresses the essentials of a culture no less  
than a building indeed in the formal gardens the garden was a logical extension of the building the whole forming one  
complete harmonious plan Dust Jack      **The Gardener's Magazine** ,1915      *Rhs Garden Finder 2006-2007* Charles

Floud,2021-06-15 An altogether different kind of book on English gardens the first of its kind a look at the history of England  
s magnificent gardens as a history of Britain itself from the seventeenth century gardens of Charles II to those of Prince  
Charles today In this rich revelatory history Sir Roderick Floud one of Britain s preeminent economic historians writes that  
gardens have been created in Britain since Roman times but that their true growth began in the seventeenth century by the  
eighteenth century nurseries in London took up 100 acres with ten million plants that were worth more than all of the  
nurseries in France combined Floud s book takes us through more than three centuries of English history as he writes of the

kings queens and princes whose garden obsessions changed the landscape of England itself from Stuart Georgian and Victorian England to today's Windsors Here are William and Mary who brought Dutch gardens and bulbs to Britain William who twice had his entire garden lowered in order to see the river from his apartments and his successor Queen Anne who like many others since vowed to spend little on her gardens and instead spent millions Floud also writes of Frederick Prince of Wales the founder of Kew Gardens who spent more than 40 000 on a single twenty five foot tulip tree for Carlton House Queen Victoria who built the largest most advanced and most efficient kitchen garden in Britain and Prince Charles who created and designed the gardens of Highgrove inspired by his boyhood memories of his grandmother's gardens We see Sarah Duchess of Marlborough who created a magnificent garden at Blenheim Palace only to tear it apart and build a greater one Deborah Duchess of Devonshire the savior of Chatsworth's 100 acre garden in the midst of its 35 000 acres and the gardens of lesser mortals among them Gertrude Jekyll and Vita Sackville West both notable garden designers and writers We see the designers of royal estates among them Henry Wise William Kent Humphrey Repton and the greatest of all English gardeners Capability Brown who created the 150 acre lake of Blenheim Palace earned millions annually and designed more than 170 parks many still in existence today We learn how gardening became a major catalyst for innovation central heating came from experiments to heat greenhouses with hot water pipes how the new iron industry of industrializing Britain supplied a myriad of tools mowers pumps and the boilers that heated the greenhouses and finally Floud explores how gardening became an enormous industry as well as an art form in Britain and by the nineteenth century was unrivaled anywhere in the world
