The Songs that Fought the War John Bush Jones,2006 A lively social history of popular wartime songs and how they helped America s home front morale *Belgian Museums of the Great War* Karen Shelby,2017-09-20 Belgian Museums of the Great War Politics Memory and Commerce examines the handling of the centennial of World War I by several museums along the Western Front in Flanders Belgium In the twenty first century the museum has become a strategic space for negotiating ownership of and access to knowledge produced in local settings The specific focus on museums and commemorative events in Flanders allows for an in depth evaluation of how each museum works with the remembrance and tourist industry in the region while carving a unique niche Belgian Museums of the Great War writes the history of these institutions analyzes the changes made in advance of the anniversary years and considers the site specificity of each institution and its architectural frame Since museums not only transmit information but also shape knowledge as Eileen Hooper Greenhill has noted the diverse narratives and community programs sponsored by each museum have served to challenge prior historiographies of the war Through newly revamped interactive environments self guided learning and an emphasis on the landscape the museums in Flanders have a significant role to play in the ever changing dialogue on the meaning of the history and remembrance of the Great War *The Origins of Lexham Gardens and Lee Abbey in London* David Weekes,1996 **Rooted Resistance** Norie R. Singer,Stephanie Houston Grey,Jeff Motter,2020-09-01 From farm to table restaurants and farmers markets to support for fair trade and food sovereignty movements for food system change hold the promise for deeper transformations Yet Americans continue to live the paradox of caring passionately about healthy eating while demanding the convenience of fast food Rooted Resistance explores this fraught but promising food scene More

than a retelling of the origin story of a democracy born from an intimate connection with the land this book wagers that socially responsible agrarian mythmaking should be a vital part of a food ethic of resistance if we are to rectify the destructive tendencies in our contemporary food system Through a careful examination of several case studies Rooted Resistance traverses the ground of agrarian myth in modern America The authors investigate key figures and movements in the history of modern agrarianism including the World War I victory garden efforts the postwar Country Life movement for the vindication of farmers rights the Southern Agrarian critique of industrialism and the practical and spiritual prophecy of organic farming put forth by J I Rodale This critical history is then brought up to date with recent examples such as the contested South Central Farm in urban Los Angeles and the spectacular rise and fall of the Chipotle Food with Integrity branding campaign By examining a range of case studies Singer Grey and Motter aim for a deeper critical understanding of the many applications of agrarian myth and reveal why it can help provide a pathway for positive systemic change in the food system
