Jewish civilization      **Curating Fascism** Sharon Hecker, Raffaele Bedarida, 2022-11-17 On the centenary of the fascist party's ascent to power in Italy *Curating Fascism* examines the ways in which exhibitions organized from the fall of Benito Mussolini's regime to the present day have shaped collective memory, historical narratives and political discourse around the Italian ventennio. It charts how shows on fascism have evolved since the postwar period in Italy, explores representations of Italian fascism in exhibitions across the world and highlights blindspots in art and cultural history as well as in exhibition practices. Featuring contributions from an international group of art, architectural design and cultural historians as well as journalists and curators, this book treats fascism as both a historical moment and as a major paradigm through which critics, curators and the public at large have defined the present moment since World War II. It interweaves historical perspectives, critical theory and direct accounts of exhibitions from the people who conceived them or responded to them most significantly in order to examine the main curatorial strategies, cultural relevance and political responsibility of art exhibitions focusing on the Fascist period. Through close analysis, the chapter authors unpack the multifaceted specificity of art shows including architecture and exhibition design, curatorial choices and institutional history, cultural diplomacy and political history, theories of viewership and constructed collective memory to evaluate current curatorial practice. In offering fresh new perspectives on the historiography, collective memory and understanding of fascist art and culture from a contemporary standpoint, *Curating Fascism* sheds light on the complex exhibition history of Italian fascism not just within Italy but in such countries as the USA, the UK, Germany and Brazil. It also presents an innovative approach to the growing field of exhibition theory by bringing contributions from curators and exhibition historians who critically reflect upon curatorial strategies with respect to the delicate subject of fascism and fascist art into dialogue with scholars of Italian studies and art historians. In doing so, the book addresses the physical and cultural legacy of fascism in the context of the current historical moment.

**Art and Ceremony in Jewish Life** Vivian B. Mann, 2005-12-31 Since turning to the field of Jewish art over twenty years ago, Vivian Mann has concentrated on investigating Jewish ceremonial art within the dual contexts of Jewish law and the history of decorative arts in general, including the ceremonial art made for the Church and the Mosque. The introduction to this volume considers classic rabbinic attitudes toward art and its relationship to spirituality. The remaining essays are divided into three groups: the first concerns medieval ceremonial art, the second articles on the Jewish art of Muslim lands beginning with the early Middle Ages, and the third consists of essays on Judaica during the periods of the Renaissance and rococo.

**The Chief Rabbi, the Pope, and the Holocaust** Robert G. Weisbord, Wallace P. Sillanpoa, 2011-12-31 In February 1945, Israele Zolli, chief rabbi of Rome's ancient Jewish community, shocked his co-religionists in Italy and throughout the Jewish world by converting to Catholicism and taking as his baptismal name Eugenio to honor Pope Pius XII. Eugenio Pacelli, for what Zolli saw as his great humanitarianism toward the Jews during the Holocaust. Almost a half a century after his conversion, Zolli still evokes anger and embarrassment in Italy's Jewish community. This book

is the first authoritative treatment of this astonishing story What induced Zolli to embrace Catholicism will probably never be known Nonetheless by painstaking scholarly detective work through interviews in Italy and elsewhere through the unearthing of private papers not previous known to exist and through the study of previous inaccessible archival materials the authors have succeeded in explaining why Zolli left the Jewish fold and joined the Catholic Church Like Zolli s rabbinical career Pius XII s long pontificate tells us much about the Church of Rome and its relationship to the Jewish people particularly with reference to the issue of conversion The authors focus on the pontiff s World War II policies vis vis the Jews a subject that has been heatedly debated since Rolf Hochhuth s *The Deputy* was performed in the early 1960s What Pacelli knew about the extermination of the Jews and when he knew it what he said and failed to say are given special attention in this book Through the examination of previous scholarship and primary materials including Pius XI s encyclical on race and anti-Semitism Pacelli s behavior is evaluated to determine if Zolli accurately gauged the Holy Father s efforts to save Jews This saga of the two Eugenios will interest historians of the Second World War and the Holocaust and students of history alike

*Intimate Strangers* Fredric Brandfon, 2023-05 Illuminating the history of Jews and Jewish Catholic relations in Rome *Intimate Strangers* investigates the unusual and uninterrupted relationship between Jews and Catholics as it has developed from the first century CE to the present

**The Political Economy of the Urban Ghetto** Daniel Roland Fusfeld, Timothy Mason Bates, 1984 The income of blacks in most northern industrial states today is lower relative to the income of whites than in 1949 Fusfeld and Bates examine the forces that have led to this state of affairs and find that these economic relationships are the product of a complex pattern of historical development and change in which black white economic relationships play a major part along with patterns of industrial agricultural and technological change and urban development They argue that today's urban racial ghettos are the result of the same forces that created modern America and that one of the by products of American affluence is a ghettoized racial underclass These two themes they state are essential for an understanding of the problem and for the formulation of policy Poverty is not simply the result of poor education skills and work habits but one outcome of the structure and functioning of the economy Solutions require more than policies that seek to change people they await a recognition that basic economic relationships must be changed
