Flower, 2017-09-26 The most pervasive gods in ancient Rome had no traditional mythology attached to them nor was their worship organized by elites Throughout the Roman world neighborhood street corners farm boundaries and household hearths featured small shrines to the beloved lares a pair of cheerful little dancing gods These shrines were maintained primarily by ordinary Romans and often by slaves and freedmen for whom the

lares cult provided a unique public leadership role In this comprehensive and richly illustrated book the first to focus on the lares Harriet Flower offers a strikingly original account of these gods and a new way of understanding the lived experience of everyday Roman religion Weaving together a wide range of evidence Flower sets forth a new interpretation of the much disputed nature of the lares She makes the case that they are not spirits of the dead as many have argued but rather benevolent protectors gods of place especially the household and the neighborhood and of travel She examines the rituals honoring the lares their cult sites and their iconography as well as the meaning of the snakes often depicted alongside lares in paintings of gardens She also looks at Compitalia a popular midwinter neighborhood festival in honor of the lares and describes how its politics played a key role in Rome s increasing violence in the 60s and 50s BC as well as in the efforts of Augustus to reach out to ordinary people living in the city's local neighborhoods A reconsideration of seemingly humble gods that were central to the religious world of the Romans this is also the first major account of the full range of lares worship in the homes neighborhoods and temples of ancient Rome The Garden of Ideas Richard Aitken, 2010 The Garden of Ideas tells an inspiring and engaging story of Australian garden design From the imaginings of emigrant garden makers of the late eighteenth century to the concerns of twenty first century gardeners this book charts its way across four centuries through a handsome and satisfying fusion of images and text The Garden of Ideas is embellished with an unparalleled array of images paintings drawings prints plans and photographs each richly evocative of their time and most never previously published Unearthed from around Australia and many from overseas these images carry the story of Australian garden style down the years in the process criss crossing social and cultural history across the wide extremes of our continent Richard Aitken whose book Botanical Riches was published in 2006 to popular and critical acclaim brings a lifetime of experience to The Garden of Ideas He achieves fresh insights and presents our passion for garden making with wit and flair The Garden of Ideas is a valuable source book for the sophisticated gardener and an indispensable companion for the garden lover The Magic of Children's Gardens Lolly Tai, 2017-04 Landscape architect Lolly Tai provides the primary goals concepts and key considerations for designing outdoor spaces that are attractive and suitable for children especially in urban environments Tia presents inspiring ideas for creating children's green spaces by examining nineteen outstanding case studies Dust jacket flap
