## **Gardens Of Obsession:**

*Gardens of Obsession* Gordon Taylor, Guy Cooper, 1999 A fertility sculpture garden in Bangkok and a topiary cemetery in Ecuador are just two of the astonishing stops on this garden world romp Conde Nast Garden infectious enthusiasm about gardens on the cutting edge the audacious the radical and the astonishing Cooper and Taylor take us on a wild and satisfying ride Garden Design Magazine an eye popping worldwide survey of garden statuary from surreal to monumental to cheerfully obscene Chicago Tribune *Gardens of Obsession* Tom Howard, 1988-10-01 *Gardens of Obsession* Tbp G.

Taylor, 1999-10 **Public Garden Management: a Global Perspective** Bijan Dehgan, 2014-04-16 Public Gardens Management A Global Perspective provides essential information about public gardens and what is involved in designing managing and maintaining one Although suitable as a textbook its audience will include anyone with direct or peripheral responsibility for administration or supervision of a complex organization that requires scientific knowledge as well as public relations and business acumen It may also prove useful for homeowners for there is no fundamental difference between growing plants in a public garden or a home garden a fact reflected in the extensive reference citations The topic is multidisciplinary and as old as the beginning of human civilization when the concept of mental and physical restoration was realized by early man while he she was in a natural but well ordered garden environment Thus began the art of garden making Many volumes have been written on every applicable subject discussed in this and similar publications Indeed the voluminous literature on history design horticulture and numerous related subjects is nothing short of overwhelming Accordingly anyone involved in management of public gardens whether as a director or area supervisor and irrespective of the type and size of such facility would have to have familiarity with various aspects of garden organization and administration However despite the enormous number and diversity of such publications there are very few books that deal with the multiplicity of the topics in such a manner as to be practical in approach and cover most relevant and unified issues in a single book These volumes provide the essential background information on plants animals management maintenance fundraising and finances as well as history art design education and conservation They also cover a host of interrelated subjects and responsible organization of such activities as creating a childrens garden horticultural therapy conservatories zoological gardens and parks hence administration of multidimensional public gardens Nearly 500 full color plates representing illustrations from gardens in more than 30 countries are provided to assist and guide students and other interested individuals with history and the fundamental issues of public garden management The 15 chapters begin with the need for public gardens types of public gardens historical backgrounds as well as design diversity Numerous quotations are included from many garden lovers landscape architects philosophers and others The authors primary aim in writing this book was based on the confidence that a relevant reference between the encyclopedic nature of some and the specific subject matter of others could be used to provide fundamental information for management of public as well as private gardens The

boundary between botanical and zoological gardens and parks is no longer as distinct as it once was In part it is because a garden is not a garden without plants and in part it has become apparent that for all practical intents and purposes all animals need plants for their survival Visitors of zoological gardens expect to see more than just animals zoos are landscaped grounds Moreover most communities find it financially difficult to simultaneously operate a botanical garden or an arboretum as well as a zoological garden and city parks A number of public gardens are currently referred to as botanical and zoological garden Population density and the public's desires and expectations as well as financial requirements are among the reasons for some major city parks such as Golden Gate in San Francisco Central Park in New York City and Lincoln Park in Chicago which integrate botanical or zoological divisions as well as museums and recreational facilities While this book attempts to provide basic principles involved in public garden management it does not claim to be a substitute for broader familiarity

**Literary Gardens** Sandra Lawrence, 2025-09-16 Gardens both real and imagined have long captured our imaginations. They are places of mystery and magic, beauty and danger, romance and revelation. Writers have used them to reflect longing and create unforgettable moments of drama, escape and wonder. *Literary Gardens* explores thirty of the most atmospheric and emotionally charged gardens in literature. From *The Secret Garden* and *Alice's Adventures in Wonderland* to *Rebecca* and *The Great Gatsby*, these fictional gardens capture the atmosphere and emotion of the stories they belong to. Some feel peaceful or nostalgic, others are rich with mystery or unspoken tension; each is shaped by the characters and moments that are revealed within them. In *Literary Gardens*, readers will uncover new stories and rediscover old favourites guided by Sandra Lawrence's lyrical storytelling and Lucille Clerc's evocative vision. *Literary Gardens* is a tribute to the spaces that have stayed with us long after the final page, a perfect gift for yourself or anyone who has ever wanted to step through the page and into another world.

**Garden Design**, 2006     *The Garden*, 2008     **Lost Gardens of the World** Sandra Lawrence, 2024-10-01 A romantic journey through forty captivating gardens lost to time. All over the world, once flourishing horticultural spaces have been abandoned and forgotten. From the once crumbling grandeur of the Villa d'Este and the magic of the Lost Gardens of Heligan to the sculptural surrealism of Las Pozas and the colourful rebirth of Le Jardin Majorelle, there are countless gardens around the world with fascinating stories to tell. Author and journalist Sandra Lawrence takes readers on a tour of 40 horticultural gems from around the world that have been lost either through neglect, abandonment or destruction. Many have been consigned to history, never to be seen again, while others have been revived and restored by the care and dedication of new owners and communities. These marvels of horticulture take many forms: stately homes, floating allotments, roof gardens and more. But all of them have one thing in common: the romance of paradise lost. Featuring one bespoke illustration of each garden by renowned artist Lucille Clerc, this book is a written celebration of our love of nature and the importance of keeping these oases of green alive and well, if not in reality then at least on the page. These charming gardens are brought back to life, including The Lost Gardens of Heligan, England; Las Pozas, Mexico; Le Jardin Majorelle, Morocco; The Garden of Dreams, Nepal; Villa d'Este, Italy; Paleis Het Loo, Netherlands; Crowninshield Garden, USA. Discover the remarkable stories behind the creation, decline and occasional rebirth of these astonishing spaces and meet the people and societies that first created and enjoyed them. The perfect gift for garden lovers, armchair travellers and cultural enthusiasts.
