**Getting Open** Tom Graham, Rachel Graham

Cody, 2011-02-22 A striking and honest portrait of a man overcoming racism in a place that barely acknowledged its existence Publishers Weekly Bill Garrett was the Jackie Robinson of college basketball In 1947 the same year Robinson broke the color line in major league baseball Garrett integrated big time college basketball By joining the basketball program at Indiana University he broke the gentleman s agreement that had barred black players from the Big Ten college basketball s most important conference While enduring taunts from opponents and pervasive segregation at home and on the road Garrett became the best player Indiana had ever had an all American and in 1951 the third African American drafted in the NBA In basketball as Indiana went so went the country Within a year of his graduation from IU there were six African American basketball players on Big Ten teams Soon tens then hundreds and finally thousands walked through the door Garrett opened to create modern college and professional basketball Unlike Robinson however Garrett is unknown today Getting Open is more than just a basketball book In the years immediately following World War II sports were at the heart of America s common culture And in the fledgling civil rights efforts of African Americans across the country which would coalesce two decades later into the Movement the playing field was where progress occurred publicly and symbolically Indiana was an unlikely place for a civil rights breakthrough It was stone cold isolationist widely segregated and hostile to change But in the late 1940s Indiana had a leader of the largest black YMCA in the world who viewed sports as a wedge for broader integration a visionary university president who believed his institution belonged to all citizens of the state a passion for high school and college basketball and a teenager who was as nearly as any civil rights pioneer has ever been the perfect person for his time

National Labor Relations Board,1980 **The Black Church Studies Reader** Alton B. Pollard,Carol B. Duncan,2016-04-29 The Black Church Studies Reader addresses the depth and breadth of Black theological studies from Biblical studies and ethics to homiletics and pastoral care The book examines salient themes of social and religious significance such as gender sexuality race social class health care and public policy While the volume centers around African American experiences and studies it also attends to broader African continental and Diasporan religious contexts The contributors reflect an interdisciplinary blend of Black Church Studies

scholars and practitioners from across the country The text seeks to address the following fundamental questions What constitutes Black Church Studies as a discipline or field of study What is the significance of Black Church Studies for theological education What is the relationship between Black Church Studies and the broader academic study of Black religions What is the relationship between Black Church Studies and local congregations as well as other faith based entities The book s search for the answers to these questions is compelling and illuminating *Performing Politics: Media Interviews, Debates and Press Conferences* Geoffrey Craig, 2016-06-03 For successful political leaders public speaking is only half the battle A good politician must also be a competent performer Whether facing critical questions in an interview posturing in a leaders debate or conversing on a daytime chat show success is reliant upon a candidate s ability to dramatically but authentically impart a strong individual identity In this innovative analysis Geoffrey Craig looks at the interrogative exchanges between politicians and journalists The power struggles and evasions in these encounters often leave the public exasperated but it is the politicians negotiation of these struggles that determines success Drawing on analyses of the language and performances of leaders such as Barack Obama and David Cameron Craig examines the particular kinds of interactions that occur across political interviews debates conferences and talk shows The political games that take place between politicians and journalists he argues constitute the true theatre of politics Engaging and insightful *Performing Politics* will appeal to students and scholars of journalism politics linguistics and media studies as well as anyone concerned about the quality of contemporary political communication *Western Kentucky University* Lowell H. What the Children Told Us Tim Spofford,2022-08-09 Does racial discrimination harm Black children s sense of self The Doll Test illuminated its devastating toll Dr Kenneth Clark visited rundown and under resourced segregated schools across America presenting Black children with two dolls a white one with hair painted yellow and a brown one with hair painted black Give me the doll you like to play with he said Give me the doll that is a nice doll The psychological experiment Kenneth developed with his wife Mamie designed to measure how segregation affected Black children s perception of themselves and other Black people was enlightening and horrifying Over and over again the young children some not yet five years old selected the white doll as preferable and the brown doll as bad Some children even denied their race Yes said brown skinned Joan W age six when questioned about her affection for the light skinned doll I would like to be white What the Children Told Us is the story of the towering intellectual and emotional partnership between two Black scholars who highlighted the psychological effects of racial segregation The Clarks story is one of courage love and an unfailing belief that Black children deserved better than what society was prepared to give them and their unrelenting activism played a critical role in the landmark Brown v Board of Education case The Clarks decades of impassioned advocacy their inspiring marriage and their enduring work shines a light on the power of passion in an unjust world      **Indians, Cattle, Ships, and Oil** Donald F. Schofield,2014-04-21 Indian trader rancher harbor developer oil impresario these are the many worlds of one of the least chronicled but most fascinating characters of the American West In the early bustling years of the frontier a brazen young

man named William McDole Lee moved from Wisconsin to Kansas and then to Texas to forge a life for himself. Becoming a driving entrepreneurial force in Texas's development, Lee soon garnered the alliances and resources necessary to shape the financial destinies of disparate groups throughout the state. His story is expertly told in Donald F. Schofield's *Indians, Cattle, Ships, and Oil: Beginning in 1869 as a trader to the southern Cheyenne and Arapaho tribes and fort provisioner to troops garrisoned at Camp Supply Indian Territory, Lee gained a partner and amassed a fortune in short order from trading buffalo hides and robes. Vast herds of buffalo grazing on the southern plains were killed largely on his order. When buffalo were no longer a profitable commodity, Lee tackled his next challenge: the cattle trade. He began with herds branded LR that grazed on pastures near Fort Supply. Then came his LE herd in the Texas Panhandle. Another partnership with noted cattle rancher Lucien Scott resulted in the vast LS ranch, one of the most successful operations of its day. Lee even introduced a new breed of cattle, the Aberdeen Angus, to the western range. But as his partnership faded, Lee moved on to his next undertaking: the development of Texas's first deep water harbor. In 1888, Lee and other financiers put up one million dollars to finance a dream: opening international trade from the waters of the Gulf of Mexico to the mainland at the mouth of the Brazos River. Their Brazos River Channel and Dock Company was to construct, own, and operate a deep water harbor at Velasco with a railroad link to Houston. Though threats of financial disaster loomed large, the Velasco facility was to welcome in its day tugs, barges, and three-masted schooners and to provide impetus for Houston's boom. Yet with success, the mercurial Lee turned to yet another challenge: oil. Starting still another partnership, Lee committed himself to prospecting for oil on the West Columbia Ridge in Brazoria County. Lee and crew struck oil in 1907, developing one of the first producing wells of Brazoria County, but inadequate drilling equipment hampered further fruitful exploration. Lee moved his rigs to the famed Spindletop, where he perfected the technique of shallow drilling. Though spectacular success in the oil business eluded him, Lee's accomplishments set him squarely among the great entrepreneurs of the Texas oil industry. Lee's exploits led him to roles in some of the most dramatic moments in Texas and the West Indian uprisings, buffalo hunts, political scandals, cowboy strikes, and shoot-outs, railroad promotions, oil well blow-outs, and gushers. The people he encountered are the famous and infamous of western history: Cheyenne Chief Little Robe and the outlaw Hurricane Bill Martin; Indian Agent John D. Miles and Major General John Pope; outlaws Tom Harris and William Bonney; and Sheriff Pat Garrett. Altogether, Lee's biography vividly shows one man's manipulation of people and events during the settlement of the American frontier.*
