Borrowed Sceneries Rahel Hartmann Schweizer, 2024-04-22 The garden as inspiration The garden embodies a condensed version of nature just as in Japanese philosophy the entire world is thought to be reflected in a single dewdrop This notion may be the inspiration for the Swiss imitation of Japanese gardens in the 20th century the impetus for the incorporation of Japanese design elements more generally and the conversion principle from alpine landscapes to Japanese stone gardens Taking ten Swiss landscape architecture studios as examples the author illustrates how they drew inspiration from miniaturized gardens bonsai borrowed scenery shakkei succumbed to the allure of the imperfect wabi sabi and captured the spirit of Zen Buddhism This book reveals parallels to the assimilation of Chinese influences in Japan and situates the phenomenon within the general reception of Japan in the West Attractive and previously unpublished visual materials Well researched content presented in a clear and appealing manner Japanophilia in Swiss landscape architecture with a photoessay by Martin Linsi

Grounds for Review Andrew Theokas, 2004-10-01 Garden Festivals are more than temporary horticultural expositions Complex and phased these projects have additional significance as planning stratagems reclamation projects public art venues and precursors of new urban parks Their scope extends well beyond that implied by the term garden festival Typically exceeding 50 hectares they stimulate development and steer site design through a unique merger of domestic garden culture with a large scale urban project A general discussion of the origins formative elements and chronology of the generic event followed by cross cultural reviews and analyses of numerous recent festivals and their site legacies form the core of this first comprehensive book on the subject Recent installations have been responsive to the ascendance of open space as a critical planning element while forthcoming events now develop in the midst of a trend towards the holistic initiatives of urban landscape planning giving them a renewed relevance for urban design The author has explored over fifteen festival sites and documents this study using government reports interview transcripts thematic maps master plans and other primary source material
