## **Garvin Of The Observer A Life:**

**June 1940, Great Britain and the First Attempt to Build a European Union** Andrea Bosco, 2016-06-22 June 2016 represents a significant moment in British history The decision to leave the European Union at the most critical period since its existence could bring unpredictable and far reaching consequences both for the United Kingdom and the Union itself June 1940 was also a turning point in British history On the afternoon of 16 June a few hours before the French Government opted for the capitulation Churchill made on behalf of the British Government an offer of indissoluble union When a sceptical Churchill put forward to the British Cabinet the text of the declaration drafted by Jean Monnet Sir Arthur Salter and Robert Vansittart he was surprised at the amount of support it received The Cabinet adopted the document with some minor amendments and de Gaulle who saw it as a means of keeping France in the war telephoned Reynaud with the proposal for an indissoluble union with joint organs of defence foreign financial and economic policies a common citizenship and a single War Cabinet The proposal however never reached the table of the French Government The spirit of capitulation embodied in Weygand and P tain prevailed and France submitted herself to the German will for the second time in seventy years After the Munich crisis Great Britain had to face the danger of another European war with the inevitable loss of the Empire and it was at this point that the country first began to favour the application of the federalist principle to Anglo French relations In this conversion to federalism a fundamental role was played by the Federal Union the first federalist movement organised on a popular basis The contribution of Federal Union to the development of the federal idea in Great Britain and Europe was to express and organise the beginning of a new political militancy and it represented the first step of a historical process the overcoming of the nation State the modern political formula which institutionalises the political division of mankind This study principally examines the first eighteen months of the Federal Union during which time it was able to raise itself to the attention of the general public and the political class as the heir of the League of Nations Union The research is based on extensive unpublished archival material found across the globe from London Oxford Brighton and Edinburgh to Washington Paris and Geneva The House of Lords and Ideological Politics Corinne Comstock Weston, 1995 Selborne though not as well known to historians had a high contemporary reputation as an imperial proconsul who had united South Africa According to the referendal theory the house of lords had a duty to refer disputed legislation to the electorate when the house of commons in the lords judgment lacked a mandate for the measure in question That is the lords political barometer was not the commons as Gladstone contended but the nation at large Public Opinion ,1920 Rumors of the Great War Nathan N. Orgill, 2019-12-02 This study examines the role of British newspapers during the July Crisis of 1914 The author argues that decision makers in Berlin and London framed their policies on a reading of the British press which expressed deep skepticism about involvement in a general European war after the Sarajevo murders British newspapers and journalists encouraged German hopes for British neutrality as well as the indecisive nature of Sir Edward Grey s foreign policy in 1914

helping spark the Great War      **The Roots of Appeasement** Benny Morris, 2022-08-12 Originally published in 1991 The Roots of Appeasement outlines the attitudes of the British weekly press and its editors to Nazism and to German and British foreign policies during the 1930s It analyses and interprets the reasons which underlay those attitudes Aided by the evidence of the weeklies it sheds additional light on the roots and development of appeasement After introducing the weeklies and their editors the study conveys and examines their attitudes to the European crises of 1935 9 and one chapter focusses on the popular fear of air attack as reflected in the journals The major conclusion of the book is that a consensus supporting appeasement emerged in the weeklies in the course of 1935 and that it remained virtually intact until September 1938

**The Library Chronicle of the University of Texas at Austin** ,1978      **Radical Journalist** Alfred F.

Havighurst, 1974-09-05 The first study of the career of H W Massingham an outstanding journalist early in the twentieth century when editors were often ranked equal in significance with ministers of state Massingham featured most significantly in the history of the press as editor of the Star the Daily Chronicle and finally the Nation Professor Havighurst demonstrates Massingham s central position by arguing that he played a more important role in the formation of progressivism in the period 1888 92 than even the Fabian Society Massingham s clash with the Fabians is examined along with his gradual disillusionment with Rosebery his influence upon important questions of public opinion his connection and his subsequent contact with Ramsay MacDonald The influence of journalists is frequently alleged but is often unproved this biography provides a detailed assessment of the impact of a major journalist and is a complete and fascinating account of an extremely important political figure It will appeal to specialists in political and social history and the history of journalism      Rebel on the Right Larry L. Witherell, 1997 It is argued that it was the Conservative party that experienced the most serious difficulties in the decade prior to 1914 losing three consecutive elections ousting its own leader in 1911 and being divided into several factions This book accepts that argument in order to provide a more detailed picture of the political dynamics at work during this crucial period Through exploring the political manifestations of Edwardian conservatism and peeling away the layers of traditional assumptions this book makes a major contribution to our understanding of the development of modern British politics This crisis of Edwardian conservatism is found in the membership activities and ideologies of the Conservative party s right wing Rebel on the Right reconstructs the political career and activities of one of the more colorful controversial and prominent members of that wing      *Fire of Life* Henry W. Nevinnson, 2013-02-21 Henry Woodd Nevinnson 1856 1941 was a scholar and socialist who found his m tier on the cusp of the twentieth century as a war correspondent who would go on to chronicle the major wars and civil conflicts of his time from South Africa and Russia to India and the Balkans Reporting from the Western Front in 1918 he was wounded at the Dardanelles Nevinnson s work was marked by a strong sense of conscience and underscored by activism directing relief work in Macedonia and Albania campaigning against the dreadful mistreatment of bonded labourers in Portuguese Angola and supporting female suffrage in Britain He would marry the suffragette Evelyn

Sharp Nevinson wrote three volumes of autobiography *Changes and Chances* 1923 *More Changes More Chances* 1925 and *Last Changes Last Chances* 1928 *Fire of Life* first published in 1935 is an expert abridgement of this trilogy *The British Press and the Greek Crisis, 1943-1949* Gioula Koutsopanagou, 2020-02-01 This book provides the first detailed analysis of how interactions between government policy and Fleet Street affected the political coverage of the Greek civil war one of the first major confrontations of the Cold War During this period the exponential growth of media influence was an immensely potent weapon of psychological warfare Throughout the 1940s the press maintained its position as the most powerful medium and its influence remained unchallenged The documentary record shows that a British media consensus was more fabricated than spontaneous and the tools of media persuasion and manipulation were extremely important in building acceptance for British foreign policy Gioula Koutsopanagou examines how this media consensus was influenced and molded by the British government and how Foreign Office channels were key to molding public attitudes to British foreign policy These channels included system of briefings given by the News Department to the diplomatic correspondents and the contacts between embassies and the British foreign correspondents **Read All About It!** Kevin Williams, 2009-09-16 This Text book traces the evolution of the newspaper documenting its changing form style and content as well as identifying the different roles ascribed to it by audiences government and other social institutions Starting with the early 17th century when the first prototype newspapers emerged through Dr Johnson the growth of the radical press in the early 19th century the Lord Northcliffe revolution in the early 20th century the newspapers wars of the 1930s and the rise of the tabloid in the 1970s right up to Rupert Murdoch and the online revolution the book explores the impact of the newspapers on our lives and its role in British society Using lively and entertaining examples Kevin Williams illustrates the changing form of the newspaper in its social political economic and cultural context As well as telling the story of the newspaper he explores key topics in detail making this an ideal text for students of journalism and the British newspaper Issues include newspapers and social change the changing face of regional newspapers the impact of new technology development of reporting techniques forms of press regulation **Apocalypse in British Art and Visual Culture in the Early Twentieth Century** Thomas Bromwell, 2024-11-29 This book is the first substantial study of the presence and relationship with the concepts of apocalypse eschatology and millennium in modern British art from 1914 to 1945 addressing how and why practitioners in both religious and secular spheres turned to the subjects The volume examines British art and visual culture s relationship with the then contemporary anxieties and hopes regarding the orientation of society and culture arguing that there is an acute relationship to the particular forms of cultural discourse of eschatology apocalypse and millennium Chapters identify the continued relevance of religion and religious themes in British art during the period and demonstrate that eschatology apocalypse and millennium were thriving and surprisingly mainstream concepts in the period that remained vital in early to mid twentieth century society and culture This book is a research monograph aimed at an audience of scholars and graduate students

already familiar with the core focus of modern British art and cultural histories especially those working on the late nineteenth and early twentieth centuries or the concepts of apocalypse eschatology and millennium in Theology Sociology or other disciplinary settings It will also be of interest to scholars and students working on war and visual culture or histories of imperialism It will benefit scholars of early twentieth century British art demonstrating the intersection of art and religion in the modern era and critically qualifies the standard secular canon and narrative of modern British art and the general neglect of religion in existing art historical literature      New Crusade Bradley Cesario,2021-04-06 The period between the mid 1880s and the First World War was the high point of the navalist movement but the idea of navalism took many forms and meant different problems and different solutions to various groups within British society and the British government New Crusade examines one form of the British navalist movement directed navalism As opposed to the broader cultural conception of British naval power directed navalism consisted of a cooperative symbiotic working relationship between three elite and self selecting groups serving naval officers professionals naval correspondents and editors working for national newspapers and periodicals press and members of Parliament who dealt with naval issues politicians Directed navalism meant agitation for a specific achievable goal It was the bedrock upon which the more popular and ultimately more successful cultural navalism of fleet reviews and music halls was built Though directed navalism collapsed before the First World War it was extraordinarily successful in its time and it was a necessary precursor for the creation of a national discourse in which cultural navalism could thrive Its rise and fall is the story of this book      *Aftershocks* Susan Kingsley Kent,2008-11-27 Aftershocks studies how meanings of shellshock and imagery presenting the traumatized psyche as shattered contributed to Britons understandings of their political selves in the 1920s It connects the force of emotions to the political culture of a decade which saw extraordinary violence against those regarded as un-English      **The Colvins and Their Friends** Edward Verrall Lucas,1928      **The Scaremongers (RLE The First World War)** A. Morris,2014-04-24 This revealing book illustrates how the passion for war was fostered and promoted The author provides detailed evidence of how and why an image of Germany as a nation determined upon world hegemony was deliberately promoted by a group of British newspaper editors proprietors and journalists This book examines the role of these scaremongers Were they as influential as their critics claimed Did they influence the minds of their readers and shape events Were they guilty of creating a climate of opinion that ensured that their prophecies of inevitable Anglo German war became fact in 1914      Victorian Periodicals Review ,1986      **David Astor** Jeremy Lewis,2016-03-03 Few newspaper editors are remembered beyond their lifetimes but David Astor of the Observer is a great exception to the rule He converted a staid Conservative supporting Sunday paper into essential reading admired and envied for the quality of its writers and for its trenchant but fair minded views Astor grew up at Cliveden the country house on the Thames which his grandfather had bought when he turned his back on New York the source of the family fortune His liberal minded father was a constant support but his relations with his mother Nancy were

always embattled At Oxford he suffered the first of the bouts of depression that were to blight his life a lost soul for much of the Thirties he became involved in attempts to put the British Government in touch with the German opposition in the months leading up to the war George Orwell had urged Astor to champion the decolonisation of Africa and Nelson Mandela always acknowledged how much he owed to the Observer s long standing support A generous benefactor to good causes he helped to set up Amnesty International and Index on Censorship A good man and a great editor he deserves to be better remembered

**Lancashire and the New Liberalism** P. F. Clarke, 2007-03-26 Why was there a Liberal Government in Britain from 1905 until the First World War And why was the Liberal party replaced by the Labour party so shortly afterwards These are the kinds of problems which Dr Clarke examines in his study of the Liberal revival in Lancashire The vote in north west England was largely responsible for bringing the Liberal Government into power and for maintaining its position but it also produced almost half the new Labour MP s in 1906 Thus any satisfactory interpretation of electoral history in the early twentieth century must account for what happened in Lancashire This book calls into question many of the conventional assumptions about British politics in the late nineteenth and early twentieth centuries

Great Contemporaries Winston S. Churchill, 2016-07-05 Insightful biographical sketches of major historical figures of the twentieth century from the incomparable British statesman Winston S Churchill was awarded the Nobel Prize in Literature on the strength of his mastery of historical and biographical description Nowhere is that mastery more evident than in Great Contemporaries which features Churchill s profiles of many of the major figures of his time These short biographies cover political and cultural personalities ranging from Franklin D Roosevelt Adolf Hitler Lawrence of Arabia and Leon Trotsky to Charlie Chaplin H G Wells Rudyard Kipling and George Bernard Shaw This edition includes five previously uncollected essays and a number of photographs plus an enlightening introduction and annotations by noted Churchill scholar James W Muller Written in the decade before Churchill became prime minister these essays focus on the challenges of statecraft at a time when the democratic revolution was toppling older regimes based on tradition and aristocratic privilege Churchill s keen observations take on new importance in our own age of roiling political change Ultimately Great Contemporaries provides fascinating insight into these subjects as Churchill approaches them with a measuring eye finding their limitations at least as revealing as their merits
