**Steven Stoll**

## **Gary Hollow A History Of The Largest Coal Mining Operation In The World:**

*Gary Hollow* Alex P. Schust, 2005 Gary Hollow is a social and mining history of what was at one time the largest coal operation in the world Gary Hollow is located in McDowell County West Virginia The book takes the reader from the time Shawnee Indians were taking captives down the Tug Fork River 1750 until United States Steel closed its mines in 1986 The book covers how the coal company s built the mines schools medical facilities houses roads recreation facilities and other parts of the communities It also discusses the roles immigrants had in developing the social community *U.S. Steel and Gary, West Virginia* Ronald G. Garay, 2011-02-28 This book is well written and meticulously documented it will add significantly to the available literature on West Virginia s industrial and community history It should find a receptive audience among college and post graduate scholars of industrial and labor history West Virginia history and Appalachian studies John Lilly editor Goldenseal The company owned the houses It owned the stores It provided medical and governmental services It provided practically all the jobs Gary West Virginia a coal mining town in the southern part of the state was a creation of U S Steel And while the workers were not formally bound to the company their fortunes like that of their community were inextricably tied to the success of U S Steel Gary developed in the early twentieth century as U S Steel sought a new supply of raw material for its industrial operations The rich Pocahontas coal field in remote southern West Virginia provided the carbon rich low sulfur coal the company required To house the thousands of workers it would import to mine that coal bed U S Steel carved a town out of the mountain wilderness The company was the sole reason for its existence In this fascinating book Ronald Garay tells the story of how industry altering decisions made by U S Steel executives reverberated in the hollows of Appalachia From the area s industrial revolution in the early twentieth century to the peak of steel making activity in the 1940s to the industry s decline in the 1970s U S Steel and Gary West Virginia offers an illuminating example of how coal and steel paternalism shaped the eastern mountain region and the limited ways communities and their economies evolve In telling the story of Gary this volume freshly illuminates the stories of other mining towns throughout Appalachia At once a work of passionate journalism and a cogent analysis of economic development in Appalachia this work is a significant contribution to the scholarship on U S business history labor history and Appalachian studies Ronald Garay a professor emeritus of mass communication at Louisiana State University is the author of *Gordon McLendon The Maverick of Radio* and *The Manship School A History of Journalism Education at LSU* **Ramp Hollow** Steven Stoll, 2017-11-21 How the United States underdeveloped Appalachia Appalachia among the most storied and yet least understood regions in America has long been associated with poverty and backwardness But how did this image arise and what exactly does it mean In *Ramp Hollow* Steven Stoll launches an original investigation into the history of Appalachia and its place in U S history with a special emphasis on how generations of its inhabitants lived worked survived and depended on natural resources held in common *Ramp Hollow* traces the rise of the Appalachian homestead and how its self sufficiency

resisted dependence on money and the industrial society arising elsewhere in the United States until beginning in the nineteenth century extractive industries kicked off a scramble for Appalachia that left struggling homesteaders dispossessed of their land As the men disappeared into coal mines and timber camps and their families moved into shantytowns or deeper into the mountains the commons of Appalachia were in effect enclosed and the fate of the region was sealed Ramp Hollow takes a provocative look at Appalachia and the workings of dispossession around the world by upending our notions about progress and development Stoll ranges widely from literature to history to economics in order to expose a devastating process whose repercussions we still feel today     **West Virginia History** ,2006     **The Chesapeake & Ohio Historical Magazine** ,2006     **Wonderful West Virginia** ,2008     **Goldenseal** ,2005     *Book Review Index - 2009 Cumulation* Dana Ferguson,2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year     **Industrial World** ,1911     **Backpacker** ,2007-09 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured     **The Coal Trade Journal** ,1912     **The New York Times Index** ,2002     [Coal and Coal Trade Journal](#) ,1910     **Iron & Coal Trades Review** ,1908 Vol 115 includes Diamond jubilee issue 1867 1927     *The Americana* ,1907     **The Americana** Frederick Converse Beach,George Edwin Rines,1912     **American Manufacturer and Trade of the West** ,1911     *Who's who in Commerce and Industry* ,1965     *Backpacker* ,2007-09 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured     **Bulletin of the Atomic Scientists** ,1970-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world
