Gate Of Moon:

The Book Of Enoch Efren Gamboa,2018-08-31 The book of Enoch was the first book ever written in any language The language was described as the heavenly language which today we know it as Hebrew Hebrew was also the language of the first humans and all living things before the fall of man at the Garden of Eden But because of the distribution of languages during the Tower of Babel Hebrew was forgotten until the lifetime of Abraham Abraham was taught the language by angels of God and he revive the Heavenly language upon the Earth So now days there will be other languages that will test more ancient then Hebrew through discoveries of things that have a written language upon it that can be carbon tested for age unless we can find the original books of Enoch but until now only translations of the book have been found in other languages In the Dead Sea scrolls the book of Enoch was found within the books revered as the books of the old testaments that were dated from 404 to 203 BCE What they found was only a copy of the book and not the original According to what language the manuscript is found the rewriters gave the God of their religion the credit of being God creator but the world knows that only the God of Israel had angels with the name of Michael Gabriel and Ariel All others have been copycats and have tried to include the names of what they call their own angels and gods and beliefs into the book of Enoch **Zodiac Calendars in the Dead Sea Scrolls and Their Reception** Helen R. Jacobus,2014-10-30 The ancient mathematical basis of the Aramaic calendars in the Dead Sea Scrolls is analysed in this investigation Helen R Jacobus re examines an Aramaic zodiac calendar with a thunder divination text 4Q318 and the calendar from the Aramaic Astronomical Book 4Q208 4Q209 all from Qumran Jacobus demonstrates that 4Q318 is an ancestor of the Jewish calendar today and that it helps us to understand 4Q208 4Q209 She argues that these calendars were taught in antiquity as angelic knowledge described in 1 Enoch and the Book of Jubilees The study also encompasses Babylonian Hellenistic Byzantine astronomy and astrology and classical and Jewish writings Finally a medieval Hebrew zodiac calendar related to 4Q318 with an astrological text is published here for the first time *The Flat Earth as Key to Decrypt the Book of Enoch* Zen Garcia,2015-09-26 Shortly after accepting the flat earth as a model for the world I decided to revisit the Book of the Courses of the Heavenly Luminaries to see if my new understanding would somehow mirror what Enoch was sharing as the motion of the sun and moon As I began to read chapters 71 82 I found to my utter amazement that I was able to grasp those passages I knew then that the vision that the angel Uriel had shown to Enoch could only be deciphered if one were to imagine Enoch s description of the revolution of the sun and the moon As seen from above the flat circular plane of the earth as described by Isaiah and that Enoch must have been taken up to perhaps where Polaris is centered directly above the North Pole and while looking down at the backdrop of the earth was instructed on the motions of both the sun and moon Without such conception it is in my opinion impossible to apply these descriptions to the model of the earth as a spherical planet [The Beloved and I ~ Enoch, Jubilees, Joshua, Judges](#) Thomas McElwain,2008-02-27 Volume two of The Beloved and I a rhymed verse commentary of the Bible and deuterocanonical books
