The Gates of Africa Anthony Sattin, 2014-01-07 London 1788 a group of British gentlemen geographers scholars politicians humanitarians and traders decide it is time to solve the mysteries of Africa's unknown interior regions Inspired by the Enlightenment quest for knowledge they consider it a slur on the age that the interior of Africa still remains a mystery that maps of the dark continent are populated with mythical beasts imaginary landmarks and fabled empires As well they hoped that more accurate knowledge of Africa would aid in the abolition of the slave trade These men a mixed group of soldiers and gentlemen ex convicts and social outcasts form the African Association the world's first geographical society and over several decades send hardened grizzled adventurers to replace speculation with facts and remove the beasts from the maps The explorers who ventured forth included Mungo Park whose account of his travels would be a bestseller for more than a century American John Ledyard and Jean Louis Burckhardt the discoverer of Petra and Abu Simbel Their exploits would include grueling crossings of the Sahara the exploration of the Nile and most dramatically the search for the great River Niger and its legendary city of gold Timbuktu Anthony Sattin weaves the plotting of the London gentlemen and the experiences of their extraordinary explorers into a gripping account of high adventure international intrigue and geographical discovery *The Gates of Africa* is a story of human courage and fatal ambition a groundbreaking insight into the struggle to reveal the secrets of Africa

Babel Unbound Lesley Cowling, Carolyn Hamilton, 2020-05-15 In this timely original and sophisticated collection writers from the Global South demonstrate that forms of publicness are multiple mobile and varied The notion that societies mediate issues through certain kinds of engagement is at the heart of imaginings of democracy and often centers on the ideal of the public sphere But this imagined foundation of how we live collectively appears to have suffered a dramatic collapse across the world with many democracies apparently unable to solve problems through talk or even to agree on who speaks in what ways and where In the 10 essays in this timely original and sophisticated collection writers from southern Africa combine theoretical analysis with the examination of historical cases

and contemporary developments to demonstrate that forms of publicness are multiple mobile and varied They propose new concepts and methodologies to analyse how public engagements work in society Babel Unbound examines charged examples from the Global South such as the centuries old Timbuktu archive Nelson Mandela as a powerful absent presence in 1960s public life and the challenges to the terms of contemporary debate around the student activism of rhodesmustfall and feesmustfall These show how issues of public discussion span both archive and media verbal debates in formal spaces and visual performances that circulate in unpredictable ways **The Ancient World** Sarolta Anna Takacs, Eric H.

with true descriptions of the fabled city s past present and future Fodor s Two tales of a city The historical race to discover one of the world s most mythologized places and the story of how a contemporary band of archivists and librarians fighting to save its ancient manuscripts from destruction at the hands of al Qaeda added another layer to the legend To Westerners the name Timbuktu long conjured a tantalizing paradise an African El Dorado where even the slaves wore gold Beginning in the late eighteenth century a series of explorers gripped by the fever for discovery tried repeatedly to reach the fabled city But one expedition after another went disastrously awry succumbing to attack the climate and disease Timbuktu was rich in another way too A medieval center of learning it was home to tens of thousands according to some hundreds of thousands of ancient manuscripts on subjects ranging from religion to poetry law to history pharmacology and astronomy When al Qaeda linked jihadists surged across Mali in 2012 threatening the existence of these precious documents a remarkable thing happened a team of librarians and archivists joined forces to spirit the manuscripts into hiding Relying on extensive research and firsthand reporting Charlie English expertly twines these two suspenseful strands into a fraught and fascinating account of one of the planet s extraordinary places and the myths from which it has become inseparable **Majestic River** Charles

W. J. Withers, 2022-11-03 One of the greatest stories of world exploration ever told By the late eighteenth century the river Niger was a 2 000 year old two part geographical problem Solving it would advance European knowledge of Africa provide a route to commercial opportunity and help eradicate the evil of slavery Mungo Park achieved lasting fame in 1796 by solving the first part of the Niger problem which way did the river run Park died in 1806 in circumstances which are still uncertain in

failing to solve the second where did the Niger end Numerous expeditions explored the river in the decades following Park's death but not until 1830 was its final course revealed following in the field exploration By then however the Niger problem had been solved by armchair geographers who had never even visited Africa Majestic River celebrates Mungo Park's achievements and illuminates his rich afterlife how and why he was commemorated long after his death It is also the thrilling story of the many expeditions that sought to determine the Niger's course and the facts of Park's disappearance as well as a biography of the Niger itself as the river slowly took shape in the European imagination Shortlisted for the Saltire Society History Book of the Year Award **The Last Blank Spaces** Dane Kennedy,2013-03-01 The challenge of opening Africa and Australia to British imperial influence fell to a coterie of proto professional explorers who sought knowledge adventure and fame but often experienced confusion fear and failure The Last Blank Spaces follows the arc of these explorations from idea to practice intention to outcome myth to reality Great Desert Explorers Andrew Goudie,2016-12-01 Desert exploration like climbing Everest or polar expeditions is not for the faint hearted and many of the vivid tales within this fascinating biographical history end in tragedy However the informative and absorbing descriptions of the extraordinary journeys challenges and achievements of these intrepid figures are captivating They risked their lives variously for good old fashioned epic adventure solitude fame the answer to mythical questions and some were even spies They experienced fear excitement and hardship in their journeys into the unknown There are many books on exploration but remarkably few on desert exploration Moreover some of the great desert explorers of the last three hundred years are now very little remembered or appreciated in comparison say with those who ventured to the poles climbed Everest or sought the source of the Nile Yet crossing unknown deserts is no less challenging This volume finally brings these Great Desert Explorers into the limelight with short illustrated biographies of around 60 of the most interesting intrepid and important explorers of the world's greatest deserts There is also a brief introduction to each desert region The many original quotations illustrations and maps contemporary figures as well as plates of a range of desert landscapes make this a colourful lively and informative read

The African Revolution Richard Reid, 2025-01-28 A panoramic global history of Africa in the age of imperialism Africa's long nineteenth century was a time of revolutionary ferment and cultural innovation for the continent's states societies and economies Yet the period preceding what became known as the Scramble for Africa by European powers in the decades leading up to World War I has long been neglected in favor of a Western narrative of colonial rule The African Revolution demonstrates that the Scramble and the resulting imperial order were as much the culmination of African revolutionary dynamics as they were of European expansionism In this monumental work of history Richard Reid paints a multifaceted portrait of a continent on the global stage He describes how Africa witnessed the emergence of new economic and political dynamics that were underpinned by forms of violence and volatility not unlike those emanating from Europe Reid uses a stretch of road in what is now Tanzania one of the nineteenth century's most vibrant commercial highways as an entry point into this revolutionary epoch weaving a broader story around characters and events

on the road He integrates the African experience with new insights into the deeper currents in European societies before and after conquest and he shows how the Africans themselves created opportunities for European expansion Challenging the portrayal of Africa s transformative nineteenth century as a mere prelude to European colonialism The African Revolution reveals how this turbulent yet hugely creative era for Africans intersected with global intrusions to shape the modern age
