Gates Of Exquisite View:

The Gates of Exquisite View John Trenhaile, 2023-08-28 A new supercomputer spells doom for Taiwan Amid the explosion of computer technology in the 1990s nothing comes close to Apogee a software program able to process human speech in any language paving the way for pilotless planes driverless tanks and a global communications network limited only by human imagination China soon to resume control of Hong Kong is now obsessed with an even greater prize in its long march to Pacific supremacy Taiwan The outcome is not in doubt as long as China can secure Apogee but there s a problem The software belongs to Ducannon Young Electronics in Taiwan where Mat Young son of owner Simon represents his autocratic father Simon sees little beyond the limitless profits Apogee will generate but his less hard boiled son has become embroiled with a Taiwanese actress whose loyalties are hard to read All sides will go to any lengths to get inside Mat s head convinced that his unique position must give him access to Apogee s secrets But Mat knows nothing and not even the horrors of the torture chamber known to history as the Gates of Exquisite View can change that A chilling high stakes technothriller from the heir apparent to Le Carr perfect for fans of Robert Ludlum and Martin Cruz Smith Praise for The Gates of Exquisite View There is rarely a moment to pause for breath between the agonizingly suspenseful events in a thriller that is worthy of its genre Publishers Weekly

discourses around this debate Talinn Grigor considers the Persian Revival movement in light of imperial strategies of power and identity in British India and in Qajar Pahlavi Iran The Persian Revival examines Europe s discovery of ancient Iran first in literature and then in art history Tracing Western visual discourse about ancient Iran from 1699 on Grigor parses the invention and use of a revivalist architectural style from the Afsharid and Zand successors to the Safavid throne and the rise of the Parsi industrialists as cosmopolitan subjects of British India Drawing on a wide range of Persian revival narratives bound to architectural history Grigor foregrounds the complexities and magnitude of artistic appropriations of Western art history in order to grapple with colonial ambivalence and imperial aspirations She argues that while Western imperialism was instrumental in shaping high art as mercantile bourgeois ethos it was also a project that destabilized the hegemony of a Eurocentric historiography of taste An important reconsideration of the Persian Revival this book will be of vital interest to art and architectural historians and intellectual historians particularly those working in the areas of international modernism Iranian studies and historiography
