and their rulers are remembered today by examining how the imperial statues that were erected in huge numbers in the second part of the period are treated today and how this demonstrates the contested place of emperors in national cultural memory

Gateway, 1903 Bristol and the Birth of the Atlantic Economy, 1500-1700 Richard Stone, 2024 Analyses data from the Bristol Port Books to rewrite the history of trade in Bristol including the city's early involvement with the slave trade The sixteenth and seventeenth centuries were a transformative period for global commerce with the principal focus of England's trade shifting away from trade with Europe primarily in woollen cloth to a new Atlantic system with trade in a diverse range of commodities Based on the fantastically detailed Bristol Port Books previously thought impenetrable and using new computer technology to analyse the vast amount of data this book provides the first long duration history of a major Atlantic port in this period It rewrites the history of Bristol's trade overturning much established thinking for example showing that trade flourished in the late Tudor and early Stuart period demonstrating that Bristol was involved in the slave trade much earlier than was previously thought and charting the growth of commerce with North America and the Caribbean from nothing to three quarters of Bristol's imports in the short period from the 1630s to the 1650s Overall the book represents a major contribution to understanding how the Atlantic economy worked and how it developed in this crucial period

Mrs Brown is a Man and a Brother Krista Cowman, 2004-04-01 This book offers the first detailed regional study of women's politics in the United Kingdom in the period before the First World War Its purpose is to investigate how women's politics functioned at the grass roots away from the schisms and personality clashes of the national political scene The book investigates the membership activities and campaigning methodologies of a variety of formal political organisations ranging from branches of national auxiliary bodies such as the Women's Liberal Federation through women's involvement in local branches of the Independent Labour Party and on to the autonomous suffrage organisations The impact of the all female suffrage campaigns on older political groups in which women still competed with men for positions and policies is also considered The book extends into the First World War and investigates the new alliance that were formed when earlier societies contracted or closed
