The Treasury of Knowledge: Book Six, Parts One and Two Jamgon Kongtrul Lodro Taye, 2013-01-08 Jamgon Kongtrul's encyclopedic Treasury of Knowledge presents a complete account of the major lines of thought and practice that comprise Tibetan Buddhism. Among the ten books that make up this tour de force, Book Six is by far the longest, concisely summarizing the theoretical fields of knowledge to be studied prior to the cultivation of reflection and discriminative awareness. The first two parts of Book Six contained in this volume respectively concern Indo-Tibetan classical learning and Buddhist phenomenology. The former analyzes the traditional subjects of phonology and Sanskrit grammar, logic, fine art and medicine, along with astrology, poetics, prosody, synonymics and dramaturgy. The principal non-Buddhist philosophical systems of ancient India are then summarized and contrasted with the hierarchical meditative concentrations and formless absorptions through which the summit of cyclic existence can genuinely be attained. Part Two examines the phenomenological structures of Abhidharma, the shared inheritance of all Buddhist traditions from three distinct perspectives corresponding to the three successive turnings of the doctrinal wheel.

Historical Dictionary of Tibet John Powers, David Templeman, 2012-05-18 Tibet is a land bounded by the world's highest mountains and it is the repository of an ancient culture. For centuries it was viewed by Europeans as a remote mystical place populated by Buddhist masters with supernatural powers and profound wisdom. In contrast to this image it was once a warlike country whose expansionist rulers conquered a vast empire that incorporated much of central Asia and parts of China. Even now the Tibetan Plateau remains a scene of contestation, both ideologically and militarily. Major popular uprisings in 1959, 1988 and 2008 have drawn the attention of the world's media and its religious teachers often attract large crowds when they travel overseas. The situation in the country remains highly volatile today as the 2008 uprising, the largest and most widespread in the history of the region, attests. The Historical Dictionary of Tibet is the most comprehensive dictionary published to date on Tibetan history. It covers the history of Tibet from 27,000 BCE to the present through a chronology, an introductory essay, an extensive bibliography and over 1,000 cross-referenced dictionary entries on important personalities, politics, economy, foreign relations, religion, culture, anthropology and sociology. This book is an excellent access point for students, researchers and anyone wanting to know more about Tibet.

The Lhasa Atlas Knud Larsen, Amund Sinding-Larsen, 2001 Lhasa, the ancient capital of Tibet, is the most impressive of the few surviving traditional towns. This guide presents its unique architecture and building culture, topography, environment, historical development and townscape, as well as introducing future plans and issues concerning the safeguarding of Lhasa in the face of urban development.

The Treasury of Knowledge: Book Five Jamgon Kongtrul, 2003-06-05 In Tibetan religious literature, Jamgon Kongtrul's Treasury of Knowledge in ten books stands out as a unique encyclopedic masterpiece embodying the entire range of Buddhist teachings as it was preserved in Tibet. This volume is the fifth book of that work and is considered by many scholars to be its heart. Jamgon Kongtrul explains the complete code of personal liberation as it applies to both monastic and lay persons, the precepts for those aspiring to the life of a bodhisattva and the exceptional pledges for

Buddha in the Marketplace Alex John Catanese, 2020-01-01 Classical Tibetan Buddhist scriptures forbid the selling of Buddhist objects and yet there is today a thriving market for Buddhist statues paintings and texts In Buddha in the Marketplace Alex John Catanese investigates this practice which continues to be viewed as a form of wrong livelihood by modern Tibetan Buddhist scholars Drawing on textual and historical sources as well as ethnographic research conducted in the region of Amdo Tibet Catanese follows the trajectory of Buddhist objects from their status as noncommodities prior to the Cultural Revolution to their emergence as commodities on the open market in the

modern period The book examines why Tibetans have more recently begun to sell such objects for their personal livelihoods when their religious tradition condemns such business activities in the strongest possible terms Addressing the various societal and religious ramifications of these commercial practices Catanese illustrates how such activity is leading to significant cultural and economic changes transforming the moral economy associated with Buddhist objects and contributing to a reinterpretation of Tibetan Buddhist identity
