therapy on wheels but without the therapist Not only does one learn a tremendous amount about one's partner but also about oneself There are a few endeavours that couples should avoid three that come to mind are wallpapering navigating and being in each other's company 24/7 After travelling for a year with my partner I can say with absolute authority that putting up wallpaper with one's partner is nothing short of life threatening Navigating and constant companionship did put us to the test a few times but fortunately there were no casualties None that I noticed Think Faulty Tourists on Wheels and that would accurately sum up our year long meanderings in Sharki our trusty wannabe 4x4 campervan that took multiple terrains in her 2.8 litre stride If one has a year to spare I highly recommend throwing caution to the wind and embarking on a zero itinerary adventure with an open mind a strong stomach and your very best friend at your side
