Supper in Corinth in the Context of Greco-Roman Private Associations Jin Hwan Lee, 2018-11-02 In this socio historical study Jin Hwan Lee offers fresh insights on social aspects of communal banqueting practice in early Christ groups particularly in Corinth With an emphasis on banqueting practice in Greco Roman private associations he attempts to understand social conflicts at communal gatherings of the Christ group in Corinth His research on the social dynamics of banquet meetings in associations is thorough fresh and even striking readers will be amply rewarded by new ideas to this field Making use of a wide range of ancient literature and epigraphical and papyrological sources from associations Lee helps recover the real issues that the Christ group members encountered at their communal meal described in 1 Cor 11 17 34 boldly claiming that current scholarly approaches to these issues at the Corinthian Christ group communal meal are anachronistic Lee provides a new paradigm for thinking about early Christ movement meals and by and large early Christ movements in the first and second centuries A D

'The Real Scriptures' of God James Platter, 2012-08 Inside the covers of this book you will find the Real Scriptures of the Christian churches Many church leaders know that other Christian churches hold to these books but they are only willing to state what they have been brain washed to believe that is about the other inferior books It isn't in the canon of scripture formed of course by the early Catholic Church at various stages and Councils from the fourth century A D therefore no one has the right to change what is in the canon of scripture and the Catholic Church changed it in their councils not in agreement of other Christians but to hide their offence at the words of God They would not even imagine that different churches have different scriptures and assume that the correct canon of scripture must be the one first declared by the Catholic Church and its priests but other priests must be considered demented or apostate but they are not affected by the changes they made to the canon of Scripture over many centuries They will not consider the canons of Orthodox Churches or others because they vary in different regions of the world So is European Christianity based in the Vatican City right about all its holy scriptures while everyone else's church scriptures are false scriptures Ethiopia it seems got most books of scripture right even with their translation into an ancient language
