Poem Central Shirley McPhillips, 2014 Tony Hoagland Harper's April 2013 In *Poem Central* Word Journeys with Readers and Writers Shirley McPhillips helps us better understand the central role poetry can play in our personal lives and in the life of our classrooms *Gathering the Tribes* Carolyn Forché, 1976 An examination of kinship and uprootedness *Gathering the Tribes* is the first volume of poetry by Carolyn Forché and the 71st volume of the Yale Series of Younger Poets The poems in *Gathering the Tribes* recount experiences from the author's adolescence and young adult life closely bound to the natural cycles of the seasons of generations of the body's functioning Many deal with uprootedness hasty emigrations from Czechoslovakia and Kiev the loss of grandparents and other elders people leaving and being sent away But this poetry is not a sentimental celebration of the goodness of nature and harmony with the world is never something assumed The harmony Forché seeks goes deeper than simple submission to natural processes or identification with an ethnic group and it must be fought for with a tenuous faith The balance that must be found between the ugliness the harshness of her history both

natural and social and its intense beauty is what distinguishes Forch's poetry and gives it its depth and dimension

of metered verse brings together some of the best rhythmic lines in literature After a century dominated by free verse there

is a new excitement about rediscovering poetry's ancient musical and performative roots Iambic pentameter is the most

familiar meter for most readers but it only scratches the surface of the extraordinary diversity of rhythmic patterns that poets

have employed over the ages That astonishing variety is fully explored in this one of a kind anthology packed with great

poems that beg to be read aloud Measure for Measure is organized by meter with brief explanatory headnotes covering

accentual meter trochees anapests dactyls iambs ballad meter and more exotic species like amphibrachs dipodics

hendecasyllabics sapphics and more The entrancing examples of each meter are drawn from a wide range of poetic traditions

from Ovid and Sappho to Shakespeare and Milton encompassing the Romantics the Victorians ballads folk songs poets of the
