Gauguin's Religious Themes Ziva Amishai-Maisels,1985 **Modernism and Authority** Charles Palermo,2015-10-13

Modernism and Authority presents a provocative new take on the early paintings of Pablo Picasso and the writings of Guillaume Apollinaire Charles Palermo argues that references to theology and traditional Christian iconography in the works of Picasso and Apollinaire are not mere symbolic gestures rather they are complex responses to the symbolist art and poetry of figures important to them including Paul Gauguin Charles Morice and Santiago Rusiñol The young Picasso and his contemporaries experienced the challenges of modernity as an attempt to reflect on the lost relation to authority For the symbolists art held authority by revealing something compelling something to which audiences must respond lest they lose claim to their own moral authority Instead of the total transformation of the reader or viewer that symbolist creators envision Picasso and Apollinaire imagine a divided self responding only partially or ambivalently to the work of art s call Navigating these problems of symbolist art and poetry entails considering the nature of the work of art and of one s response to it the modern subject s place in history and the relevance of historical truth to our methodological choices in the present **The Age of Impressionism** Ordrupgaardsamlingen,2002 **Smile of the Buddha** Jacquelyn Baas,2005 The relations between eastern and western cultures have long been a neglected topic and this careful and intelligent look at a small but significant part of those relations is most welcome Thomas McEvilley author of The Shape of Ancient Thought How wonderful that Jacquelyn Baas has seen the light of the Buddha s smile shining from faraway Asia into the realm of the art of modern times in what we think of as the West Her work reveals how some of our most influential artists explored and expressed the sophisticated perceptions and joyful energy emanating from the realm of Buddhist Asia Robert A F Thurman As a Buddhist scholar and artist I welcome this thoughtful and richly detailed study of how many aspects of Buddhism have stimulated invigorated and enriched Western arts over the past 150 years Stephen Addiss author of The Art of Zen A crucial contribution to modern art studies this high spirited text surveys Western artists awakened by the wisdom of the East from Monet and Duchamp to O Keeffe to Martin It is a thoughtful book about thoughtful artists their values and their visions with a lot to offer general readers and specialists alike Charles Stuckey Associate Professor of Art History at the School of the Art Institute of Chicago *Orientalism, Assyriology and the Bible* Steven Winford Holloway,2006 Orientalism refers both to the academic study of the Orient and to Western scholarship that clings to stock images of the timeless East and oriental despotism This landmark collection of essays the first in its field is written by seasoned art historians Assyriologists and biblical specialists it is organized under four rubrics 1 Intellectual and Disciplinary Histories identifies waymarks in the rise of Assyriology in America shifting images of ancient Assyria in their cultural context Smithsonian Institution exhibits of biblical antiquities at the world s fairs of 1893 and 1895 the rise of Egyptology in the nineteenth century Mari scholarship and its impact on biblical studies and the ancient Near Eastern text anthology as genre Foster Frahm Holloway Reid Younger
