Gauntlet A Challenge To The Myth Of Progress:

Progress and Its Impact on the Nagas Tezenlo Thong, 2016-03-23 The term progress is a modern Western notion that life is always improving and advancing toward an ideal state. It is a vital modern concept which underlies geographic explorations and scientific and technological inventions as well as the desire to harness nature in order to increase human beings' ease and comfort. With the advent of Western colonization and to the great detriment of the colonized, the notion of progress began to perniciously and pervasively permeate across cultures. This book details the impact of the notion of progress on the Nagas and their culture. The interaction between the Nagas and the West, beginning with British military conquest and followed by American missionary intrusion, has resulted in the gradual demise of Naga culture. It is almost a cliché to assert that since the colonial contact, the long-evolved Naga traditional values are being replaced by Western values. Consequences are still being felt in the lack of sense of direction and confusion among the Nagas today. Just like other Indigenous Peoples whose history is characterized by traumatic cultural turmoil because of colonial interference, the Nagas have long been engaged in self-shame, self-negation, and self-sabotage.

The Gauntlet Arthur Joseph Pentty, 2003 This is the first volume of a planned collection of works by Arthur Pentty, one of the leading English socio-economic writers of the early to middle 20th century. In the first volume, Pentty covers some of the basics of his thinking on social and economic questions. He rigorously and thoroughly but dispassionately examines the assumptions and preconceptions behind both of the dominant modern economic systems, capitalism and socialism. He exposes the flaws in both approaches to economics and proposes his alternative vision: a system of guilds for both workers and management and a scheme of widespread property ownership. This is the first time that this collection of Pentty's thought has been made available to modern readers. It will be of interest to anyone dealing with the philosophical and logical foundations of economic theory.

Elgar Encyclopedia of Critical Management Studies Leo McCann, Ödül Bozkurt, Rachael Finn, Edward Granter, Carolyn Hunter, Nina Kivinen, Arun Kumar, Brian Wierman, 2025-04-09 This expansive Encyclopedia provides a detailed overview of Critical Management Studies (CMS). This exciting and iconoclastic area of research and scholarship has had a major impact on the academic field of business and management studies, opening up possibilities for exploring radical and liberatory ideas in the often conservative and technicist realm of business school education. Covering many of the substantive areas of CMS such as control and gender and providing reflexive discussions and critiques, this Encyclopedia is a vital contribution to this important and unique field.

A Path of Our Own Adam Kempton Webb, 2009 A Path of Our Own tells the story of Pomatambo a village in one of the poorest parts of Peru s highlands Adam Webb brings to life the experiences of three generations of these humble peasants as they have been confronted by the modern world and tried to find a place in it Through a land reform a bloody Maoist insurgency and the economic turbulence of more recent years Pomatambo has looked for a way to break out of dire poverty while staying true to its own values and identity But this is much more than the story of one village Pomatambo s tale of hard times mirrors how traditional communities all over the world have been ill served by the dominant ideologies of the twentieth century Webb s poignant and insightful narrative demonstrates that the governments and movements of both right and left have not only failed to deliver for the rural poor but also have assaulted much that they hold dear He maps out a vision of how traditional communities like Pomatambo can reclaim the future rather than surrender to others plans for them And he imagines an economy of values that at last could bring a just and decent prosperity to the countryside of the global South and elsewhere Chronicles, 2004 How to be Free Tom Hodgkinson, 2006 Drawing on the French existentialists British punks the US beats hippies and yippies medieval thinkers anarchists and 1970s back to the landers such as Ivan Illich Idler editor Tom Hodgkinson provides a new simple joyful blueprint for modern living He shows that consumer society has led not to a widening of freedoms but to the opposite and that the key to a free life is to stop consuming and start producing We are not consumers we are creators Following up his cult bestseller How To Be Idle Tom Hodgkinson takes us on an inspirational journey towards true freedom and happiness Read How To Be Free and learn how to throw off the shackles of anxiety bureaucracy debt governments housework moaning pain poverty ugliness war and waste and much else besides

Ethics and the National Economy Heinrich Pesch (S.I.), 2004 Written toward the end of World War I this study of economics tackles the issue from the standpoint of religion and philosophy by summarising the Catholic school of economics which insists that the welfare of human beings belongs at the centre of any real economy and that other systems that place either the individual or the state at the centre of their schemes are not only false but actually injurious to individuals families communities and nations Extensive documentation
