Gay And Gaia:

Gay and Gaia Daniel Teberg Spencer, 1996 *Gay and Gaia* is Daniel Spencer's bold passionate call to rethink sexuality ecology and the sacred. Contending that ecological ethics must become the grounding for all ethics the author asserts that genuine justice requires right relation among all of creation not simply among human beings. Spencer urges us gay and straight bisexual transgendered to reject a human centered anthropocentric worldview in favor of an ecocentric worldview. Yet our responses to the ecological crises need to be rooted in and nourished by our appreciation of the erotic. Only when we are able to integrate our sexuality with our spirituality will we fully experience the divine and fully live out our ethical values.

Gay and Gaia Daniel Teberg Spencer, 1996? **Gay Perspective** Edwin Clark Johnson, Toby Johnson, 2008 In this companion volume to his critically acclaimed Lambda Literary Award winning book *Gay Spirituality* Toby Johnson further explicates his visionary stance that gay people's nature as outsiders gives them a uniquely powerful perspective on the nature of God and religion. By living outside gender norms gay people are more open to seeing across boundaries of gender and gain access to a less dualistic outlook on the nature of life. Once again Johnson approaches this potentially controversial subject matter with erudition empathy and visionary speculation and gives meaning to gay consciousness beyond superficial issues of sexual behavior.

Meaningful Flesh Whitney Bauman, 2018 Religion is much queerer than we ever imagined. Nature is as well. These are the two basic insights that have led to this volume. The authors included here hope to queerly go where no thinkers have gone before. The combination of queer theory and religion has been happening for at least 25 years. People such as John Boswell began to examine the history of religious traditions with a queer eye and soon after we had the indecent theology of Marcella Althaus. Ried Jay Johnston one of the authors in this issue is among those who have used the queer eye to interrogate authority within Christian theological traditions. At the same time there have been many queer interrogations of nature perhaps most notably in the works of Joan Roughgarden and Ann Fausto Sterling and more recently in the works of Catriona Sandilands and Timothy Morton an author in this volume. However the intersections of religion nature and queer theory have been largely left untouched. With the exception of Dan Spencer who writes the introduction for this volume and is one of the early pioneers in this realm of thought with his book *Gay and Gaia* Pilgrim Press 1996 and the work of Greta Gaard in developing a queer ecofeminist thought religion and nature or religion and ecology have largely ignored the realm of queer theory. In part the blinders to queer theory on the part of eco thinkers religious or otherwise are similar to the blinders eco thinkers have when

it comes to postmodern thought in general namely if there are no absolute foundations how does one create an environmental ethic and a nature to save For this reason and many others this volume on religion nature and queer theory is groundbreaking Though these essays span many different disciplines and themes they are all held together by the triple focus on religion nature and queer theory Each of these essays offers a unique contribution to the intersection of religion nature and queer theory and all of them challenge strict boundaries proposed in religious rhetoric and many discourses surrounding nature Carol Wayne White s essay draws from a queer reading of James Baldwin to develop an African American religious naturalism which highlights humans as polyamorous bastards Jacob Erickson s essay examines Isabella Rossellini s Green Porno and Martin Luther s work to develop an irreverent theology Jay Johnston draws from personal relationships with his late dog and Master Pup fetish play to blur the boundaries between humans and other animals specifically within ethical and theological discourse Whitney Bauman reflects on how the very processes of globalization and climate change queer our identities and call for a queer and versatile planetary ethic Finally Timothy Morton leads us through a reflection on queer green sex toys to challenge the ontology of agrologistics Each of these essays in their own way is concerned with fleshing out more meaningful encounters with the planetary community Without being too ambitious we hope that these sets of essays will help to open up a new trajectory of conversations at the intersection of religion nature and queer theory

Radical Love Patrick S. Cheng, 2011-03 The first introductory textbook on the subject of queer theology Contextual theologies have developed from a number of perspectives including feminist theology black theology womanist theology Latin American liberation theology and Asian American theology and a wide variety of academic and general introductions exist to examine each one However Radical Love is the first introductory textbook on the subject of queer theology In this lucid and compelling introduction Cheng provides a historical survey of how queer theology has developed from the 1950s to today and then explicates the themes of queer theology using the ecumenical creeds as a general framework Topics include revelation God Trinity creation Jesus Christ atonement sin grace Holy Spirit church sacraments and last things as seen through the lenses of LGBT theologians [Gaia's Guide International, 1991/92](#) Sandy Horn, Gaia's Guide, 1991 [Religion and LGBTQ Sexualities](#) Stephen Hunt, 2016-12-05 This compiled and edited collection engages with a theme which is increasingly attracting scholarly attention namely religion and LGBTQ sexuality Each section of the volume provides perspectives to understanding academic discourse and wide ranging debates around LGBTQ sexualities and religion and spirituality The collection also draws attention to aspects of religiosity that shape the lived experiences of LGBTQ people and shows how sexual orientation forges dimensions of faith and spirituality Taken together the essays represent an exploration of contestations around sexual diversity in the major religions the search of sexual minorities for spiritual safe spaces in both established and new forms of religiosity and spiritual paths formed in reconciling and expressing faith and sexual orientation This collection which features contributions from a number of disciplines including sociology anthropology psychology

history religious studies and theology provides an indispensable teaching resource for educators and students in an era when LGBTQ topics are increasingly finding their way onto numerous undergraduate post graduate and profession orientated programmes *A Special Illumination* Rollan McCleary,2004 Gay spirituality represents a hidden strand in Western thought that was only publically declared from the Gay Liberation of the 1970s Since coming out expressions of gay spirituality have proliferated in both number and diversity Beginning with gay theology within Christianity the phenomenon has now reached as far as Buddhism and neo paganism But so far critical analysis of the movement has been very limited largely because gay spirituality has been treated as a political and social movement arguing for rights and acceptance within religious circles *A Special Illumination* offers an indepth analysis and argues that gay spirituality should be placed at the heart of religion

Queering Christ Robert E. Goss,2007-01-01 In *Queering Christ* Robert E Goss summarizes a decade of his thinking as a queer Christian theologian sharing his queering of four critical areas sexuality Christ the Bible and theology These areas form the quadrants of his own spirituality that aims at the queer reconstruction of Christianity and reflects a life that strives to integrate the depths of spirituality and sexuality with a practice of justice Many aspects of the work are guaranteed to be highly controversial within and outside of the LGBT community *The Wild and the Toxic* Jennifer Thomson,2019-03-27 Health figures centrally in late twentieth century environmental activism There are many competing claims about the health of ecosystems the health of the planet and the health of humans yet there is little agreement among the likes of D C lobbyists grassroots organizers eco anarchist collectives and science based advocacy organizations about whose health matters most or what health even means In this book Jennifer Thomson untangles the complex web of political social and intellectual developments that gave rise to the multiplicity of claims and concerns about environmental health Thomson traces four strands of activism from the 1970s to the present the environmental lobby environmental justice groups radical environmentalism and bioregionalism and climate justice activism By focusing on health environmentalists were empowered to intervene in the rise of neoliberalism the erosion of the regulatory state and the decimation of mass based progressive politics Yet as this book reveals an individualist definition of health ultimately won out over more communal understandings Considering this turn from collective solidarity toward individual health helps explain the near paralysis of collective action in the face of planetary disaster **Liberation Theologies in the United States** Stacey M Floyd-Thomas,Anthony B Pinn,2010-03-01 *Liberation Theologies in the United States* reveals how the critical use of religion can be utilized to challenge and combat oppression in America In the nascent United States religion often functioned as a justifier of oppression Yet while religious discourse buttressed such oppressive activities as slavery and the destruction of native populations oppressed communities have also made use of religion to critique and challenge this abuse As *Liberation Theologies in the United States* demonstrates this critical use of religion has often taken the form of liberation theologies which use primarily Christian principles to address questions of social justice including racism poverty and other types of

oppression Stacey M Floyd Thomas and Anthony B Pinn have brought together a stellar group of liberation theology scholars to provide a synthetic introduction to the historical development context theory and goals of a range of U S born liberation theologies Black Theology Anthony B Pinn Womanist Theology Stacey M Floyd Thomas Latina Theology Nancy Pineda Madrid Hispanic Latino a Theology Benjam n Valent n Asian American Theology Andrew Sung Park Asian American Feminist Theology Grace Ji Sun Kim Native Feminist Theology Andrea Smith Native American Theology George Tink Tinker Gay and Lesbian Theology Robert E Shore Goss Feminist Theology Mary McClintock Fulkerson An extraordinary resource for understanding the vitality of liberation theologies and their relation to social transformation in the changing U S context Written in an accessible and engaged way this powerful and informative text will inspire beginners and scholars alike I highly recommend it Kwok Pui lan author of Postcolonial Imagination and Feminist Theology A delight to read and an exemplary account of the genre of liberation theologies Religious Studies Review **From Sin to Amazing Grace** Patrick S.

Cheng,2012-03-01 Throughout the history of Christianity lesbian gay bisexual and transgender LGBT or queer people have been condemned as unrepentant sinners who are in dire need of God s saving grace As a result of this condemnation LGBT people have been subjected to great spiritual emotional and physical abuse and violence This issue takes on a particular urgency in light of the ongoing harassment and bullying of LGBT young people by their classmates Cheng argues that people need to be liberated from the traditional legal model of thinking about sin and grace as a violation of divine and natural laws in which grace is understood as the strength to refrain from violating such laws Rather Cheng proposes a Christological model based upon the theologies of Irenaeus Bonaventure and Barth in which sin and grace are defined in terms of what God has done for us in Jesus Christ This book serves as a useful resource for all people who struggle to make sense of the traditional Christian doctrines of sin and grace in the context of the 21st century **Gay and Lesbian Theologies**

Elizabeth Stuart,2003 Gay and lesbian theology has been one of the most distinctive voices to have emerged in Christian theology in the last 30 years It has placed lesbian and gay experience at the heart of the theological process Elizabeth Stuart one of the most prominent theologians in this field presents a critical survey of gay and lesbian theology She charts the development of gay and lesbian theology from an early apologetic phase to a more confident liberationist outlook which owed much to Latin American liberation theology and feminist theology and finally to its current wrestling with queer theory

The Gentleman's Magazine ,1812 Handbook of U.S. Theologies of Liberation Miguel A. De La Torre,2004-11-01 The purpose of this handbook is to introduce the reader to Christian concepts from the perspective of U S marginalized communities It explores the interrelationship between religion community and culture in the social context of different marginalized groups specifically those rooted in the African American Amerindian Asian American feminist gay lesbian and Hispanic experiences and their impact on the development of U S theologies of liberation The handbook gives attention to the history nature sources and development of these theologies and the theologians who contributed to their formation Of

particular interest is how Handbook of U S Theologies of Liberation clearly distinguishes both the differences and similarities between these U S theologies and their Latin American counterparts The handbook is divided into two sections Thematic Essays that provide a general overview of a specific theological theme from the perspectives of different marginalized groups and Contextual Essays that focus on the specific contributions of scholars from various racial ethnic and gender backgrounds

Gaia's Wager Gary C. Bryner, 2001 Can environmentalism evolve into a powerful social movement that transforms human practices in ways that are ecologically sustainable Gary C Bryner contends that it is in our self interest as a species to ensure that environmental movements coalesce in the service of sustainability From the very first Earth Day to the setting of Agenda 21 for the new millennium this book traces the actors the issues and the institutions involved in moving environmentalism from a loose collection of fuzzy groups and goals to a new global force for change Will the next phase of environmental action resemble the WTO protests in Seattle the UN Kyoto Protocols or a Think Tank inside the Washington Beltway Gaia s Wager shows that movements play an important role between political parties and interest groups on the domestic scene and the unruly forces of globalization internationally Only social movements can catalyze a response to the global environmental threat that has a chance of both capturing imaginations and institutionalizing progress toward environmental sustainability Above all Gaia s Wager bets on the confluence of big ideas and social action to yield a more hopeful environmental future

Inherited Land Whitney A. Bauman, Richard R. Bohannon, Kevin J. O'Brien, 2011-08-04 Religion and ecology has arrived What was once a niche interest for a few academics concerned with environmental issues and a few environmentalists interested in religion has become an established academic field with classic texts graduate programs regular meetings at academic conferences and growing interest from other academics and the mass media Theologians ethicists sociologists and other scholars are engaged in a broad dialogue about the ways religious studies can help understand and address environmental problems including the sorts of methodological terminological and substantive debates that characterize any academic discourse This book recognizes the field that has taken shape reflects on the ways it is changing and anticipates its development in the future The essays offer analyses and reflections from emerging scholars of religion and ecology each addressing her or his own specialty in light of two questions 1 What have we inherited from the work that has come before us and 2 What inquiries concerns and conversation partners should be central to the next generation of scholarship The aim of this volume is not to lay out a single and clear path forward for the field Rather the authors critically reflect on the field from within outline some of the major issues we face in the academy and offer perspectives that will nurture continued dialogue
