

# Gay Friends

**James Joseph Dean**

## Gay Friends:

**Walking with Same-Sex Attracted Friends** Ng Zhi-Wen, Ronald JJ Wong, Bernice Lee, Tan Soo-Inn, Joanna Hor, Raphael Zhang, This book seeks to both encourage those who are serious about following Christ but who are struggling with same sex attraction and to challenge the church to lend a listening ear and a helping and welcoming hand The stories in this book are told with pathos honesty and courage We must all recognise that whatever our story or struggle with sin and we all have struggles God has chosen us to be His children so that we can be conformed to the likeness of His Son The church should understand this and provide a safe redemptive space to all of us sinners whatever our problem surrounded by the sheltering canopy of God's unchanging truth and abiding love From the Foreword by Bishop Emeritus Dr Robert Solomon The Methodist Church in Singapore

**A Family and Friend's Guide to Sexual Orientation** Bob Powers, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company

**Women and Men As Friends** Michael Monsour, 2001-10 This book examines the friendships of women and men of all ages and studies how these friendships influence the self concepts of the friends The volume is appropriate for scholars and students in personal relationships interpersonal comm gender studie

**Midlife and Older LGBT Adults** Ski Hunter, 2013-10-11 Gain insight into the various practice issues that arise when working with midlife and older LGBT persons Take a unique look at the lives of midlife and older LGBT persons in Midlife and Older LGBT Adults This book reviews various life arenas in which midlife and older LGBT persons exist and the problems with which they cope It addresses the lives of this group from their sexual identities to their family and work situations The book includes research based knowledge on issues such as coming out disclosure education work family general positives and negatives and more Not only does this book discuss the lifestyles of individuals in this group but it also includes how social services professionals can respond to their needs in an affirmative way The book provides an overview of practice issues with midlife and older LGBT persons to help social workers and other human services workers treat individuals in this group more effectively It also identifies changes in diagnostics treatments and human services The book presents numerous studies involving midlife and older LGBT persons and an extensive reference list for further information In Midlife and Older LGBT Adults you ll learn how to help individuals in this group deal with coming out the positives and the negatives disclosure to different audiences benefits of community involvement and participation family lives including friends and significant others transitions and downturns HIV AIDS victimization loneliness loss and much more This book will appeal to any social services professional interested in or working with individuals in this population It serves as a useful resource for human services workers and administrators by outlining practice issues It is also suitable as a textbook for students in courses on adult development and aging Midlife and older LGBT persons will find this book to be an engaging look at the lives of their peers Make this one of a kind book part of your collection

**The Advocate**, 2003-10-14 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest

continuing LGBT publication in the United States      **Unlikely Friends** James A. Vela-McConnell, 2010-12-13 There are those individuals who have established deep lasting relationships with others from very different backgrounds of race gender sexual orientation etc Research indicates that such friendships are a relatively rare phenomenon While many study the reasons for this pattern the research presented here focuses on the successes of the few How have you broken down the social distance between you and bridged the social distance that separates you This monograph traces the process by which people overcome the differences between them starting with an in depth look at friendship and friendship patterns in our society how these boundaries shape the friendships themselves how opportunities to establish such friendships are structured and the interpersonal techniques for managing social differences The book concludes with a consideration of how such friendships can shape the future of society      **American Savage** Dan Savage, 2014-05-27 The sex advice columnist for Savage Love draws on his experience with the It Gets Better campaign to share pithy insights into a range of topics including health care gun control and marriage equality      **Homosexual Issues In The Workplace** Louis Diamant, 2018-10-24 First published in 1993 This book looks at the stress of gay and lesbian workers within the work world and for that reason alone deserves its place on a list of recommended mental health psycho social health readings However more than this major factor merits consideration Issues that are core to the identity of any person must be examined from the particular position of the homosexual worker and career seeker and include such fundamental concepts as fairness self esteem economics survival the need and right to participate in the work force and the need and right for a voice and basic identity in vocational systems

**Classics in Lesbian Studies** Esther D Rothblum, 2013-08-27 Classics in Lesbian Studies takes a major step in giving the lesbian experience its own unique voice within scholarship and the larger world society Thus it is devoted exclusively to the lesbian experience and serves as a vehicle for the promotion of scholarship and commentary on lesbianism from an international perspective Not only does it ensure that classic pieces are not forgotten by new generations of students and scholars it also spurs further lesbian research writing theory and scholarship In Classics in Lesbian Studies you are introduced to descriptive theoretical empirical applied and multicultural perspectives in the field of lesbian studies Interdisciplinary the book presents pieces from various academic areas in multiple formats including personal accounts poetry editorials debates and commentaries For your convenience the chapters are organized primarily across four categories identity history and literature physical and social sciences and back to lesbian politics You will find the discussions of the following issues and subjects provocative and insightful ways black women in the diaspora construct and name their sexual and romantic feelings for other women lesbian identity formation in a changing social environment how lesbians maneuver in the dominant culture and their own subculture lesbianism as a political movement the experiences of lesbian adolescents teaching lesbian studies lesbians and societal institutions including the work place the media the political arena the legal system and religion using lesbian feminist scholarship to reexamine women s lives in the past Students scholars

lesbian feminists and others interested in lesbian studies will find *Classics in Lesbian Studies* a vital examination of lesbianism since its grass roots. Not only does it consider the progress made since the initial days of fighting for liberation, it also explores a more distant repressed past and anticipates future possibilities lying before us. This powerful insightful collection is sure to become a classic as it grapples with virtually all aspects of lesbianism from its inception as a political movement to its identity as a lifestyle choice to its implications of community. Asian American Society Mary Yu Danico, 2014-08-19 Asian Americans are a growing minority population in the United States. After a 46 percent population growth between 2000 and 2010 according to the 2010 Census, there are 17.3 million Asian Americans today. Yet Asian Americans as a category are a diverse set of peoples from over 30 distinctive Asian origin subgroups that defy simplistic descriptions or generalizations. They face a wide range of issues and problems within the larger American social universe despite the persistence of common stereotypes that label them as a model minority for the generalized attributes offered uncritically in many media depictions. *Asian American Society: An Encyclopedia* provides a thorough introduction to the wide ranging and fast developing field of Asian American studies. Published with the Association for Asian American Studies (AAAS), two volumes of the four volume encyclopedia feature more than 300 A to Z articles authored by AAAS members and experts in the field who examine the social, cultural, psychological, economic, and political dimensions of the Asian American experience. The next two volumes of this work contain approximately 200 annotated primary documents organized chronologically that detail the impact American society has had on reshaping Asian American identities and social structures over time. Features more than 300 articles authored by experts in the field organized in A to Z format help students understand Asian American influences on American life as well as the impact of American society on reshaping Asian American identities and social structures over time. A core collection of primary documents and key demographic and social science data provide historical context and key information. A Reader's Guide groups related entries by broad topic areas and themes. A Glossary defines key terms and a Resource Guide provides lists of books, academic journals, websites, and cross references. The multimedia digital edition is enhanced with 75 video clips and features strong search and browse capabilities through the electronic Reader's Guide, detailed index, and cross references. Available in both print and online formats, this collection of essays is a must-have resource for general and research libraries, Asian American ethnic studies libraries, and social science libraries. *Outlander's Sassenachs* Valerie Estelle Frankel, 2016-07-04 A time travel epic featuring history and romance, *Outlander* unlike most adventure series is aimed at women audiences. The kilted male characters, the female narrator, the fantastic period costumes are atypical of male gendered television. Both the show and the novels on which it is based address issues most series shy away from like breast feeding, abortion, and birth control. Role reversals are common: the powerful Claire rescues her virginal husband Jamie from sexual abuse. When the villainous Black Jack Randall displays his genitals to the heroine Jenny, she laughs. This collection of new essays examines *Outlander* as an exploration of what it means

to be a capable 18th century woman and what it means in the modern world As Claire explores different models of strength in both periods Jamie comes to understand the nuances of male honor power and alternative sexuality through the contrasting figures of Black Jack and Lord John As the heroes negotiate the complications of marriage and life they make discoveries about gender that resonate with modern audiences *Queering the Midwest* Clare Forstie, 2022-10-25 Drag shows that test the capacity of bars persist alongside wishes for stronger community among River City's LGBTQ population In this examination of LGBTQ community in a small Midwestern city Clare Forstie highlights the ambivalence of LGBTQ lives in the rural Midwest Drawing on in depth interviews ethnographic research and friendship mapping Forstie reveals the ways that community spaces are disappearing and emerging LGBTQ people feel safe and unrecognized and friendships do and don't matter In this community non LGBTQ allies are essential support for their LGBTQ friends and organizations but sometimes their support comes at a cost Those who find they feel most comfortable and safe also align with community norms forming with and connecting to families and identities that are the majority in River City Forstie offers the story of a community that does not fit neatly into a narrative of progress or decline Rather it's a little bit of both Forstie's ambivalent community framework reveals the ways we might think about our communities and relationships more authentically embracing the contradictions that inform the possibilities for change *Dance and Gender* Wendy Oliver, Doug Risner, 2018-06-11 Driven by exacting methods and hard data this volume reveals gender dynamics within the dance world in the twenty first century It provides concrete evidence about how gender impacts the daily lives of dancers choreographers directors educators and students through surveys interviews analyses of data from institutional sources and action research studies Dancers dance artists and dance scholars from the United States Australia and Canada discuss equity in three areas concert dance the studio and higher education The chapters provide evidence of bias stereotyping and other behaviors that are often invisible to those involved as well as to audiences The contributors answer incisive questions about the role of gender in various aspects of the field including physical expression and body image classroom experiences and pedagogy and performance and funding opportunities The findings reveal how inequitable practices combined with societal pressures can create environments that hinder health happiness and success At the same time they highlight the individuals working to eliminate discrimination and open up new possibilities for expression and achievement in studios choreography performance venues and institutions of higher education The dance community can strive to eliminate discrimination but first it must understand the status quo for gender in the dance world Wendy Oliver professor of dance at Providence College is coeditor of *Jazz Dance A History of the Roots and Branches* Doug Risner professor of dance at Wayne State University is coeditor of *Hybrid Lives of Teaching Artists in Dance and Theatre Arts A Critical Reader* Contributors Gareth Belling Karen Bond Carolyn Hebert Eliza Larson Pamela S Musil Wendy Oliver Katherine Polasek Doug Risner Emily Roper Karen Schupp Jan Van Dyke

**Intergroup Contact Theory** Loris Vezzali, Sofia Stathi, 2016-12-08 Intergroup contact theory has been one of the most

influential theories in social psychology since it was first formulated by Gordon Allport in 1954 This volume highlights via a critical lens the most notable recent developments in the field demonstrating its vitality and its capacity for reinvention and integration with a variety of seemingly distinct research areas In the last two decades the research focus has been on the variables that explain why contact improves intergroup attitudes and when the contact prejudice relationship is stronger Current research highlights that contact is not a panacea for prejudice but it can represent a useful tool that can contribute to the improvement of intergroup relations The book includes coverage of a number of previously under researched fields which extend the full potential of contact theory within the personality acculturation and developmental domains The chapters also examine the methodological advances in the field and the applied implications The book offers a rich picture of the state of the field and future directions for research that will be invaluable to students and scholars working in social psychology and related disciplines It aims to provide fertile ground for the development of new exciting and dynamic research ideas in intergroup relations

**Masculinity** Peter Lehman, 2013-02-01 Lehman brings together new work on masculinity in film by established film scholars new academics performance artists and cultural critics The essays analyze trends from the role of gay men in saving heterosexuality to the emergence of new queer cinema Aaron Jason

Silver, 2006-07-01 My reasons for writing this book are rather complex because I have seen no other books on the shelves that were comprehensive enough to interest the straight population as well This book is as much for them as it is for gay people because it I believe it provides important information for them to help them understand us better and why many gay men may behave the way they do Gay culture to the straight culture as always seemed mysterious as if we were hiding something Perhaps we have been so I hope this book helps them understand better the gay culture and hopefully it may help them better understand how certain behaviors may have developed and a bit of a history lesson on how gay culture originally came to be My greatest hope is that this book will cause the much need discussion about why many of us behave the way we do My thoughts are that the high school girly behaviors are the manifestations of unhealed wound that I refer to as ghost wounds that are a direct result of the damage that has been done during the very critical school age years when many of us were trying to find out who were and develop some self esteem Unfortunately for most gay men that I have spoken to had very lonely childhoods where they felt isolated picked on at school and they most often felt like outsiders I believe these experiences have done more damage to gay people than we have ever given credit to As a result these ghost wounds have never been healed and follow them around for a lifetime unless addressed and will influence much of your behaviors and most importantly your ability to understand and really feel the beauty and deliciousness of true intimacy whether it be with friends or lifepartners Frequent sexual encounters are not intimacy It s devoid of intimacy and often leads to a deeper feeling of isolation loneliness and depression The last of what I want to say is good luck in your que

**Routledge International Handbook of Heterosexualities Studies** James Dean, Nancy Fischer, 2019-12-19 While a majority of people identify as

heterosexual if asked about their sexual identity what does that really mean How did identifying as straight arise particularly in relation to identifying as queer lesbian and gay How are individuals socialized to view themselves and others as straight even when many people are sexually fluid How do institutions like government bodies the educational system and the family reinforce heterosexuality This collection introduces the field of Critical Heterosexualities Studies and key lines of inquiry within the field Like Masculinity Studies and Whiteness Studies Heterosexualities Studies critically examines the dominant category and identity group in order to illuminate the taken for granted assumptions that surround heterosexual identities This critical perspective questions the idea that heterosexuality is natural normal and biologically driven A recurring question throughout this Handbook is what does it mean to say that there are multiple forms of heterosexuality The answer is provided by cases showing how straightness varies between men and women but also across different racial groups social classes and one's status as trans or cisgender Organized around key themes of inquiry including heterosexualities across the life course straight identities and their intersections the power of straightness in state politics and the changing meaning of heterosexualities in the context of sexual fluidity this collection provides readers with an introduction to Critical Heterosexualities Studies through important theoretical statements key historical studies and current empirical research Featuring both classic works and original essays written expressly for this volume this collection provides a state of the art overview of this exciting new field in sexualities studies

**Introducing the New Sexuality Studies** Nancy L.

Fischer, Laurel Westbrook, Steven Seidman, 2022-06-07 Introducing the New Sexuality Studies Original Essays is an innovative reader friendly collection of essays that introduces the field of sexuality studies to undergraduate students Examining the social cultural and historical dimensions of sexuality this collection is designed to serve as a comprehensive yet accessible textbook for sexuality courses at the undergraduate level The fourth edition adds 51 new essays whilst retaining 33 of the most popular essays from previous editions It features perspectives that are intersectional transnational sex positive and attentive to historically marginalized groups along multiple axes of inequality including gender race class ability body size religious identity age and of course sexuality Essays explore how a wide variety of social institutions including medicine religion the state and education shape sexual desires behaviors and identities Sources of and empirical research on oppression are discussed along with modes of resistance activism and policy change The fourth edition also adds new user friendly features for students and instructors Keywords are italicized and defined and each chapter concludes with review questions to help students ascertain their comprehension of key points There is also an online annotated table of contents to help readers identify key ideas and concepts at a glance for each chapter

**Straights** James Joseph

Dean, 2014-08-01 Explores how straight Americans make sense of their sexual and gendered selves Since the Stonewall Riots in 1969 the politics of sexual identity in America have drastically transformed It's almost old news that recent generations of Americans have grown up in a culture more accepting of out lesbians and gay men seen the proliferation of LGBTQ media

representation and witnessed the attainment of a range of legal rights for same sex couples But the changes wrought by a so called post closeted culture have not just affected the queer community heterosexuals are also in the midst of a sea change in how their sexuality plays out in everyday life In Straights James Joseph Dean argues that heterosexuals can neither assume the invisibility of gays and lesbians nor count on the assumption that their own heterosexuality will go unchallenged The presumption that we are all heterosexual or that there is such a thing as compulsory heterosexuality he claims has vanished Based on 60 in depth interviews with a diverse group of straight men and women Straights explores how straight Americans make sense of their sexual and gendered selves in this new landscape particularly with an understanding of how race does and does not play a role in these conceptions Dean provides a historical understanding of heterosexuality and how it was first established then moves on to examine the changing nature of masculinity and femininity and most importantly the emergence of a new kind of heterosexuality notably for men the metrosexual and for women the emergence of a more fluid sexuality The book also documents the way heterosexuals interact and form relationships with their LGBTQ family members friends acquaintances and coworkers Although homophobia persists among straight individuals Dean shows that being gay friendly or against homophobic expressions is also increasingly common among straight Americans A fascinating study Straights provides an in depth look at the changing nature of sexual expression in America
