now occupies a critical place in many fields of academic endeavors. It covers a long history and a dynamic and ever changing present while opening up the academic profession to new scholarship and new ways of thinking. A groundbreaking new approach. While gays and lesbians have shared many aspects of life, their histories and cultures developed in profoundly different ways. To reflect this crucial fact, the encyclopedia has been prepared in two separate volumes, assuring that both histories receive full unbiased attention and that a broad range of human experience is covered. Written for and by a widerange of people. Intended as a reference for students and scholars in all fields as well as for the general public, the encyclopedia is written in user friendly language. At the same time it maintains a high level of scholarship that incorporates both passion and objectivity. It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future.

Sexual Borderlands Kathleen Kennedy, Sharon Rena Ullman, 2003

The Hirschfeld Archives Heike Bauer, 2017-05-15 This work examines how death, suicide and violence shaped modern queer culture, arguing that negative experiences as much as affirmative subculture formation influenced the emergence of a collective sense of same sex identity. Bauer looks for this history of violence in the work and reception of the influential sexologist Magnus Hirschfeld (1868-1935) and through Hirschfeld's work examines the form and collective impact of anti queer violence in the first half of the twentieth century. Hirschfeld's archive, his library at the Institute for Sexual Sciences in Berlin, was destroyed by the Nazis in 1933, so the archive of Bauer's title is one that she's built from over a hundred published and unpublished books, articles, films and photographs.

Gay and Lesbian Asia Gerard Sullivan, PETER A JACKSON, 2013-09-13 How do Asian cultures construct queer genders, sexualities and eroticism? Gay and Lesbian Asia demonstrates the astonishing diversity of gay, lesbian, bisexual and transgendered identities in countries including Korea, Thailand, Malaysia, China, India, Indonesia, Singapore and the Philippines. Although many Asian cultures borrow the language of the West when discussing queerness, the attitudes, relationships and roles described are quite different. Gay and Lesbian Asia discusses cultural issues as well as the unique political position of gays in Asian societies. For example, the Thai concept of phet, eroticized gender, is quite different from the Western view that classifies people by the sex of the partners they desire, not by their level of masculine or feminine traits. Similarly, some gay and lesbian Chinese people come home rather than come out. By bringing their partners into the extended family, they can maintain the filial relationships that define them while being able to love whom they choose. The essays in Gay and Lesbian Asia cover a broad range of approaches and subjects: globalization theory, exploring the political and cultural ramifications of the Western gay identity movement; Foucauldian discourse on sexuality and sharply distinct erotic cultures; political and cultural analyses of gay and lesbian comradeship and filial relationships in Chinese societies; research on the T and P (trans and poly) lesbians similar to butch and femme in Malaysian bars; the formation of gay cybercommunities in Asia; the effects of class distinctions on Jakarta lesbians; studies of local historical forms of homoeroticism and transgenderism. Gay and Lesbian Asia continues Haworth's landmark series of books on gay and lesbian
