Gays and Grays Donal Godfrey, 2007-07-20 *Gays and Grays* tells the story of a unique Catholic parish Most Holy Redeemer Parish in San Francisco is in the center of the world's first gay neighborhood The Castro This parish was the center of the hostility to the arriving gay population in the 1970s but paradoxically was itself transformed into a welcoming parish The old time parishioners the gray bonded with the new comers the gay particularly in a joint compassionate response to the crisis of AIDS A charismatic pastor FR Tony McGuire also played a key role in the transformation of this interesting parish Most Holy Redeemer was changed from a dying parish to a vital place where gay and straight people together created something new Father Donal Godfrey shows how this parish became prophetic and compassionate through conflict and compromise at times despite opposition from many sources including the institutionalized homophobia of the church and society Rather than becoming embittered the parish opened up to be a place of healing and indeed sanctuary for many This book tells this fascinating story and why it is significant beyond the scope of San Francisco Most Holy Redeemer is a place which has remained within the institution while at the same time challenging it with grace and humor This accessible and moving book is appropriate for all levels of students of congregational studies Sociology of Religion Gay or Queer Studies and Religion courses

Queer Words, Queer Images Ronald Jeffrey Ringer, 1994-01-01 In many arenas the debate is raging over the nature of sexual orientation Queer Words Queer Images addresses this debate but with a difference arguing that homosexuality has become an issue precisely because of the way in which we discuss debate and communicate about the concept and experience of homosexuality The debate over homosexuality is fundamentally an issue of communication as we can see by the recent controversy over gays in the military This controversy termed by one gay man as the annoying habit of heterosexual men to overestimate their own attractiveness has been debated in communication sensitive terms such as morale and discipline The twenty chapters address such subjects as gay political language homosexuality and AIDS on prime time television the politics of male homosexuality in young adult fiction the identification of female athleticism with lesbianism the politics of identity in the works of Edmund White and coming out strategies This is must reading for students of communication practices and theory and for everyone interested in human sexuality

Translation and Minority Lawrence Venuti,2016-04-29 The premise of this volume is a question What can the concept of minority bring to the practice and study of translation Minority is understood here to mean a cultural or political position that is subordinate whether the social context that so defines it is local national or global This position is occupied by languages and literatures that lack prestige or authority the non standard and the non canonical what is not spoken or read much by a hegemonic culture Yet minorities also include the nations and social groups that are affiliated with these languages and literatures the politically weak or underrepresented the colonized and the disenfranchised the exploited and the stigmatized Translation today is itself a minor use of language a lesser art an invisible craft that commands less cultural capital and fewer legal privileges than original composition Yet the focus in this collection is not on what translators worldwide have in common but on the distinctive forms that translating takes when it is done by or on behalf of minorities The articles in this volume present a variety of case studies that illuminate the linguistic and cultural problems posed by such translating as well as the economic and political agendas it has served Together these pieces show that the concept of minority is worth exploring because it inspires innovation in translation practice and research Minor cultures are coincident with new translation strategies new translation theories and new syntheses of the diverse methodologies that constitute the discipline of translation studies
