Damned Fools In Utopia Nicolas Walter, 2011-04-15 Nicolas Walter was the son of the neurologist W Grey Walter and both his grandfathers had known Peter Kropotkin and Edward Carpenter However it was the twin jolts of Suez and the Hungarian Revolution while still a student followed by participation in the resulting New Left and nuclear disarmament movement that led him to anarchism himself His personal history is recounted in two autobiographical pieces in this collection as well as the editor's introduction During the 1960s he was a militant in the

British nuclear disarmament movement especially its direct action wing the Committee of 100 he was one of the Spies for Peace who revealed the State's preparations for the governance of Britain after a nuclear war he was close to the innovative Solidarity Group and was a participant in the homelessness agitation Concurrently with his impressive activism he was analyzing acutely and lucidly the history practice and theory of these intertwined movements and it is such writings including Non violent Resistance and The Spies for Peace and After that form the core of this book But there are also memorable pieces on various libertarians including the writers George Orwell Herbert Read and Alan Sillitoe the publisher C W Daniel and the maverick Guy A Aldred The Right to be Wrong is a notable polemic against laws limiting the freedom of expression Other than anarchism the passion of Walter's intellectual life was the dual cause of atheism and rationalism and the selection concludes appropriately with a fine essay on Anarchism and Religion and his moving reflections Facing Death Nicolas Walter scorned the pomp and frequent ignorance of the powerful and detested the obfuscatory prose and intellectual limitations of academia He himself wrote straightforwardly and always accessibly almost exclusively for the anarchist and freethought movements The items collected in this volume display him at his considerable best

Spies in Arabia Priya

Satia, 2008-04-02 At the dawn of the twentieth century British intelligence agents began to venture in increasing numbers to the Arab lands of the Ottoman Empire a region of crucial geopolitical importance spanning present day Iraq Jordan Syria and Saudi Arabia They were drawn by the twin objectives of securing the land route to India and finding adventure and spiritualism in a mysterious and ancient land But these competing desires created a dilemma how were they to discreetly and patriotically gather facts in a region they were drawn to for its legendary inscrutability and by the promise of fame and escape from Britain In this groundbreaking book Priya Satia tracks the intelligence community's tactical grappling with this problem and the myriad cultural institutional and political consequences of their methodological choices during and after the Great War She tells the story of how an imperial state in thrall to the cultural notions of equivocal agents and beset by an equally captivated and increasingly assertive mass democracy invented a wholly new style of covert empire centered on the world's first brutal aerial surveillance regime in Iraq Drawing on a wealth of archival sources from the fictional to the recently declassified this book explains how Britons reconciled genuine ethical scruples with the actual violence of their Middle Eastern empire As it vividly demonstrates how imperialism was made fit for an increasingly democratic and anti-imperial world what emerges is a new interpretation of the military cultural and political legacies of the Great War and of the British Empire in the twentieth century Unpacking the romantic fascination with Arabia as the land of espionage Spies in

Arabia presents a stark tale of poetic ambition war terror and failed redemption and the prehistory of our present discontents
