Women, Sex, and the Law Rosemarie Tong, 1984 Feminist scholars have long been concerned with how women and sexuality are perceived and treated by the American legal system. Feminists have put forth a variety of arguments seeking the causes and solutions to the class-based and sex-biased characteristics of the legal system that contribute to the victimization of women in contemporary society. No consensus within the women's movement has been achieved on a number of legal issues such as pornography or prostitution since approaches are often divided by political, economic, moral, or sexual ideology. *Women, Sex, and the Law* is a comprehensive survey and analysis of the legal and sexual issues important to women. Rosemarie Tong introduces the reader to the different feminist and legal perspectives on the causes and solutions for the problems of pornography, sexual harassment, prostitution, rape, and woman battering. Tong clearly and concisely details and assesses the legal theory and practice for each issue, describes and critiques the various feminist debates surrounding these concerns, and offers her own thoughtful proposals for ameliorating the discriminatory tendencies and improving the effectiveness of our present legal system.

Psychological Politics of the American Dream Lois Tyson, 1994 While it is reasonable to assume that our national literature would offer a fertile field in which to explore the interaction between the ideological and psychological dimensions of American life, critics generally have kept these two domains separate and the dominant model has consisted of an archaic notion of the individual in society.

Twins in Contemporary Literature and Culture Juliana De Nooy, 2005-06-21 Stories of twins are told with astonishing frequency in contemporary culture. Films and novels from recent decades repeatedly tell of the stranglehold of brotherly love, the evil twin who steals her sister's lover, the homicidal mutant twin, the reunion of twins separated at birth, warring twins, and confusion between look-alikes. *Twins in Contemporary Literature and Culture* asks why we keep telling twin tales and how these have been transformed in recent retellings to reflect the preoccupations of the times.

A Girl's Education Judith Gill,Katharine Esson,Rosalina Yuen,2016-07-10 This book argues that educators and the general public have become complacent about girls education as a consequence of the more recent fuss about problems for boys After an analysis of persistent disquiet about girls lifestyles it uses theories of gender and education to demonstrate that girls are being produced in contradictory ways in current schooling Many girls develop a sense of themselves through close connection with friendship groups but schooling processes typically require them to adopt the position of competitors in the end of school rankings and to act out their individualized positions in imagining themselves into the future Ultimately the work offers insight and understanding leading to a less divisive educational pathway for girls
