The Ten Basic Principles of Good Parenting Laurence Steinberg,2005-05-09 One of the most distinguished psychologists in the country distills decades of research into a parenting book that offers the key to raising a happy healthy child

A 31-Day Guide To Good Parenting Elaine Graham,2020-08-26 Every parent including myself wants the best for their child It is up to every parent or parents to give them the necessary tools and skills to be successful Wishing alone will not make it happen Raising kids is expensive but a lot of the things that great parent's need to do do not have to cost a lot of money However it does require a commitment to put your child first and do the things that will demonstrate great parent skills This 31 Day Guide to parenting is a simple tool that any parent can use to assist them in raising their child Think about it they will always belong to you and you certainly want what's best for them and you want them to always give their best so it is up to you to teach them If someone promised you that if you made major sacrifices for your child on an ongoing basis gave of your time unselfishly and made sure you provided as best you could your child would grow up to become a productive successful citizen would you do it Of course you would So make the sacrifice today while they are growing up and moving through the various phases to adulthood and you will always be proud of them Does this mean that you or the children will never make mistakes No a thousand times no However if you give it 100 percent of all you have to give each and every day you will never go wrong There is something about being a parent that is mighty special Every parent should love their child unconditionally Please know that it is definitely the toughest job you will ever have however the rewards of raising a successful child far outweigh the difficulties you will face raising children I hope that this 31 Day Guide will serve as a resource to help you as you raise your child Please know that you will not find all the answers in this book but you will find great strategies that great parents use when raising children

Parenting Guide Rene Fisher,2019-02-08 Book 1 Learn from an experienced parent and deep thinker how to improve your parenting skills You must be doing a lot right already and parenting is not an easy job but with the relationship rewards and the fulfilment countless

individuals have pointed at it's worth the effort. Many parents have been puzzled over boundaries, time management and control. If you jump into parenting without any foreknowledge or you base all your assumptions and patterns on what your parents taught you, you're bound to make some mistakes. Nobody is perfect, but some mistakes can be avoided by reading about what others have done and how that worked out for them. You will read about things like: How to plan, reward, prioritize and evaluate your time; Becoming better at multi-tasking; controlling emotions and managing your finances while raising children; Ways to set healthy boundaries; make them clean up their rooms or eliminate distractions; Terrible mistakes the author has seen parents make with all the inevitable consequences that came with those mistakes; How being too controlling; having no bedtimes; inconsistency or bad nutrition make all the difference in what your children feel and how they behave; Things that children said they loved most about their parents; The value of a functioning father in the home; How super dads can think of games; use their imagination and spark new life into their discouraged children; Thoughts on role models; fatherhood and mentioned cases.

Book 2: The population has been on a decline in many areas in the world. People seem to shy away from parenting altogether. Many factors contribute to this and in a spirit of research and analytical criticism, the author brings some of these aspects to light. Following this careful examination, a compilation of new knowledge and reminding realities is brought forward by the same author dealing with some of the most common dilemmas of parenting: How to talk to your children; how to get them to bed and stay there and whether to be strict or lenient. With these fresh beliefs and keen observations, valuable lessons can be learned such as: How the average number of children per family is affecting the world economy; How important it is to decide to have a baby and which factors to take into account when you do; Why having children can be a joy and a fulfilling way to live your life; The best ways to give your children compliments without saying the same things over and over again; Insights about a child's expectation and his or her attachment to the judgment of a caretaker or parent; The difference between authoritative, authoritarian and permissive parenting styles; How to decide on the best bedtime rituals to put your children to sleep; The best ways to avoid a screaming tantrum; throwing toddler when they get tired; Ideas about exercises, nutrition and other elements that determine a child's health.

This book bundle will really take you to the other side of parenting with illustrated examples, funny anecdotes, horrifying mistakes, valuable insights and wise advice. Don't wait and get it now.

The Good Parent Guide Mukti Jain, 1993

The No-Nonsense Guide to Green Parenting Kate Blincoe, 2015-10-08
