

Doing good is always the right thing to do!

- It is good to have a merciful and respectful attitude.
 - We can correctly judge sin, and evil that we see in people without slandering them.
- We need to be people of not good, but great manners!
 - A quarrelsome attitude makes a poor witness for Christ.

The Improbable War Christopher Coker, 2014-12-15 The Improbable War explains why conflict between the USA and China cannot be ruled out In 1914 war between the Great Powers was considered unlikely yet it happened We learn only from history and popular though the First World War analogy is the lessons we draw from its outbreak are usually mistaken Among these errors is the tendency to over estimate human rationality All major conflicts of the past 300 years have been about the norms and rules of the international system In China and the US the world confronts two exceptional powers whose values differ markedly with China bidding to challenge the current order The Thucydidean Trap when a conservative status quo power confronts a rising new one may also play its part in precipitating hostilities To avoid stumbling into an avoidable war both Beijing and Washington need a coherent strategy which neither of them has History also reveals that war evolves continually The next global conflict is likely to be played out in cyberspace and outer space and like all previous wars it will have devastating consequences Such a war

between the United States and China may seem improbable but it is all too possible which is why we need to discuss it now

Families at Play Sinem Siyahhan, Elisabeth Gee, 2018-02-02 How family video game play promotes intergenerational communication connection and learning Video games have a bad reputation in the mainstream media They are blamed for encouraging social isolation promoting violence and creating tensions between parents and children In this book Sinem Siyahhan and Elisabeth Gee offer another view They show that video games can be a tool for connection not isolation creating opportunities for families to communicate and learn together Like smartphones Skype and social media games help families stay connected Siyahhan and Gee offer examples One family treats video game playing as a regular and valued activity and bonds over Halo A father tries to pass on his enthusiasm for Star Wars by playing Lego Star Wars with his young son Families express their feelings and share their

experiences and understanding of the world through playing video games like The Sims Civilization and Minecraft Some video games are designed specifically to support family conversations around such real world issues and sensitive topics as bullying and peer pressure Siyahhan and Gee draw on a decade of research to look at how learning and teaching take place when families play video games together With video games they argue the parents are not necessarily the teachers and experts all family members can be both teachers and learners They suggest video games can help families form develop and sustain their learning culture as well as develop skills that are valued in the twenty first century workplace Educators and game designers should take note
