prevailing business cycle conditions We apply a local projection method to a newly constructed narrative dataset of major regular job protection reforms covering 26 advanced economies over the past four decades The analysis relies on country sector level data using as an identifying assumption the fact that stringent dismissal regulations are more binding in sectors that are characterized by a higher natural propensity to regularly adjust their workforce We find that the responses of sectoral employment to large job protection deregulation shocks depend crucially on the state of the economy at the time of reform they are positive in an expansion but become negative in a recession These findings are consistent with theory and are robust to a broad range of robustness checks including an Instrumental Variable approach using political economy drivers of reforms as instruments Our results provide a case for undertaking job protection reform in good times or for designing it in ways that enhance its short term impact **Business Cycle Theory, Part I Volume 3** Harald Hagemann,2024-08-01 In the mid 19th century the business cycle was increasingly recognized as a recurrent phenomenon This edition contains key texts from the range of literature in the field It covers many Anglo Saxon writers as well as contributions from the French German Italian Russian and Swedish debates *Los Angeles Magazine* ,2006-02 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **Catalog of Copyright Entries** Library of Congress. Copyright Office,1978 Sensorimotor Psychotherapy Pat Ogden,Janina Fisher,2015-04-27 A book for clinicians and clients to use together that explains key concepts of body psychotherapy The body s intelligence is largely an untapped resource in psychotherapy yet the story told by the somatic narrative gesture posture prosody facial expressions eye gaze and movement is arguably more significant than the story told by the words The language of the body communicates implicit meanings and reveals the legacy of trauma and of early or forgotten dynamics with attachment figures To omit the body as a target of therapeutic action is an unfortunate oversight that deprives clients of a vital avenue of self knowledge and change Written for therapists and clients to explore together in therapy this book is a practical guide to the language of the body It begins with a section that orients therapists and clients to the volume and how to use it followed by an overview of the role of the brain and the use of mindfulness The last three sections are organized according to a phase approach to therapy focusing first on developing personal resources particularly somatic ones second on utilizing a bottom up somatic approach to memory and third on exploring the impact of attachment on procedural learning emotional biases and cognitive distortions Each chapter is accompanied by a guide to help therapists apply the chapter s teachings in clinical practice and by worksheets to help clients integrate the material on a personal level The concepts interventions and worksheets introduced in this book are

designed as an adjunct to and in support of other methods of treatment rather than as a stand alone treatment or manualized approach By drawing on the therapeutic relationship and adjusting interventions to the particular needs of each client thoughtful attention to what is being spoken beneath the words through the body can heighten the intimacy of the therapist client journey and help change take place more easily in the hidden recesses of the self **Streaming, Sharing, Stealing** Michael D.
