Shaping History Helen Geracimos Chapin, 1996-07-01 Just a decade after the first printing press arrived in Honolulu in 1820 American Protestant missionaries produced the first newspaper in the islands More than a thousand daily weekly or monthly papers in nine different languages have appeared since then Today they are often considered a secondary source of information but in their heyday Hawai'i's newspapers formed one of the most diversified vigorous and influential presses in the world In this original and timely work Helen Geracimos Chapin charts the role Hawai'i's newspapers played in shaping major historic events in the islands and how the rise of the newspaper abetted the rise of American influence in Hawai'i *Shaping History* is based on a wide selection of written and oral sources including extensive interviews with journalists and others working in the newspaper industry Students of journalism and Hawaiian history will find this comprehensive history of Hawai'i's newspapers especially valuable

Books, Bricks and Bytes Stephen R. Graubard, Paul LeClerc, 2017-07-05 Libraries are experiencing a technological revolution that goes well beyond anything that has existed since the invention of printing Not surprisingly the digital library with all that it portends for the future of the book and the periodical but also with all that it implies for the kinds of information that will be collected and disseminated will necessarily preoccupy those responsible for libraries in the new

century Everything from copyright access and cost to the nature of the reading public itself is now up for re examination Books Bricks and Bytes brings together an extraordinary array of authors at the cutting edge of these concerns not only within the United States but experts drawn from Germany France Russia the United Kingdom Brazil and India James H Billington discusses the Library of Congress in the information age Ann S Okerson outlines two models for securing scholarly information Donald S Lamm discusses the shaky partnership of publishers and librarians in this new environment Klaus Dieter Lehmann provides a framework for maintaining the intellectual heritage of the past in a digitized future Each contributor shows in concrete detail and vivid illustration that the library as a world of holdings is increasingly valued as an incomparable place to access information In his preface to the book Stephen Graubard reminds us that whether or not one believes in the reality of the information revolution that is said to be overtaking the world it is obvious that the libraries being built today do not resemble those marble sanctuaries constructed in the Victorian age or in the early twentieth century This is a work that shows how libraries have been transformed from refuges from the external world to places that reflect the social and intellectual values of specific societies The idea that the library is a public trust and public resource is at the center of this unusually fine collection at the cutting edge of professional and public life

See How They Ran Gil Troy, 2012-09-18 See How They Ran explores why candidates campaign as they do why Americans complain about it and what these evolving patterns and changing images tell us about American democracy itself On the eve of every election many Americans become convinced that this presidential campaign is worse than it has ever been Frustrated we long for the good old days of dignified campaigns and worthy candidates However as Gil Troy's fascinating history demonstrates they never existed Originally candidates did not run for office but awaited the people's call in dignified silence When Stephen Douglas campaigned in 1860 he pretended to be visiting his mother as he traveled not actively campaigning In the post 1945 world however both Democratic and Republican candidates have stopped to kiss babies donned hard hats and pumped hands along the campaign trails From the founding of our nation Americans have wanted a leader who is simultaneously a man of the people and a man above the people In See How They Ran Troy shows that our disappointment with current presidential campaigns is simply the latest chapter in a centuries long struggle to make peace with the idea of leadership in a democratic society This is an engrossing and essential read
