The collection s three sections address broad issues related to genre Harry Potter's development as the central heroic character and the question of who qualifies as a hero in the Harry Potter series Among the topics are Harry Potter as both epic and postmodern hero the series as a modern day example of psychomachia the series indebtedness to the Gothic tradition Harry's development in the first six film adaptations Harry Potter and the idea of the English gentleman Hermione Granger's explicitly female version of heroism adult role models in Harry Potter and the complex depictions of heroism exhibited by the series minor characters Together the essays suggest that the Harry Potter novels rely on established generic moral and popular codes to develop new and genuine ways of expressing what a globalized world has applauded as ethically exemplary models of heroism based on responsibility courage humility and kindness Novel Histories Lisa Kasmer, 2012-01-12 Novel Histories British Women Writing History 1760 1830 explores issues of historical and literary genres historiography and the gendering of civic and literary roles It demonstrates the new and sometimes subversive ways that women authors pushed the limits of writing history in order to participate in contemporary national civic life otherwise closed to them **Property, Education and Identity in Late Eighteenth-Century Fiction** V. Cope, 2009-05-29 This book recovers the importance of a major figure in eighteenth century British fiction the Heroine of Disinterest The disinterested heroine was no stereotype but a crucial figure in modernizing identity bringing to life the ideal of character as the product of experience and reflection rather than inheritance and lineage Unquiet Things Colin Jager, 2015 In Great Britain during the Romantic period governmental and social structures were becoming more secular as religion was privatized and depoliticized If the discretionary nature of religious practice permitted spiritual freedom and social differentiation however secular arrangements produced new anxieties Unquiet Things investigates the social and political disorders that arise within modern secular cultures and their expression in works by Jane Austen Horace Walpole Samuel Taylor Coleridge Lord Byron and Percy Shelley among others Emphasizing secularism rather than religion as its primary analytic category Unquiet Things demonstrates that literary writing possesses a distinctive ability to register the discontent that characterizes the mood of secular modernity Colin Jager places Romantic era writers within the context of a longer series of transformations begun in the Reformation and identifies three ways in which romanticism and secularism interact the melancholic mood brought on by movements of reform the

minoritizing capacity of literature to measure the disturbances produced by new arrangements of state power and a prospective romantic thinking Jager calls after the secular The poems novels and letters of the romantic period reveal uneasy traces of the spiritual past haunted by elements that trouble secular politics at the same time they imagine new and more equitable possibilities for the future In the twenty first century Jager contends we are still living within the terms of the romantic response to secularism when literature and philosophy first took account of the consequences of modernity
