Versuch. Neue Ausgabe, mit einem Vorwort des Verfassers** , 1935 *German Soldiers and the Occupation of France,
1940-1944* Julia S. Torrie, 2018-10-11 From 1940 to 1944 German soldiers not only fought in and ruled over France but also
lived their lives there While the combat experiences of German soldiers are relatively well documented as are the everyday
lives of the occupied French population we know much less about occupiers daily activities beyond combat especially when it
comes to men who were not top level administrators Using letters photographs and tour guides alongside official sources
Julia S Torrie reveals how ground level occupiers understood their role and how their needs and desires shaped policy and
practices At the same time as soldiers were told to dominate and control France they were also encouraged to sight see to
photograph and to consume the country leading to a familiarity that limited violence rather than inciting it The lives of these
ordinary soldiers offer new insights into the occupation of France the history of Nazism and the Second World War **The
Inverted Mirror** Michael E. Nolan, 2005 It is hard to imagine nowadays that for many years France and Germany considered
each other as arch enemies And yet for well over a century these two countries waged verbal and ultimately violent wars
against each other This study explores a particularly virulent phase during which each of these two nations projected certain
assumptions about national character onto the other distorted images motivated by antipathy fear and envy which
contributed to the growing hostility between the two countries in the years before the First World War Most remarkably as
the author discovered the qualities each country ascribed to its chief adversary appeared to be exaggerated or negative
versions of precisely those qualities that it perceived to be lacking or inadequate in itself Moreover banishing undesirable
traits and projecting them onto another people was also an essential step in the consolidation of national identity As such it
established a pattern that has become all too familiar to students of nationalism and xenophobia in recent decades This study
shows that antagonism between states is not a fact of nature but socially constructed *Zeitschrift für französischen und
